RACF Remote Sharing Facility over TCP/IP Karan Singh,Rama Ayyar,Mike Onghena,Phil Peters,Arunkumar Ramachandran,Philippe Richard,Roland Schwahn,IBM Redbooks,2012-08-30 The IBM RACF® remote sharing facility (RRSF) allows RACF to communicate with other IBM z/OS® systems that use RACF, allowing you to maintain remote RACF databases. RRSF support for the security administrator provides these benefits: Administration of RACF databases from anywhere in the RRSF network Creation of User ID associations for password and password phrase synchronization Automatic synchronization of databases Before to z/OS V1R13, RRSF only supported the APPC protocol. With z/OS release V1R13, TCP/IP can be used to extend the RACF Remote Sharing Facility (RRSF) functionality to a network of RRSF nodes capable of communicating over the TCP/IP protocol. Using TCP/IP connections for RRSF nodes provides advantages over APPC such as improved security, including stronger encryption levels. This IBM® Redbooks® publication addresses the issue of implementing a new RRSF network using the TCP/IP protocol. It covers planning, implementation, and operational issues for deploying RRSF using TCP/IP. In addition, It addresses migration of an RRSF network from APPC to TCP/IP, including in-depth examples of the migration process.

**Remote Cooperation: CSCW Issues for Mobile and Teleworkers** Alan J. Dix, Russell Beale, 1996-10-18 We are constantly being told we are living in a shrinking world, but for many the opposite seems to be the case. Our work is increasingly being done out of the traditional office environment: whilst traveling, at clients' premises or at home. We are living further from where we work and we work for global organizations and our colleagues and contacts may be in different countries or different continents. At the same time our lives are more and more dependent on constant access to information and one another, but our connectivity whilst on the move or at home is often far less efficient than that of the fixed office. How do we work cooperatively when we are so far apart?
