Command & Conquer (tm) Keith R.A. DeCandido, 2009-07-22 The official novel of the bestselling real-time strategy franchise • In the twenty-first century, Earth is infested with Tiberium, an alien substance that could be humanity's salvation . . . or its downfall. Though Tiberium is a resource that could solve the world's energy crisis, it is also incredibly destructive, spreading disease, death, and devastation. Tiberium has divided the planet into two factions: the Global Defense Initiative (GDI), which tries to maintain order at any cost, and the Brotherhood of Nod, a terrorist organization turned superpower that believes with religious fervor in the potential of Tiberium. The groups have already fought two world wars, killing millions. Now, in the year 2047, a vicious Nod attack compels GDI to mobilize. Another epic global war is being waged, with humanity's fate in the balance. One of GDI's top units, the 22nd Infantry Division, must halt Nod's agenda and keep the world from devolving into further chaos and loss of life. But in the midst of heavy fighting all over the world, mysterious visitors arrive . . . who may spell doom for the human race.

Command Of The Air General Giulio Douhet, 2014-08-15 In the pantheon of air power spokesmen, Giulio Douhet holds center stage. His writings, more often cited than perhaps actually read, appear as excerpts and aphorisms in the writings of numerous other air power spokesmen, advocates-and critics. Though a highly controversial figure, the very controversy that surrounds him offers to us a testimonial of the value and depth of his work, and the need for airmen today to become familiar with his thought. The progressive development of air power to the point where, today, it is more correct to refer to aerospace

power has not outdated the notions of Douhet in the slightest. In fact, in many ways, the kinds of technological capabilities that we enjoy as a global air power provider attest to the breadth of his vision. Douhet, together with Hugh “Boom” Trenchard of Great Britain and William “Billy” Mitchell of the United States, is justly recognized as one of the three great spokesmen of the early air power era. This reprint is offered in the spirit of continuing the dialogue that Douhet himself so perceptively began with the first edition of this book, published in 1921. Readers may well find much that they disagree with in this book, but also much that is of enduring value. The vital necessity of Douhet’s central vision—that command of the air is all important in modern warfare—has been proven throughout the history of wars in this century, from the fighting over the Somme to the air war over Kuwait and Iraq.

Command and Control Eric Schlosser, 2013-09-17 The Oscar-shortlisted documentary *Command and Control*, directed by Robert Kenner, finds its origins in Eric Schlosser's book and continues to explore the little-known history of the management and safety concerns of America's nuclear arsenal. “Deeply reported, deeply frightening . . . a techno-thriller of the first order.” —Los Angeles Times “A devastatingly lucid and detailed new history of nuclear weapons in the U.S. . . . fascinating.” —Lev Grossman, *TIME* Magazine A myth-shattering exposé of America’s nuclear weapons. Famed investigative journalist Eric Schlosser digs deep to uncover secrets about the management of America’s nuclear arsenal. A groundbreaking account of accidents, near misses, extraordinary heroism, and technological breakthroughs, *Command and Control* explores the dilemma that has existed since the dawn of the nuclear age: How do you deploy weapons of mass destruction without

being destroyed by them? That question has never been resolved—and Schlosser reveals how the combination of human fallibility and technological complexity still poses a grave risk to mankind. While the harms of global warming increasingly dominate the news, the equally dangerous yet more immediate threat of nuclear weapons has been largely forgotten. Written with the vibrancy of a first-rate thriller, *Command and Control* interweaves the minute-by-minute story of an accident at a nuclear missile silo in rural Arkansas with a historical narrative that spans more than fifty years. It depicts the urgent effort by American scientists, policy makers, and military officers to ensure that nuclear weapons can't be stolen, sabotaged, used without permission, or detonated inadvertently. Schlosser also looks at the Cold War from a new perspective, offering history from the ground up, telling the stories of bomber pilots, missile commanders, maintenance crews, and other ordinary servicemen who risked their lives to avert a nuclear holocaust. At the heart of the book lies the struggle, amid the rolling hills and small farms of Damascus, Arkansas, to prevent the explosion of a ballistic missile carrying the most powerful nuclear warhead ever built by the United States. Drawing on recently declassified documents and interviews with people who designed and routinely handled nuclear weapons, *Command and Control* takes readers into a terrifying but fascinating world that, until now, has been largely hidden from view. Through the details of a single accident, Schlosser illustrates how an unlikely event can become unavoidable, how small risks can have terrible consequences, and how the most brilliant minds in the nation can only provide us with an illusion of control. Audacious, gripping, and unforgettable, *Command and Control* is a tour de force of investigative journalism, an eye-opening look at the dangers of America's

nuclear age.

Masters of Command Barry Strauss, 2013-05-21 Analyzes the leadership and strategies of three forefront military leaders from the ancient world, offers insight into the purposes behind their conflicts, and shows what today's leaders can glean from their successes and failures.

To Dare and to Conquer Derek Leebaert, 2009-05-30 In the tradition of *Guns, Germs, and Steel*, Leebaert tells the stories of small forces that have triumphed over vastly larger ones and changed the course of history -- from the Trojan Horse to Al Qaeda. Maps and charts.

Supreme Command Eliot A. Cohen, 2012-04-17 The relationship between military leaders and political leaders has always been a complicated one, especially in times of war. When the chips are down, who should run the show -- the politicians or the generals? In *Supreme Command*, Eliot Cohen examines four great democratic war statesmen -- Abraham Lincoln, Georges Clemenceau, Winston Churchill, and David Ben-Gurion -- to reveal the surprising answer: the politicians. Great statesmen do not turn their wars over to their generals, and then stay out of their way. Great statesmen make better generals of their generals. They question and drive their military men, and at key times they overrule their advice. The generals may think they know how to win, but the statesmen are the ones who see the big picture. Lincoln, Clemenceau, Churchill, and Ben-Gurion led four very different kinds of democracy, under the most difficult circumstances imaginable. They came from four very different backgrounds -- backwoods lawyer, dueling French doctor, rogue aristocrat, and impoverished Jewish socialist. Yet they faced similar challenges, not least the

possibility that their conduct of the war could bring about their fall from power. Each exhibited mastery of detail and fascination with technology. All four were great learners, who studied war as if it were their own profession, and in many ways mastered it as well as did their generals. All found themselves locked in conflict with military men. All four triumphed. Military men often dismiss politicians as meddlers, doves, or naifs. Yet military men make mistakes. The art of a great leader is to push his subordinates to achieve great things. The lessons of the book apply not just to President Bush and other world leaders in the war on terrorism, but to anyone who faces extreme adversity at the head of a free organization -- including leaders and managers throughout the corporate world. The lessons of Supreme Command will be immediately apparent to all managers and leaders, as well as students of history.

The Club Leo Damrosch, 2019-03-26 Prize-winning biographer Leo Damrosch tells the story of “the Club,” a group of extraordinary writers, artists, and thinkers who gathered weekly at a London tavern. In 1763, the painter Joshua Reynolds proposed to his friend Samuel Johnson that they invite a few friends to join them every Friday at the Turk’s Head Tavern in London to dine, drink, and talk until midnight. Eventually the group came to include among its members Edmund Burke, Adam Smith, Edward Gibbon, and James Boswell. It was known simply as “the Club.” In this captivating book, Leo Damrosch brings alive a brilliant, competitive, and eccentric cast of characters. With the friendship of the “odd couple” Samuel Johnson and James Boswell at the heart of his narrative, Damrosch conjures up the precarious, exciting, and often brutal world of late eighteenth-century Britain. This is the story of an extraordinary group of people whose ideas helped to shape

their age, and our own.

War with Russia Richard Shirreff, 2016-09-27 The rapid rise in Russia's power over the course of the last ten years has been matched by a stunning lack of international diplomacy on the part of its president, Vladimir Putin. One consequence of this, when combined with Europe's rapidly shifting geopolitics, is that the West is on a possible path toward nuclear war. Former deputy commander of NATO General Sir Richard Shirreff speaks out about this very real peril in this call to arms, a novel that is a barely disguised version of the truth. In chilling prose, it warns allied powers and the world at large that we risk catastrophic nuclear conflict if we fail to contain Russia's increasingly hostile actions. In a detailed plotline that draws upon Shirreff's years of experience in tactical military strategy, Shirreff lays out the most probable course of action Russia will take to expand its influence, predicting that it will begin with an invasion of the Baltic states. And with GOP presidential candidate Donald Trump recently declaring that he might not come to the aid of these NATO member nations were he to become president, the threat of an all-consuming global conflict is clearer than ever. This critical, chilling fictional look at our current geopolitical landscape, written by a top NATO commander, is both timely and necessary—a must-read for any fan of realistic military thrillers as well as all concerned citizens.

Video Games Around the World Mark J. P. Wolf,2015-05-01 Thirty-nine essays explore the vast diversity of video game history and culture across all the world's continents. Video games have become a global industry, and their history spans dozens of national industries where foreign imports compete with domestic productions, legitimate industry contends

with piracy, and national identity faces the global marketplace. This volume describes video game history and culture across every continent, with essays covering areas as disparate and far-flung as Argentina and Thailand, Hungary and Indonesia, Iran and Ireland. Most of the essays are written by natives of the countries they discuss, many of them game designers and founders of game companies, offering distinctively firsthand perspectives. Some of these national histories appear for the first time in English, and some for the first time in any language. Readers will learn, for example, about the rapid growth of mobile games in Africa; how a meat-packing company held the rights to import the Atari VCS 2600 into Mexico; and how the Indonesian MMORPG Nusantara Online reflects that country's cultural history and folklore. Every country or region's unique conditions provide the context that shapes its national industry; for example, the long history of computer science in the United Kingdom and Scandinavia, the problems of piracy in China, the PC Bangs of South Korea, or the Dutch industry's emphasis on serious games. As these essays demonstrate, local innovation and diversification thrive alongside productions and corporations with global aspirations. Africa • Arab World • Argentina • Australia • Austria • Brazil • Canada • China • Colombia • Czech Republic • Finland • France • Germany • Hong Kong • Hungary • India • Indonesia • Iran • Ireland • Italy • Japan • Mexico • The Netherlands • New Zealand • Peru • Poland • Portugal • Russia • Scandinavia • Singapore • South Korea • Spain • Switzerland • Thailand • Turkey • United Kingdom • United States of America • Uruguay • Venezuela
