📖 **Games and Rules** Beat Suter,Mela Kocher,Ren- Bauer,2019-03-31 Why do we play games and why do we play them on computers? The contributors of »Games and Rules« take a closer look at the core of each game and the motivational system that is the game mechanics. Games are control circuits that organize the game world with their (joint) players and establish motivations in a dedicated space, a »magic circle«, whereas game mechanics are constructs of rules designed for interactions that provide gameplay. Those rules form the base for all the excitement and frustration we experience in games. This anthology contains individual essays by experts and authors with backgrounds in game design and game studies, who lead the discourse to get to the bottom of game mechanics in video games and the real world - among them Miguel Sicart and Carlo Fabricatore.

📖 **MINECRAFT DUNGEONS: RISE OF THE ARCH-ILLAGER** Matt Forbeck,2021 Brave heroes have banded together to take a perilous journey through the war-torn Overworld to defeat the Arch-Illager and his formidable army.

📖 **Paratextualizing Games** Benjamin Beil,Gundolf S. Freyermuth,Hanns Christian Schmidt,2021-11-30 Gaming no longer only takes place as a ›closed interactive experience‹ in front of TV screens, but also as broadcast on streaming platforms or as cultural events in exhibition centers and e-sport arenas. The popularization of new technologies, forms of expression, and online services has had a considerable influence on the academic and journalistic discourse about games. This anthology examines which paratexts gaming cultures have produced - i.e., in which forms and formats and through which channels we talk (and write) about games - as well as the way in which paratexts influence the development of games. How is knowledge about games generated and shaped today and how do boundaries between (popular) criticism, journalism, and scholarship have started to blur? In short: How does the paratext change the text?
