The Federalist Papers Alexander Hamilton, John Jay, James Madison, 2018-08-20 Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

The Federalist Papers (Including Declaration of Independence & United States Constitution) Alexander Hamilton, James Madison, John Jay, 2023-12-12 The Federalist Papers, originally written and published during 1787 and 1788 in several New York State newspapers, intended to promote the ratification of the United States Constitution. They were widely read and respected for their masterly analysis and interpretation of the Constitution and constitutional principles upon which the government of the United States was established. This influential collection of 85 articles and essays written by Alexander Hamilton, James Madison, and John Jay remains to this day a treasured historical document for anyone who wants to understand the U.S. Constitution.

The Federalist Papers Alexander Hamilton, John Jay, James Madison, 2021-06-29 The Federalist, commonly referred to as the Federalist Papers, is a series of 85 essays written by Alexander Hamilton, John Jay, and James Madison between October 1787 and May 1788. The essays were published anonymously, under the pen name Publius, in various New York state newspapers of the time. The Federalist Papers were written and published to urge New Yorkers to ratify the proposed United States Constitution, which was drafted in Philadelphia in the summer of 1787. In lobbying for adoption of the Constitution over the existing Articles of Confederation, the essays explain particular provisions of the Constitution in detail. For this reason, and because Hamilton and Madison were each members of the Constitutional Convention, the Federalist Papers are often used today to help interpret the intentions of those drafting the Constitution. The Federalist Papers were published primarily in two New York state newspapers: The New York Packet and The Independent Journal. They were reprinted in other newspapers in New York state and in several cities in other states. A bound edition, with revisions and corrections by Hamilton, was published in 1788 by printers J. and A. McLean. An edition published by printer Jacob Gideon in 1818, with revisions and corrections by Madison, was the first to identify each essay by its author's name. Because of its publishing history, the assignment of authorship, numbering, and exact wording may vary with different editions of The Federalist.

The Federalist Papers Alexander Hamilton, James Madison, John Jay, 2015-09-09 The Federalist Papers are a collection of eighty-five articles and essays written by Alexander Hamilton, James Madison, and John Jay in favor of ratifying the United States Constitution. First appearing in 1787 as a series of letters to New York newspapers, this collective body of work is widely considered to be among the most important historical collections of all time. Although the authors of The Federalist Papers foremost intended to influence the vote in favor of ratifying the Constitution, in Federalist No. 1 Hamilton explicitly set their debate in broader political terms. "It has been frequently remarked," he wrote, "that it seems to have been reserved to the people of this country, by their conduct and example, to decide the important question, whether societies of men are really capable or not of establishing good government from reflection and choice, or whether they are forever destined to depend for their political constitutions on accident and force. Among the many highlights of these acclaimed essays is Federalist No. 10, in which Madison discusses the means of preventing rule by majority faction and advocates for a large, commercial republic. This is generally regarded as the most important of the eighty-five essays from a philosophical perspective, and it is complemented by Federalist No. 14, in which Madison takes the measure of the United States, declares it appropriate for an extended republic, and concludes with a memorable defense of the Constitution. In Federalist No. 70, Hamilton advocates for a one-man chief executive, and in Federalist No. 78 he persuasively lays the groundwork for the doctrine of judicial review by federal courts. Though centuries old, these timeless essays remain the benchmark of American political philosophy. As eloquently stated by famed historian Richard B. Morris, The Federalist Papers serve as an incomparable exposition of the Constitution, a classic in political science unsurpassed in both breadth and depth by the product of any later American writer.

were published serially in The Independent Journal and The New York Packet between October 1787 and August 1788. A compilation of these and eight others, called The Federalist; or, The New Constitution, was published in two volumes in 1788 by J. and A. McLean. The collection's original title was The Federalist; the title The Federalist Papers did not emerge until the 20th century. Though the authors of The Federalist Papers foremost wished to influence the vote in favor of ratifying the Constitution, in Federalist No. 1 they explicitly set that debate in broader political terms: It has been frequently remarked, that it seems to have been reserved to the people of this country, by their conduct and example, to decide the important question, whether societies of men are really capable or not, of establishing good government from reflection and choice, or whether they are forever destined to depend, for their political constitutions, on accident and force. Highlights abound in the essays of The Federalist. Federalist No. 10, in which Madison discusses the means of preventing rule by majority faction and advocates a large, commercial republic, is generally regarded as the most important of the 85 articles from a philosophical perspective; it is complemented by Federalist No. 14, in which Madison takes the measure of the United States, declares it appropriate for an extended republic, and concludes with a memorable defense of the constitutional and political creativity of the Federal Convention. In Federalist No. 84, Hamilton makes the case that there is no need to amend the Constitution by adding a Bill of Rights, insisting that the various provisions in the proposed Constitution protecting liberty amount to a bill of rights. Federalist No. 78, also written by Hamilton, lays the groundwork for the doctrine of judicial review by federal courts of federal legislation or executive acts. Federalist No. 70 presents Hamilton's case for a one-man chief executive. In Federalist No. 39, Madison presents the clearest exposition of what has come to be called Federalism. In Federalist No. 51, Madison distills arguments for checks and balances in an essay often quoted for its justification of government as the greatest of all reflections on human nature. THE FEDERALIST PAPERS ALEXANDER HAMILTON JOHN JAY JAMES MADISON, AFTER an unequivocal experience of the inefficacy of the subsisting federal government, you are called upon to deliberate on a new Constitution for the United States of America. The subject speaks its own importance; comprehending in its consequences nothing less than the existence of the UNION, the safety and welfare of the parts of which it is composed, the fate of an empire in many respects the most interesting in the world. It has been frequently remarked that it seems to have been reserved to the people of this country, by their conduct and example, to decide the important question, whether societies of men are really capable or not of establishing good government from reflection and choice, or whether they are forever destined to depend for their political constitutions on accident and force. If there be any truth in the remark, the crisis at which we are arrived may with propriety be regarded as the era in which that decision is to be made; and a wrong election of the part we shall act may, in this view, deserve to be considered as the general misfortune of mankind. This idea will add the inducements of philanthropy to those of patriotism, to heighten the solicitude which all considerate and good men must feel for the event. Happy will it be if our choice should be directed by a judicious estimate of our true interests, unperplexed and unbiased by considerations not connected with the public good. But this is a thing more ardently to be wished than seriously to be expected. The plan offered to our deliberations affects too many particular interests, innovates upon too many local institutions, not to involve in its discussion a variety of objects foreign to its merits, and of views, passions and prejudices little favorable to the discovery of truth. Among the most formidable of the obstacles which the new Constitution will have to encounter may readily be distinguished the obvious interest of a certain class of men in every State to resist all changes which may hazard a diminution of the power, emolument, and consequence of the offices they hold under the State establishments; and the perverted ambition of another class of men, who will either hope to aggrandize themselves by the confusions of their country, or will flatter themselves with fairer prospects of elevation from the subdivision of the empire into several partial confederacies than from its union under one government.
