Shattered Silence Volume 1 Taneen M. Swindell,2011-07-27 This book came about during a time of despairity. I had lost my job and had been out of work for over two years. I then decided to look within to try to help my family stay afloat in our new world of so many uncertainties. I wrote this book out of my pain, insecurities, struggles, and many adversities. This book was written from one victim to another to help them realize that we can take all that we’ve been through and become empowered by it rather than to blame others or sulk. This book was designed to help bring the winner out of people that has once felt like a failure, it’s also to free people that has victimized others and encourage them to come to true repentance & completely change their way of thinking as well as their way of life. This book was written by a tender flower that throughout the process of writing this book has since grown into a cement rose. I’m much stronger then I used to be but even with all that has transpired in my life, I still dare to truly love others and genuinely care about them. Thank you for reading my books, God bless!
