A Treatise on the Law of Obligations: Or Contracts; Robert Joseph Pothier,William David Evans,H. Fr D' Aguesseau,2017-08-22

Ceasefire Agreements and Peace Processes Malin Akebo,2016-11-10 This book analyses and compares ceasefire agreements as part of peace processes in intrastate armed conflicts. Research repeatedly underscores the importance of ceasefire agreements in peace processes but suggests that they can influence such processes in fundamentally different ways. However, despite contradictory expectations, remarkably few studies have so far been devoted to systematic and in-depth analysis of ceasefire agreements in contemporary intrastate armed conflicts. This book contributes to filling this gap by using a process-oriented conflict dynamics approach to analyse and explain how ceasefire agreements are being influenced by and in turn influences the broader dynamics of peace processes. Empirically, the book focuses on the armed conflicts in Aceh (Indonesia) and Sri Lanka. Based on document studies and 57 interviews with key actors, it presents comparative insights and in-depth knowledge about ceasefire agreements in different contextual settings. The book problematizes the common assumption in the literature that ceasefire agreements create momentum in peace processes and pave the way to peace, and it provides a more nuanced analysis and understanding based on two empirical cases analysed within a comparative framework. In contrast to conventional wisdom, it demonstrates how ceasefires on the contrary also can have negative implications on peace processes. This book will be of much interest to students of conflict resolution, peace studies, intra-state conflict, security studies and IR in general.

Contracts David Zarfes,Michael L. Bloom,2010-12-27 This concise paperback, which will be a valuable supplementary text to any traditional contracts casebook, combines cases and actual contracts to bring a real-world practical perspective to the first-year contracts classroom. Contracts: A Transactional Approach fills the long-felt need by professors, students, and practitioners for a teaching approach to contracts that focuses on practical and transactional skills.and Contracts: A Transactional Approach introduces business contracts and transactions to the first-year contracts class in a unique fashion: Actually executed agreements between sophisticated parties give students exposure to the sort of agreements they will encounter in practice as either a litigator or a transactional attorney. Agreements are lightly edited and are presented as whole documents unbroken by discussion to force the student to read and analyze contracts in their entirety. Focus points and, where appropriate, practitioner comments before each agreement help focus the student's attention on important concepts. The authors begin with the simplest agreement and iteratively build on the same lessons. The discussion is tailored to basic provisions and their interaction with contract law, enabling students to build familiarity with once seemingly foreign contractual provisions and concepts. Lessons focus on the building block provisions (e.g., recitals, representations, warranties, indemnities, limitations of liability, restrictive covenants, liquidated damages) typically found in sophisticated contracts, including the judicial treatment of those provisions. Practitioner comments from experts in the field provide insight and advice on relevant topics to give a real world and practical perspective and to drive home the relevance of these concepts to students. This book teaches students how to read and understand contracts (and to anticipate how judges may read and understand contracts) so that the student can better draft contracts. Drafting tips are sprinkled throughout the book.
