**Convoy Will Scatter** Bernard Edwards,2013-06-12 On 5 November, 1940 the eastbound convoy HX 84 of thirty-seven merchant ships, escorted by the armed merchant cruiser HMS Jervis Bay, was attacked in mid-Atlantic by the German pocket battleship Admiral Scheer. The Jervis Bay, commanded by Captain Edward Fegen, charged at the enemy. Hopelessly out-gunned, she was blown out of the water by the Scheer's 11-inch guns.??Meanwhile, led by HX 84's commodore ship, the Cardiff tramp Cornish City, the merchantmen scattered under the cover of a smoke screen, were picked off one by one by the radar-equipped Admiral Scheer.??Captain Hugh Pettigrew, commanding the highly armed Canadian Pacific cargo liner Beaverford, began a desperate game of hide and seek with the Scheer, which continued until Beaverford was sunk with no survivors. Thanks to this sacrifice, incredibly only four other merchantmen were sunk.??Later the neutral flag Swedish freighter Stureholm, commanded by Captain Olander, picked up survivors from the Jervis Bay. Without this brave and dangerous gesture no one would have lived to tell the tale of the death throes of the Jervis Bay, whose Captain was awarded the VC.??Sadly, the history books only mention the Beaverford and the Stureholm in passing. This thrilling book puts the record straight.

**Allied Convoys to Northern Russia, 1941-1945** William Smith,2024-03-30 While the experiences of the men and ships who sailed in the Allied convoys to North Russia between August 1941 and May 1945 have been fully documented, the wider political, diplomatic and military factors which determined the campaign are less well known. The principal actors Roosevelt, Churchill and Stalin each had their own agendas and expectations, influenced by advisers and competing national priorities. These inevitably gave rise to differences putting pressure in turn on the convoy program while the varying effectiveness of German counter-action was a significant and unpredictable factor. 1942 was dominated by pressure on Churchill from Roosevelt and Stalin to increase the size of convoys at a time when the Royal Navy lacked the necessary escorts. This deficiency was exacerbated by heavy merchant shipping losses and the demands of Operation TORCH. The temporary convoy suspension in 1943 followed the deployment of German heavy warships to Norway and the diversion of escorts to Operation HUSKY. A serious Anglo-Soviet rift, which led to Allied threats to discontinue the program, was only resolved by lengthy negotiations. It resumed until temporarily suspended due to the D-Day landings after which the increasing escort availability allowed operations to run uninterrupted until May 1945. This carefully researched work providing an overview of the strategic factors dominating the costly yet war-winning Arctic convoy program will be welcomed by experts and laymen alike.

**The Royal Navy and the Mediterranean Convoys** Malcolm Llewellyn-Jones,2013-09-05 This book contains the Naval Staff History originally issued by the Admiralty in 1957 as a confidential book for use within the Royal Navy. It has since been declassified and is published here for the first time, along with an extended preface. This volume describes the dangerous convoy operations in the Mediterranean which were necessary to relieve the garrison and people of Malta, covering the period from the beginning of 1941 until the end of 1942. These convoys had to be fought through against determined attack by German and Italian surface, submarine and, particularly, air forces. Although casualties were proportionately higher than in Atlantic convoys, Malta was successfully re-supplied and remained a considerable impediment to enemy's attempts to supply their armies in North Africa. These operations reveal the dedication, courage and professionalism of the sailors (of both naval and merchant services) as well as the airmen who supported them. A new preface sets the scene for the Staff History. The Royal Navy and the Mediterranean Convoys will be of great interest for students interested in the Mediterranean Convoys, Second World War and naval and military history.

**World War II Sea War, Vol 10: Il Duce Deposed** Gordon Smith,Don Kindell,Donald A. Bertke,2009 Comprehensive list of day-to-day naval actions from July 1943 through September 1943. Major events include Allied invasions of Sicily and Italy, plus continued action in the Solomon and New Guinea Islands, and the US liberation of Kiska Island.

Arctic Convoys 1942 Mark Lardas,2022-09-15 A new history of the most crucial few months of the Arctic Convoys, when Germany's air power forced the Allies to retreat to the cover of winter. Between spring and autumn 1942, Germany was winning the battle of the Arctic Convoys. Half of PQ-15 was sunk in May, PQ-17 was virtually obliterated in July, and in September 30 percent of PQ-18 was sunk. The Allies were forced to suspend the convoys until December, when the long Arctic nights would shield them. Mark Lardas argues that in 1942, it was Luftwaffe air power that made the difference. With convoys sailing in endless daylight, German strike aircraft now equipped and trained for torpedo attacks, and bases in northern Norway available, the Luftwaffe could wreak havoc. Three-quarters of the losses of PQ-18 were due to air attacks. But in November, the Luftwaffe was redeployed south to challenge the Allied landings in North Africa, and the advantage was lost. Despite that, the Allies never again sailed an Arctic convoy in the summer months. Fully illustrated with archive photos, striking new artwork, maps and diagrams, this is the remarkable history of the Luftwaffe's last strategic victory of World War II.

**The Santa Marija Convoy** Dennis Castillo,2011-12-29 During World War II, Malta played a key role in the Mediterranean campaign, its submarines, light surface forces, and aircrafts destroying supplies desperately needed by Rommel's forces in North Africa. The price the Maltese paid for this effort was the most sustained and intensive bombing campaign in the war, enduring over 130 tons of bombs per square mile. This, compounded by the Axis blockade that attempted to starve Malta into surrender, set the stage for numerous convoy battles, the most dramatic being Operation Pedestal, remembered on Malta to this day as the Santa Marija Convoy. In this book, Dennis Castillo uses published histories as well as interviews and oral histories to explore the experiences of the Maltese and how their faith sustained them through this dark period of Matla's history.

**Critical Convoy Battles of WWII** Jürgen Rohwer,2015-11-15 Remarkable...a feat of historical reconstruction.—Paul Kennedy, New York Times bestselling author of The Rise and Fall of the Great Powers The Battle of the Atlantic, the longest continuous campaign of World War II, climaxed in 1943, when Germany came closest to interrupting Allied supply lines and perhaps winning the war. In March of that year, German U-boats scored their last great triumph, destroying nearly 150,000 tons of supplies and fuel. • Blow-by-blow account of the largest convoy battle of the war • Analyzes the tactics, technology, and intelligence of both sides
