**Picture Cookbook** Joyce Dassonville, Ehren McDow, 2008-06 There has never been a cookbook like this, nor has there been a book that could improve the lives of families with special needs members more than this book has the potential

to do. After a futile search to buy a book for teaching her daughter to cook, the author eventually wrote the book she had sought to buy. The first in a series of four cookbooks for budding chefs with special needs including autism, attention deficit disorder, Down's Syndrome, Alzheimer's disease, illiteracy, advanced or young age, THE PICTURE COOKBOOK is the result of the author's four years of efforts teaching her own autistic daughter to cook and bake. The title says it all, but the book is more than a series of step-by-step pictures leading the chef to a proud completion. All aspects of avoiding injury and ensuring success have been cleverly thought through. Using modern kitchen tools, the authors have written recipes that are safe for anyone to use, be they young children, confused adults or people with special needs. Furthermore, for the benefit of teachers and caregivers, instructions on the process of teaching someone to use the cookbook are detailed, as well as discussions of issues that can arise. The picture index allows cooks to easily spot their favourite recipes without the need to read or understand names. The book boasts lay-flat binding, extensive colour-coding, and beautifully laid out colour photography.
