Boston, Inspirational Women, 2011 This stunning photography book is comprised of more than 125 black-and-white portraits by father-and-daughter team Bill Brett and Kerry Brett. They reveal prominent doctors; accomplished actors and writers; respected business leaders; successful politicians; dedicated moms; and some of the most important philanthropists in the country. This is about women who are making a difference in Boston and the world, and it is compelling for its content and stunning in its beauty.

True Confessions from the Ninth Concession Dan Needles, 2017-08-26 Author and playwright Dan Needles has long delighted readers and audiences alike with his insightful and laugh-out-loud perspective on small-town life, published in such bestselling books as *Wingfield's World* (Random House, 2011), *Wingfield's Hope* (Key Porter, 2005), *With Axe and Flask* (McFarlane, Walter and Ross, 2002) and *Letters From Wingfield Farm* (Key Porter, 1988). In 1988, Needles and his wife left the city to start a family in a country community located two hours north of Toronto. Together they stocked their farm with sheep, cattle, chickens, pigs and, eventually, four children. Needles' charming chronicle unfolds in essays dated from 1997 to 2016, offering homespun advice for successful country living--like whether to wave from the elbow or to merely raise one finger from the steering wheel when passing a neighbour in the car. He cautions on rural superstitions, such as when his neighbour hesitated before selling him weaner pigs because every time he does the wife of the farmer who's buying them becomes pregnant--which turned out to be true. Here too is the tale of an unlikely friendship between a borderline collie (he's never bitten anything in his life and the sheep are catching on) and an odd duck named Ferdinand, as well as other hilarious stories involving an assortment of farm animals, including the weapon of choice to properly dispatch a rooster-gone-bad; the risks of giving a name to a potential Sunday dinner entrée; and how to outsmart a free-range pig. With his witty insight, Needles shares the art of neighbouring in the country--a place made for visits, and where a figure walking across your field is more of a reason to put the kettle on than to call the police. *True Confessions from the Ninth Concession* is a sesquicentennial crop of antics and aphorisms by Canada's funniest farmer--one that presents a wonderful escape for world-weary city dwellers, and affirmative reading for anyone who is from, or has moved to, rural Canada.

Anarchist Pedagogies Robert H. Haworth, 2012-08-01 Education is a challenging subject for anarchists. Many are critical about working within a state-run education system that is embedded in hierarchical, standardized, and authoritarian structures. Numerous individuals and collectives envision the creation of counterpublics or alternative educational sites as possible forms of resistance, while other anarchists see themselves as “saboteurs” within the public arena—believing that there is a need to contest dominant forms of power and educational practices from multiple fronts. Of course, if anarchists agree that there are no blueprints for education, the question remains, in what dynamic and creative ways can we construct nonhierarchical, anti-authoritarian, mutual, and voluntary educational spaces? Contributors to this edited volume engage readers in important and challenging issues in the area of anarchism and education. From Francisco Ferrer’s modern schools in Spain and the Work People’s College in the United States, to contemporary actions in developing “free skools” in the U.K. and Canada, to direct-action education such as learning to work as a “street medic” in the protests against neoliberalism, the contributors illustrate the importance of developing complex connections between educational theories and collective actions. Anarchists, activists, and critical educators should take these educational experiences seriously as they offer invaluable examples for potential teaching and learning environments outside of authoritarian and capitalist structures. Major themes in the volume include: learning from historical anarchist experiments in education, ways that contemporary anarchists create dynamic and situated learning spaces, and finally, critically reflecting on theoretical frameworks and educational practices. Contributors include: David Gabbard, Jeffery Shantz, Isabelle Fremeaux & John Jordan, Abraham P. DeLeon, Elsa Noterman, Andre Pusey, Matthew Weinstein, Alex Khasnabish, and many others.

International Dictionary of Marketing and Communication Frank William. Jefkins, 2012-12-06 This dictionary covers marketing communications in the broadest sense, including advertising, but also extending to public relations which concerns many organizations not involved in marketing and which have little to do with advertising. Entries have been gathered from around the world, and this dictionary will therefore be valuable to those operating in an international environment where different terms, or terms with different spellings, are used. There are also terms with different meanings, depending on their country of origin. For example, in the UK newspapers are called press media, while in the USA the term print media is more usual. In the UK, print usually applies to printed items, such as sales or educational literature. Likewise, there are big differences between European and American broadcasting systems, and sponsored radio or TV can mean different things around the world. Outdoor advertising also has different terminology in different countries, especially in North America and the UK. In many cases, alternative British and American terms are given, while some are either European or American. Some terminology is specific to a certain country. Entries have been collected from all parts of the world, including the oramedia or folk media of the Third World. Financial terms have been included because of their increasing importance in advertising and public relations, and the dictionary reflects the increasing relevance of satellites and computers.

Public Relations Frank Jefkins, 2016-06-03 Public Relations discuss the historical background, organization, definition, and promotion of the subject as a management function. The factors that influence public expectations of public relations are presented in detail. A section of the book enumerates the characteristics of an effective PR practitioner. Such factors as ability to communicate, organize, interact with people, having personal integrity, and imagination are explained thoroughly. The book provides a comprehensive discussion of the common and statute law affecting public relations. It also reviews the types of defamation like slander and libel. The topic copyright is explained. A section of the book covers the product’s life cycle. This subject includes the packaging, distribution, sales force, market education, promotion, and merchandising of the product. It is important that management- employee relations should be stimulated by PR techniques. These techniques can be in the form of house journals, notice-boards, audio-visual, speak up schemes, shop-floor talks, staff conferences, and other get-togethers. The book will provide useful information to reporters, advertisers, commercial developers, students and researchers in the field of marketing.

Life, Money and Illusion Mike Nickerson, 2009-09-01 In recent years, unchecked growth has brought us to the brink of economic and environmental collapse. *Life, Money & Illusion* was inspired by the dilemma of having an economic structure that has to grow to remain healthy, while facing the finite limits of our planet. This revised and updated edition launches a review of economic expansion. It examines how growth came to be a goal and how that goal, though once beneficial, is now the propellant for catastrophe. Then, by showing how the economy can be restructured to remain within planetary limits, it points the way to a sustainable future. *Life, Money & Illusion* advocates change by shifting the dominant economic paradigm from growth to sustainability. Techniques include: Measuring progress with social and environmental indicators, along with economic ones Encouraging investment in community Practical changes, such as full cost accounting, tax shifting, and monetary reform Honoring the Golden Rule instead of the Rule of Gold Focusing more on living than on stuff An engaging and empowering vision of a future that celebrates humanity's extraordinary ability to adapt and evolve, *Life, Money & Illusion* will appeal to social activists, business people, students, environmentalists, financial planners, economists, parents, grandparents, and anyone else with a stake in the future. Mike Nickerson is an educator and the author of three books on sustainability. He helped draft the Canada Well-Being Measurement Act and lives in Ontario, Canada.

Public Relations for Marketing Management Frank Jefkins, 1983-12-15

Public Relations for Management Success Frank Jefkins, 2018-04-17 Originally published in 1984. Public relations is a key element necessary for success in all business activities. Although some businessmen see public relations as a separable business function, this book argues convincingly

that public relations should really be an integral management function, practised by all managers, all the time. Public Relations for Management Success defines public relations and examines particular techniques, including media relations and areas of concern such as government/parliamentary liaison and issues such as conservation and pollution. It discusses how public relations activities should be planned, staffed, financed and assessed, putting forward principles illustrated by worldwide case studies and examples.
