**Skid Row Beat** Loren W. Christensen,1999-01-01 When I first came on the Portland PD, says Officer Loren Christensen, skid row was a Wild West show nearly as insane as Saigon, where I had just spent a year. Its wine-soaked streets were teeming with drunks, dopers, jackrollers, pimps, crazies, fighters and killers, all crammed into a filthy 12-square-block area where violence was an hourly event and death loomed nearly every bloody night. With honesty and flair, Christensen offers a rare curbside glimpse into the gritty urban world of skid row. In this colorful tribute to the cops who have worked skid row, as well as the characters who have lived there, Christensen preserves for all time that place where, for decades, man's inhumanity to man revealed itself in a million sordid stories.

**Wednesday's Cop** Joseph B. Geraci,2010-06-22 The 1960s and 1970s were witness to social transformations that would permanently redefine the country. The assassination of President John F. Kennedy, the civil rights movement, riots and the landmark Supreme Court Miranda ruling had the greatest impact. These same transformations would also drastically change the complexion of law enforcement. Using his diary which was written over a period of eleven years, Dr. Geraci has provided a kaleidoscope of police experiences during this era in American history. Names have been changed and details altered to protect identities and locations. Some accounts are graphic and question the normalcy and sanity of human behavior. Veterans of law enforcement and the military will not be shocked. Rather, they will be reminded of the potentially horrific consequences of human actions. The science of police work has advanced significantly since the early 1960s and 1970s when there were limited resources, poor equipment and less than effective communications. The days and techniques before the Miranda ruling and DNA testing are gone. Training is extensive and officers are well-educated. The college graduate is more the rule than the exception. Human nature, however, has not changed and will continue to be the focus of law enforcement officers.

**Cop Watch** Hans Toch,2012 In *Cop Watch*, renowned social psychologist Hans Toch takes stock of the vast changes in police procedures that have occurred over the last half-century by examining the evolving role of spectators to police-citizen interactions. In this unflinching examination of the power of the crowd and society to shape police practice, Toch provides a uniquely compelling look at the struggles and complexities of policing in a volatile world.

**City Cop** Fred J. Cook,1979 A policeman tells of his first years on the beat in New York City.

**The Job** Steve Osborne,2016-03-22 "A nice quiet night." During his two decades on the force, if you asked NYPD officer Steve Osborne how things were going, that's what he'd tell you. On a stakeout? Nice quiet night. Drive by shooting? Nice quiet night. Now, with *The Job* he's ready to talk, and does he have some stories to tell. Most civilians get their information about police work from television shows, which are pure fantasy. Here, Osborne takes us into his world, the gritty and not so glamorous life of real street cops. And along the way he finds humor and soul searching humanity in the most unlikely places. For anyone interested in knowing what a cop's life is all about, this is a must read.

**Chicago Street Cop** Pat McCarthy,2016-04-26 Surviving a career in law enforcement involves a considerable amount of natural instinct, skill, luck, and intellect. Fortunately for Pat McCarthy, he possessed all of these, some more than others, at different times.

**The Torture Letters** Laurence Ralph,2020-01-15 Torture is an open secret in Chicago. Nobody in power wants to acknowledge this grim reality, but everyone knows it happens—and that the torturers are the police. Three to five new claims are submitted to the Torture Inquiry and Relief Commission of Illinois each week. Four hundred cases are currently pending investigation. Between 1972 and 1991, at least 125 black suspects were tortured by Chicago police officers working under former Police Commander Jon Burge. As the more recent revelations from the Homan Square "black site" show, that brutal period is far from a historical anomaly. For more than fifty years, police officers who took an oath to protect and serve have instead beaten, electrocuted, suffocated, and raped hundreds—perhaps thousands—of Chicago residents. In *The Torture Letters*, Laurence Ralph chronicles the history of torture in Chicago, the burgeoning activist movement against police violence,

and the American public's complicity in perpetuating torture at home and abroad. Engaging with a long tradition of epistolary meditations on racism in the United States, from James Baldwin's *The Fire Next Time* to Ta-Nehisi Coates's *Between the World and Me*, Ralph offers in this book a collection of open letters written to protesters, victims, students, and others. Through these moving, questing, enraged letters, Ralph bears witness to police violence that began in Burge's Area Two and follows the city's networks of torture to the global War on Terror. From Vietnam to Geneva to Guantanamo Bay—Ralph's story extends as far as the legacy of American imperialism. Combining insights from fourteen years of research on torture with testimonies of victims of police violence, retired officers, lawyers, and protesters, this is a powerful indictment of police violence and a fierce challenge to all Americans to demand an end to the systems that support it. With compassion and careful skill, Ralph uncovers the tangled connections among law enforcement, the political machine, and the courts in Chicago, amplifying the voices of torture victims who are still with us—and lending a voice to those long deceased.

Cop! L. H. Whittemore, 1969 A horrifying record of man's response to environmental evil. The policemen reflect different responses to their day-after-day involvement in crime - pity, brutality, and resentment of a society that permits horrendous social conditions.

Hello World: Being Human in the Age of Algorithms Hannah Fry, 2018-09-18 Shortlisted for the 2018 Royal Society Investment Science Book Prize A look inside the algorithms that are shaping our lives and the dilemmas they bring with them. If you were accused of a crime, who would you rather decide your sentence—a mathematically consistent algorithm incapable of empathy or a compassionate human judge prone to bias and error? What if you want to buy a driverless car and must choose between one programmed to save as many lives as possible and another that prioritizes the lives of its own passengers? And would you agree to share your family's full medical history if you were told that it would help researchers find a cure for cancer? These are just some of the dilemmas that we are beginning to face as we approach the age of the algorithm, when it feels as if the machines reign supreme. Already, these lines of code are telling us what to watch, where to go, whom to date, and even whom to send to jail. But as we rely on algorithms to automate big, important decisions—in crime, justice, healthcare, transportation, and money—they raise questions about what we want our world to look like. What matters most: Helping doctors with diagnosis or preserving privacy? Protecting victims of crime or preventing innocent people being falsely accused? *Hello World* takes us on a tour through the good, the bad, and the downright ugly of the algorithms that surround us on a daily basis. Mathematician Hannah Fry reveals their inner workings, showing us how algorithms are written and implemented, and demonstrates the ways in which human bias can literally be written into the code. By weaving in relatable, real world stories with accessible explanations of the underlying mathematics that power algorithms, *Hello World* helps us to determine their power, expose their limitations, and examine whether they really are improvement on the human systems they replace.

*One Time: The Story of a South Central Los Angeles Police Officer* Brian S. Bentley, 2016-06-09 A hardcore look into the mind of a patrol officer working in South Central Los Angeles. The author uses personal testimony to illustrate how Da Hood changed him from a community base police officer into an aggressive predator of gang members. The LAPD recruitment posters forgot to mention that he would be shot at, called an Uncle Tom, and treated like an outsiders by his partners because he grew up and lived in the neighborhood he patrolled. The employment pamphlets failed to describe the helplessness he would feel while handling rape investigations or the sadness he would have to block out at homicide scenes. Nothing prepared him for what he would experience. His Bachelors degree did not prepare him for a career with the LAPD. Growing up with gang members did not prepare him for the streets as a cop. The only adequate preparation he had was his religious beliefs. He was prepared to die.

*Citizen Spies* Joshua Reeves,2019-01-08 The history of recruiting citizens to spy on each other in the United States. Ever since the revelations of whistleblower Edward Snowden, we think about surveillance as the data-tracking digital technologies used by the likes of Google, the National Security Administration, and the military. But in reality, the state and allied institutions have a much longer history of using everyday citizens to spy and inform on their peers. *Citizen Spies* shows how “If You See Something, Say Something” is more than just a new homeland security program; it has been an essential civic responsibility throughout the history of the United States. From the town crier of Colonial America to the recruitment of youth through “junior police,” to the rise of Neighborhood Watch, AMBER Alerts, and Emergency 9-1-1, Joshua Reeves explores how ordinary citizens have been taught to carry out surveillance on their peers. Emphasizing the role humans play as “seeing” and “saying” subjects, he demonstrates how American society has continuously fostered cultures of vigilance, suspicion, meddling, snooping, and snitching. Tracing the evolution of police crowd-sourcing from “Hue and Cry” posters and America’s Most Wanted to police-affiliated social media, as well as the U.S.’s recurrent anxieties about political dissidents and ethnic minorities from the Red Scare to the War on Terror, Reeves teases out how vigilance toward neighbors has long been aligned with American ideals of patriotic and moral duty. Taking the long view of the history of the citizen spy, this book offers a much-needed perspective for those interested in how we arrived at our current moment in surveillance culture and contextualizes contemporary trends in policing.

**Cop Shot** Mike McAlary,1990 In the early morning of February 26, 1988, New York City policeman Edward Byrne was murdered by crack dealers as he guarded the home of a witness. *Cop Shot* is the riveting story of the trackdown of Byrne's killers, bringing the reader into the hidden world of crack--a harrowing, unforgettable account.

CHASE! A Tribute to the Keystone Cop Lon Davis, There have been many worthy books on the Keystone Film Company, Mack Sennett, and Mabel Normand—not to mention the countless volumes on Charlie Chaplin. But, despite their ongoing popularity, there has never been a full-length book devoted solely to the Keystone Cops. At least, not until now. A dozen or so film historians have come together to document and assess those clumsy constabularies. Containing insights into the Cops’ place in cinema history, as well as fifty-six individual biographies, three hundred rare photographs, and a newly compiled filmography, *Chase!* is the ultimate tribute to the world’s most comically inept police force. “An engaging, enlightening, and informative collection of essays by some of the most knowledgeable silent comedy experts around today, thanks to silent film historian Lon Davis. In addition, Lon and Keystone historian and author Brent Walker have provided a comprehensive listing of all the Sennett-produced Keystone Cops films. An essential addition to any silent film fan’s library.”
