The Use of Video Technologies in Refereeing Football and Other Sports Manuel Armenteros, Anto J. Benitez, Miguel Ángel Betancor, 2019-11-25 For a long time, various different lobbying sectors have claimed that the use of video technology is an effective aid in decision-making. Now the IFAB has taken a historic step in the approval of experiments on the use of video to provide support to football refereeing. The Use of Video Technologies in Refereeing Football and Other Sports analyses the capacity of audio-visual technology from different perspectives to help understand the best implementation of the Video Assistant Referee (VAR) system in football and, more generally, in other sports. Sports around the World [4 volumes] John Nauright, 2012-04-06 This multivolume set is much more than a collection of essays on sports and sporting cultures from around the world: it also details how and why sports are played wherever they exist, and examines key charismatic athletes from around the world who have transcended their sports. *Sports Around the World: History, Culture, and Practice* provides a unique, global overview of sports and sports cultures. Unlike most works of this type, this book provides both essays that examine general topics, such as globalization and sport, international relations and sport, and tourism and sport, as well as essays on sports history, culture, and practice in world regions—for example, Latin America and the Caribbean, the Middle East and North Africa, Europe, and Oceania—in order to provide a more global perspective. These essays are followed by entries on specific sports, world athletes, stadiums and arenas, famous games and matches, and major controversies. Spanning topics as varied as modern professional cycling to the fictional movie *Rocky* to the deadly ball game of the ancient Mayans, the first three volumes contain overview essays and entries for specific sports that have been and are currently practiced around the world. The fourth volume provides a compendium of information on the winners of major sporting competitions from around the world. Readers will gain invaluable insights into how sports have been

enjoyed throughout all of human culture, and more fully comprehend their cultural contexts. The entries provide suggestions for further reading on each topic—helpful to general readers, students with school projects, university students and academics alike. Additionally, the four-volume Sports Around the World spotlights key charismatic athletes who have changed a sport or become more than just an outstanding player.

Angels with Dirty Faces Jonathan Wilson, 2016-08-23 Argentina is responsible for some of the greatest footballers on the planet. Their rich, volatile history is made up of both the sublime and the ruthlessly pragmatic. It is a nation obsessed with football, and Jonathan Wilson, having lived there on and off during the last decade, is ideally placed to chart the five phases of Argentinian football: the appropriation of the British game; the golden age of 'la nuestra' - the exuberant style of playing that developed as Juan Perón led the country into isolation; a hardening into the brutal methods of 'anti-fútbol'; the fusing of beauty and efficacy under César Luis Menotti; and the ludicrous (albeit underachieving) creative talent of recent times

Women's Club Football in Brazil and Colombia Mark Biram, 2024-01-15 The first women's football book on Latin America centring the perspectives of players brings rare interview material that cuts through the clichés to uncover the lived reality of women footballers. It includes the first large-scale survey of South American women footballers' views into dialogue with institutional and media perspectives. The early chapters consider the backdrop Latin American women footballers operate in, a media and institutional panorama that privileges a heteronormative athletic femininity whilst

ensuring women's football is never portrayed as anything other than an inferior version of the hegemonic (men's) game. Following this, drawing on nine months of ethnographic fieldwork in which 33 semi-structured interviews were carried out with players and institutional figures, this pioneering book foregrounds the lived reality of women's football in three strategic locations. Firstly, three months were spent in the Amazon region of Brazil where Esporte Clube Iranduba provides a fascinating alternative model for the growth of women's football. This is contrasted with Santos FC, where women's football tends to be constantly overshadowed by the presence of banal patriarchy, and finally with another fleeting glimpse of how another model is possible at Atlético Huila of Colombia, the surprise winner of the women's Copa Libertadores in 2018.

Women's Football in a Global, Professional Era Alex Culvin, Ali Bowes, 2023-03-09 Women's Football in a Global, Professional Era is an important addition to discussions on sport as work for women, and an essential reference point for students, researchers and sports professionals interested in the debates around the professionalisation of women's football internationally.

The Battle of Montevideo Brian Belton, 2008-04-23 The 1967 World Club Championship decider between Celtic and Racing Club of Buenos Aires was one of the most violent and controversial matches of all time. Three Celtic players and two from Racing Club were sent off in total. The game descended into farce, with the Uruguayan police forced to take to the pitch with batons to separate brawling players. Pictures released of the match met with shock worldwide, but while an embarrassed Jock Stein fined his players, those from Racing Club were rewarded with a new car each! This book tells the story of a real clash of two very different footballing cultures.
