The Human Factors Relating to Escape and Survival from Helicopters Ditching in Water North Atlantic Treaty Organization. Advisory Group for Aeronautical Research and Development,C. J. Brooks,1987

Aircrew Survival Essentials Chris Sharpe,2020-05-15 This range of theatre specific aircrew survival manuals follow on from the original book 'HEMS Helicopter Essentials', a survival manual that is totally different and hopefully like no other.In an ideal world, if you follow the first half of that manual, you should not need the second part.The aim of these smaller manuals is to alleviate the all too common 'generic survival skills' that are found in many textbooks.Each area of the planet is wonderful, but vastly different. As aircrew we can find ourselves over a multitude of environments during a routine flight, so rather than overload our knowledge if we keep to the basic principles of survival and a few basic regional specific items...Just the 'Essentials' that will keep you alive.

Survival for Aircrew Sarah-Jane Prew,2016-12-05 Survival for Aircrew is essential reading for any aviation personnel who might at any time fly over water or inhospitable terrain. The ability to conquer nature and survive long enough to be rescued is a skill that could have saved the lives of countless aircrew and passengers in the past, and could save many lives in the future. Designed to be an easy-to-read instructional resource, this book teaches aircrews all the survival methods they are ever likely to need, in any eventuality. Illustrated throughout for ease of reference, this book looks at the aircrew role in an aviation survival situation, at the equipment required and at the possible scenarios. Its emphasis on crew behaviour makes the book unique, whether the reader is involved in general aviation, airline industry or government service. Features include: *

HEMS Helicopter Essentials - Aircrew Survival Manual Chris Sharpe,2020-01-07 This is an aircrew survival manual that is totally different and like no other. Written by the 2019 Helicopter Association International 'Salute to Excellence' Safety award winner, Chief Aircrewman Chris Sharpe, It is a collection of knowledge, experience and notes gained over his 30 year career.It is aimed specifically at the helicopter aviation industry, those crewmembers that are Non-Pilots and involved in Aeromedical or Rescue operations, irrespective of their role, and give them the underpinning survival knowledge that with practice will allow you to operate safer as a crew and improve or develop your own unit protocols, systems and procedures. This is an aircrew survival manual that encompasses daily routine daily life, equipemnt choices as well as the worst-case scenario traditional survival skills. and a wealth of information for the reader to take onboard and 'set up for success'.
