Cork Dork Bianca Bosker,2017-03-28 INSTANT NEW YORK TIMES BESTSELLER AND A NEW YORK TIMES CRITICS' PICK “Thrilling . . . [told] with gonzo élan . . . When the sommelier and blogger Madeline Puckette writes that this book is the Kitchen Confidential of the wine world, she’s not wrong, though Bill Buford’s *Heat* is probably a shade closer.” —Jennifer Senior, The New York Times Professional journalist and amateur drinker Bianca Bosker didn’t know much about wine—until she discovered an alternate universe where taste reigns supreme, a world of elite sommeliers who dedicate their lives to the pursuit of flavor. Astounded by their fervor and seemingly superhuman sensory powers, she set out to uncover what drove their obsession, and whether she, too, could become a “cork dork.” With boundless curiosity, humor, and a healthy dose of skepticism, Bosker takes the reader inside underground tasting groups, exclusive New York City restaurants, California mass-market wine factories, and even a neuroscientist’s fMRI machine as she attempts to answer the most nagging question of all: what’s the big deal about wine? What she learns will change the way you drink wine—and, perhaps, the way you live—forever. “Think: Eat, Pray, Love meets *Somm*.” —theSkimm “As informative as it is, well, intoxicating.” —Fortune

Cork and the Cork Tree Giles B. Cooke,2013-09-11 Cork and the Cork Tree, Volume 4 provides the important general information about cork based on the author's 30 years of experience with cork, cork trees, and the cork industry. This book is organized into two main parts encompassing 15 chapters that specifically cover the planting and growing cork trees in the United States through the McManus Cork Project. This book presents first a brief history of cork, cork products, and the cork industry. The subsequent chapters deal with the geographical distribution, a description of the tree, its cultivation and the harvesting of the cork bark. These topics are followed by discussions on the botanical aspects of the cork tree, the characteristics of the tree, and the methods of its culture, as well as the physic-chemical properties of the cork. The concluding chapters focus on the manufacture and applications of cork products. This book will be of value to chemists and cork manufacturers.

The Burning of Cork Gerry White,Brendan O'Shea,2006 On the night of 11 December 1920 Cork City was to experience an unprecedented night of terror and destruction at the hands of the British forces of law and order. The Irish War of Independence was raging out of control and Cork was in the eye of the storm. It was a guerrilla war fuelled by reprisal and counter reprisal - the city streets became the battleground of a bloody and personalised war of attrition. With over five acres of the city destroyed and an estimated 20 million pounds worth of damage, the burning of Cork is recognised as the most extensive single act of vandalism in the entire period of the nationalist struggle. The burning of Cork cannot be regarded as an isolated incident. In the nine months leading up to the night, Cork city witnessed an ever escalating cycle of violence as attacks by the Volunteers were answered by the predictable reprisal by the crown forces.

All about Corks Christel Ferguson,2007-08-03 I love corks so much. Whenever I pop open a bottle of wine, I write on the cork the date that I drank it and why. To me, corks are fun and they tell a story. They hold a special memory. They were part of an experience that meant something to you. They stand for something. As you hold a cork in your hand and look at it, the memories just come flooding back, a smile comes to your face, and you just can't throw it away. The fabulous wine or champagne that was sealed by this cork now tells a story: your first date; that really special restaurant; your wedding day; that summer when you went to Italy or France. So what are you doing with all those corks? Don't throw them out! Start collecting them! And open that drawer full of corks you've stashed away and finally do something with them. We save these corks like pictures, so isn't it time we start making a photo album of memories with them? Here within these pages you will find a fun How-To guide on making ornaments and crafts with corks. So get a glue gun, an x-acto knife and open a bottle of wine! And of course, don't throw that cork away!

Cork Boat John Pollack,2004-01-06 165,321 corks 1 boat Most people have childhood dreams; few ever pursue them. At the age of 34, John Pollack quit a prestigious speechwriting job on Capitol Hill to pursue an idea he had harbored since the age of six: to build a boat out of wine corks and take it on an epic journey. In *Cork Boat*, Pollack tells the charming and uplifting story of this unlikely adventure. Overcoming one obstacle after another, he convinces skeptical bartenders to save corks, corrals a brilliant but disorganized partner, and cajoles more than a hundred volunteers to help build the boat, many until their fingers bleed. Hired as a speechwriter for President Clinton midway through construction, Pollack soon has the White House saving corks, too. Ultimately, he and his crew set sail down the Douro River in Portugal, where the boat becomes a national sensation. Written with unusual grace and disarming humor, *Cork Boat* is a buoyant tale of camaraderie, determination, and the power of imagination.

Fatal Roots Sheila Connolly,2020-01-07 New York Times–bestselling author This exciting new installment in the County Cork Mystery series has “plenty for cozy lovers to enjoy” and drips with the charm—and menace—of its atmospheric Irish setting (New York Journal of Books) Some secrets are too big to stay buried... A few months ago, Boston expat Maura Donovan was rekindled with her mother after more than twenty years of absence. Since then, Maura has been getting accustomed to Irish living, complete with an inherited house and a pub named Sullivan’s. But now, her mother has returned—and she’s brought Maura’s half-sister in tow. To make matters more confusing, a handful of Cork University students are knocking on Maura’s door asking about a mystical fairy fort that happens to be located on Maura’s piece of land. The lore indicates that messing with the fort can cause bad luck, and most everyone is telling Maura not to get too involved for fear of its powers, but Maura is curious about her own land, and she definitely doesn’t buy into the superstition. Then one of the students disappears after a day of scoping out the fort on Maura’s property. Maura treads carefully, asking the folks around town who might have an idea, but no one wants anything to do with these forts. She has to take matters into her own hand—it’s her land, after all. But when she uncovers a decades-old corpse buried in the center of the fort, nothing is for certain.
