More than 1,000 companies from 80 industries and 30 countries are leading a global movement to redefine success in business. They're called B Corporations—B Corps for short—and these businesses create high-quality jobs, help build stronger communities, and restore the environment, all while generating solid financial returns. Author and B Corp owner Ryan Honeyman worked closely with over 100 B Corp CEOs and senior executives to share their tips, advice, and best-practice ideas for how to build a better business and how to meet the rigorous standards for—and enjoy the benefits of—B Corp certification. This book makes the business case for improving your social and environmental performance and offers a step-by-step “quick start guide” on how your company can join an innovative and rapidly expanding community of businesses that want to make money and make a difference.

WINNER SCIENCE FICTION DIY BOOK FESTIVAL 2011-2012 Avogadro Corp is a tremendous book that every single person needs to read. In the vein of Daniel Suarez's *Daemon* and *Freedom(TM)*, William's book shows that science fiction is becoming science fact. Avogadro Corp describes issues, in solid technical detail, that we are dealing with today that will impact us by 2015, if not sooner. Not enough people have read these books. **Star Corps** Ian Douglas,2009-10-06 In the future, earth's warriors have conquered the heavens. But on a distant world, Humanity is in chains ... Many millennia ago, the human race was enslaved by the An -- a fearsome alien people whose cruel empire once spanned the galaxies, until they were defeated and consigned to oblivion. But a research mission to the planet Ishtar has made a terrifying -- and fatal -- discovery: the Ahanu, ancestors of the former masters, live on, far from the reach of Earth -- born weapons and technology ... and tens of thousands of captive human souls still bow to their iron will. Now Earth's Interstellar Marine Expeditionary Unit must undertake a rescue operation as improbable as it is essential to humankind's future, embarking on a ten-year voyage to a hostile world to face an entrenched enemy driven by dreams of past glory and intent once more on domination. For those who, for countless generations, have known nothing but toil and subjugation must be granted, at all costs, the precious gift entitled to all of their star-traveling kind: freedom!

**Better Business** Christopher Marquis,2020-09-13 A compelling look at the B Corp

movement and why socially and environmentally responsible companies are vital for everyone's future. Businesses have a big role to play in a capitalist society. They can tip the scales toward the benefit of the few, with toxic side effects for all, or they can guide us toward better, more equitable long-term solutions. Christopher Marquis tells the story of the rise of a new corporate form—the B Corporation. Founded by a group of friends who met at Stanford, these companies undergo a rigorous certification process, overseen by the B Lab, and commit to putting social benefits, the rights of workers, community impact, and environmental stewardship on equal footing with financial shareholders. Informed by over a decade of research and animated by interviews with the movement's founders and leading figures, Marquis's book explores the rapid growth of companies choosing to certify as B Corps, both in the United States and internationally, and explains why the future of B Corporations is vital for us all.

LLC Vs. S-Corp Vs. C-Corp Mike Piper, 2021-06-28 The LLC, S-Corp, or C-Corp question is one of essential importance: Make the right decision, and you'll be paying less tax; you'll know your personal assets are protected from lawsuits against your business; and you might even save yourself some money on accounting and legal fees. Make the wrong decision, and you'll be paying an unnecessary amount of tax; you'll be wasting money on legal bills; and you'll be only a lawsuit away from losing your home and other personal assets. Find the following, explained in plain-English with no legal jargon: The basics of sole proprietorship, partnership, LLC, S-Corp, and C-Corp taxation. How to protect your personal assets from lawsuits against your business. When the protection offered by an LLC will work. (And more importantly, when it will not!) Which business structures could reduce your federal income tax or self-employment tax.

Run Your Own Corporation Garrett Sutton, 2013-02-28 "I've set up my corporation. Now what do I do?" All too often business owners and real estate investors are asking this question. They have formed their protective entity – be it a corporation, LLC or LP – and don't know what to do next. "Run Your Own Corporation" provides the solution to this very common dilemma. Breaking down the requirements chronologically (ie the first day, first quarter, first year) the book sets forth all the tax and corporate and legal matters new business owners must comply with. Written by Rich Dad's Advisor Garrett Sutton, Esq., who also authored the companion edition "Start Your Own Corporation", the book clearly identifies what must be done to properly maintain and operate your corporation entity. From the first day, when employer identification numbers must be obtained in order to open up a bank account, to the fifth year when trademark renewals must be filed, and all the requirements in between, "Run Your Own Corporation" is a unique resource that all business owners and investors must have. Rich Dad/Poor Dad author Robert Kiyosaki states, "Run Your Own Corporation is the missing link for most entrepreneurs. They've set up their entity, but don't know the next steps. Garrett Sutton's book provides valuable information needed at the crucial start up phase of operations. It is highly recommended reading." When "Start Your Own Corporation" is combined with "Run Your Own Corporation" readers have a two book set that offers the complete corporate picture.
