Legalizing Identities Jan Hoffman French, 2009-06-01 Anthropologists widely agree that identities—even ethnic and racial ones—are socially constructed. Less understood are the processes by which social identities are conceived and developed. *Legalizing Identities* shows how law can successfully serve as the impetus for the transformation of cultural practices and collective identity. Through ethnographic, historical, and legal analysis of successful claims to land by two neighboring black communities in the backlands of northeastern Brazil, Jan Hoffman French demonstrates how these two communities have come to distinguish themselves from each other while revising and retelling their histories and present-day stories. French argues that the invocation of laws by these related communities led to the emergence of two different identities: one indigenous (Xoco Indian) and the other quilombo (descendants of a fugitive African slave community). With the help of the Catholic Church, government officials, lawyers, anthropologists, and activists, each community won government recognition and land rights, and displaced elite landowners. This was accomplished even though anthropologists called upon to assess the validity of their claims recognized that their identities were constructed. The positive outcome of their claims demonstrates that authenticity is not a prerequisite for identity. French draws from this insight a more sweeping conclusion that, far from being evidence of inauthenticity, processes of construction form the basis of all identities and may have important consequences for social justice.

Racial Subordination in Latin America Tanya Katerí Hernández, 2013 There are approximately 150 million people of African descent in Latin America yet Afro-descendants have been consistently marginalized as undesirable elements of the society. Latin America has nevertheless long prided itself on its absence of U.S.-style state-mandated Jim Crow racial segregation laws. This book disrupts the traditional narrative of Latin America's legally benign racial past by comprehensively examining the existence of customary laws of racial regulation and the historic complicity of Latin American states in erecting and sustaining racial hierarchies. Tanya Katerí Hernández is the first author to consider the salience of the customary law of race regulation for the contemporary development of racial equality laws across the region. Therefore, the book has a particular relevance for the contemporary U.S. racial context in which Jim Crow laws have long been abolished and a post-racial rhetoric undermines the commitment to racial equality laws and policies amidst a backdrop of continued inequality.

**Falta da educação gera corrupção** Janguê Diniz, 2018-09-19 Sabe-se que a corrupção é parte da natureza humana e sempre existiu em todos os tempos e culturas, tanto nos países desenvolvidos como nos países em desenvolvimento, afetando negativamente a efetividade das políticas públicas e o crescimento econômico. O que varia são as consequências – para o corrupto e para a sociedade em que ele vive. Segundo análise do projeto da ONG Transparência Internacional, sobre o Índice de Percepção da Corrupção, que classifica os países e territórios com base em quão corrupto seu setor público é percebido, o Brasil ficou em 69º lugar, empatado com a África do Sul e a Macedônia, dentre 176 países avaliados. Não dá para desassociar a educação da corrupção. Os dados do Índice de Percepção de Corrupção Mundial são claros em afirmar que os países com menores índices de educação e igualdade tendem a ter as maiores taxas de corrupção. Especialmente no setor de educação, a corrupção é capaz de limitar a acumulação de capital humano e, em longo prazo, afetar toda a estrutura de desenvolvimento da sociedade. O único meio conhecido de vencer defeitos e falhas humanas é a educação. Educar para que haja respeito; para que nos encaremos com igualdade, fraternidade e solidariedade.

**Polifonias Do Ódio** José Marcelo Domingos De Oliveira, 2014-02-28 Este é um trabalho etnográfico que procura oferecer um panorama dos casos de assassinatos de LGBT em Sergipe, entre 1960 e 2010. O propósito é resgatar os fatos dessa natureza, mesmo sabendo que alguns desses se perderam no tempo, quer pelo estigma que carregavam, ou pelas fragilidades dos sistemas de informação do Estado, que ainda relegam ao ostracismo esse tipo de evento. E, outros deixaram de compor o presente quadro devido à falta de dados que comprovasse a orientação sexual da vítima.
