Safety Assessment of Cosmetics in Europe Vera Rogiers, Marleen Pauwels, 2008 This volume of Current Problems in Dermatology presents the reader with a portrait of the scientific background of the complex process of safety assessment of cosmetics as well as information on European cosmetic legislation. A practical approach to the search for toxicity data on cosmetic ingredients and a compilation of the legally required technical dossier of a finished cosmetic product as well as an in-depth analysis of the safety assessment of cosmetic ingredients performed at the EU level by the Scientific Committee on Consumer Products (SCCP) are available. The current status of 3R alternatives to animal testing and the extent to which they are implemented by the cosmetic industry and considered by the SCCP in the risk assessment process is discussed. As such, guidance is provided in relation to the manifold challenges cosmetic safety assessors are faced with in the current EU regulatory setting. In this valuable handbook, qualified cosmetic safety assessors, suppliers of raw materials, dermatologists and pharmacists, toxicologists as well as EU officials and administrators dealing with cosmetics will find relevant information on the European cosmetic legislation, the compilation of cosmetic technical dossiers, toxicological database searches, and the availability and use of alternative methods in the field of cosmetics.

Discourses of Perfection Anne-Mette Hermans, 2021-03-22 This book explores editorial and advertising discourses related to cosmetic procedures and beauty products and services in UK lifestyle magazines, offering a holistic perspective on the normalisation of cosmetic procedures and the societal context in which particular perceptions have flourished. The volume examines the societal climate that contributed to cultural perceptions of the body as object and project, and constructions of masculinities and femininities as context for developments in lifestyle magazines' content on beauty and cosmetic procedures. Integrating approaches from Critical Discourse Analysis, Thematic Analysis, and Content Analysis, Hermans explores the varying ways in which cosmetic procedures and other beauty products are marketed to different audiences and examines phenomena such as the problem/solution rhetoric, and developments in beauty advertising discourse specifically targeted at men. The book also investigates the continuum view of beauty products and cosmetic procedures, and examines the implications of these blurred boundaries for the regulation of the cosmetic surgery industry. This innovative contribution to research on the representation of cosmetic procedures and beauty products in the media will be of interest to scholars researching at the intersection of language, gender, individualised body projects, and sexuality.
