Complications in Facial Plastic Surgery, An Issue of Facial Plastic Surgery Clinics, Richard L. Goode, Samuel P.

Most, 2013-11-22 Complications in cosmetic surgery – no surgeon wants to admit to them, all surgeons dread them, and all have experienced them. This issue is devoted solely to complications in facial plastic surgery – the most common and the most feared – and discussion on best approaches to avoid them. Each article focuses on a specific procedure. Each article discusses: Surgical Complications, Pharmacologic or Interaction Complications, Nonpharmacologic Complications, Complication Avoidance, Procedural Approach (with video), Complication Management Perioperative, Complications Management Postoperative. Written by facial plastic surgeon experts, this information is essential for facial plastic surgeons, plastic surgeons, and to cosmetic adjunct professionals who perform injections and resurfacing. This publication is directed by two expert practitioners and academicians who are at the apex of their field, Dr Richard Goode and Dr Sam Most. Their substantive teaching and training experiences position them to provide comprehensive understanding and skills in performing cosmetic surgery.

Chasing Pig's Ears John Williams M.D. FACS, 2008-08-06 Two plastic surgeons were born into a large family as the second set of twins. There were eight siblings five girls and three boys. The father was a ranch hand who moved the large family to Borger, Texas to try his luck in the oil boom of the early 1920. Because of the financial disaster of the time he became a house painter and an alcoholic. The mother took in boarders to keep the family fed. She was a strong lady and encouraged the boys to stay in school

and work their way through college and medical school. The older brother had migrated to Los Angeles and became a tooling engineer for Douglas Aircraft. He was able to get his young brothers jobs on the swing shift so they could attend UCLA. They went on to medical school and surgical training then moved back to the Los Angeles area. Along the way Dr. John managed to have six wives and five children. His second wife was Eva Gabor. There is one chapter devoted to each wife and some special friends, colleagues and a long list of famous patients that I cannot name for obvious privacy reasons.

Straight Talk about Cosmetic Surgery Arthur W. Perry, 2007 Examines current surgical and nonsurgical appearance-changing procedures, assessing the benefits and possible complications, identifying ineffective treatments, and offering criteria for selecting good doctors and facilities.

On his return flight from a Medical Korea conference, he wonders whether he works in a medical field or in a beauty-making industry. Questioning the nature of his profession, Dr. Cook is confused about his own mission: is he a beauty doctor or a merchant of beauty?
