The Myth of Cosmic Rebellion Hugh Page Jr.,2014-09-03 This volume examines reflexes of a West Semitic myth describing an attempted coup against the high god of the pantheon. In 1939, J. Morgenstern theorized that this myth was the precursor of the Satan traditions found in Jewish and Christian sources. This treatment (1) reconsiders Morgenstern's hypothesis, (2) reviews scholarship on this myth of cosmic rebellion within the W.F. Albright/F.M. Cross, Jr. lineage, (3) compiles a concordance of texts cited by scholars in analyzing the myth, (4) considers the possibility that Athtar is the myth's divine antihero, (5) provides a translation and close reading of selected Ugaritic and Hebrew texts that have informed discussion about the myth, (6) reassesses the value of these texts, and (7) provides a reconstruction of the myth.

Earthing the Cosmic Christ of Ephesians--The Universe, Trinity, and Zhiyi's Threefold Truth, Volume 2 John P. Keenan,2022-09-09 This is volume 2 of a wide-ranging interfaith reading of the Letter to the Ephesians—a New Testament text whose words have inspired and enhanced Christian spiritual life and liturgy over the centuries. Unfortunately, at the same time, Ephesians has provided apparent scriptural support to those who would defend slavery, patriarchy, misogyny, and the physical power of Christ over the cosmos. How on earth are today's Christians to receive and understand such a text as this? *Earthing the Cosmic Christ of Ephesians: The Universe, Trinity, and Zhiyi's Threefold Truth* draws upon a broad array of scientific,

theological, and philosophical thinkers who enable us both to marvel at today's ever-expanding knowledge of our vast cosmos and to appreciate the importance of the Ephesian letter in the canon of our Christian scriptures, even while we acknowledge the archaic geocentric cosmology that underlies its claims about the cosmic Christ and reject its accommodation to the patriarchal, misogynistic, and slaveholding norms of its first-century culture. Throughout this reading of Ephesians, we look to Chinese Buddhist master Zhiyi and his "threefold truth" to enhance our understanding of trinity and the nascent trinitarian themes within this letter. As a whole, this work constitutes a new appreciation for Ephesians as well as a twenty-first century apologetic for doctrinal humility and for theologizing within a global theological commons.

Cosmic Memory Rudolf Steiner, 1987-12 Written 1904-1908 (CW 11) Rudolf Steiner shows that the insoluble link between humanity and cosmos is the fundamental basis of evolution. As human beings have participated in the development of the world we know today, so their achievements are directly connected with the ultimate destiny of the universe. In human hands rests the freedom to shape the future course of creation. Knowledge of our exalted origins and of the path we have followed is indispensable if we are to evolve a future worthy of responsible human beings.... Through a study of Steiner's writings, one can come to a clear, reasonable, comprehensive understanding of human beings and their place in the universe. --Paul Marshall Allen In the best tradition of ancient wisdom literature, Cosmic Memory reconstructs, from the akashic record, events that span the time between the origin of the Earth and the beginning of recorded history. This spiritual research includes a profound investigation of the origins, achievements, and fate of the Atlanteans

and Lemurians --the remarkable lost root races that developed the first concepts of good and evil, manipulated natural forces, laid the foundation for human legal and ethical systems, and defined and nurtured the distinctive yet complementary powers of men and women that brought humankind, many centuries ago, to its highest artistic, intellectual, and spiritual attainments. Through this discussion of our true origins, Cosmic Memory offers a genuine foundation for our lives, allowing us to realize our real value, dignity, and essence. The reader is shown our human connection with the world around us as well as our highest goals and true destiny. This is a key volume for understanding Rudolf Steiner's early development as a Theosophist and how his ideas, terminology, and formulations during that time fit into the development of his anthroposophic epistemology and Christology. This volume is a translation of *Aus der Akasha-Chronik* (Rudolf Steiner Gesamtausgabe 11), Rudolf Steiner Verlag, 1986.

Earthing the Cosmic Christ of Ephesians, Volume 1 John P.

Keenan, 2021-07-28 This is the introductory volume of a multivolume, verse-by-verse, interfaith rereading of the New Testament letter to the Ephesians. It looks to the Tiantai Buddhist master Zhiyi and his “threefold truth” to enhance our appreciation of nascent trinitarian themes in Ephesians. And it draws upon a broad array of scientific, theological, and philosophical thinkers in aid of rejecting the epistle's ancient, geocentric cosmology and its accommodations to the misogynistic, patriarchal, and slaveholding norms of its first-century surroundings. As a whole, the work constitutes a twenty-first century apologetic for doctrinal humility and for theologizing within a global theological commons.

The Monodoxy Cometan, Astronist Institution, 2019-03-02 The Monodoxy is a 275,000 word-long philosophical disquisition

categorised as the first of twelve disquisitions that, when considered collectively, form *The Omnidoxy*, the founding treatise of the philosophy of Astronism established by Cometan. The disquisition comprises of hundreds of discourses which are themselves titled by rubrals and written according to a style and structure known as insentence. The *Monodoxy*'s authorship solely rests with Cometan, the first Millettic philosopher and the founder of Astronism whom began writing *The Monodoxy* at the age of just seventeen through what he termed as personal inspiration. The *Monodoxy* has been said to formulate the thematic identity of the philosophy of Astronism due to its prominent focus on the elements, progeny, and phenomena of The Cosmos in a distinct way to all the other eleven disquisitions forming *The Omnidoxy*. Hundreds of new schools of thought, disciplines of study, and philosophical belief orientations hold their roots in *The Monodoxy* in addition to thousands of new terms, concepts, and theories which hold a distinguished originality and Cometanic style combined with an Astronic identity. There are a total of fifty-three discourses which constitute *The Monodoxy*, each of which holds its own special title known as a rubral which are used to provide overviews of the discourses to which they are associated.

Amos and the Cosmic Imagination James R. Linville, 2017-11-30
Said to contain the words of the earliest of the biblical prophets (8th century BCE), the book of Amos is reinterpreted by the author in light of new and sometimes controversial historical approaches to the Bible. Amos is read as the literary product of the Persian-era community in Judah. Its representations of divine-human communication are investigated in the context of the ancient writers' own role as transmitters and shapers of religious traditions. Amos's extraordinary poetry expresses mythical conceptions of divine manifestation and a process of destruction and recreation of the cosmos which reveals that behind the appearances of the natural world is a heavenly, cosmic temple.

The Cosmic Spirit Roland Faber, 2021-03-04 Are we more than stardust? Is the appearance of the fragile Earth in the vast universe more than an accident? Are we not children of a Spirit that pervades the dust, rejuvenates life, and embraces the ever-evolving universe? Is there a cosmic Spirit that wants us to awaken to a consciousness of universal meaning, sacred purpose, and mutual friendship with all beings? This book answers these questions with a spirituality of the numinous in our relation to the elements of the Earth in the matrix of

the multiverse by taking you on a journey through nine paths and nineteen meditations of awakening. Not bound by any religion, but in deep appreciation of the religious and spiritual heritage of human encounters with the divine depth of existence in our selves and in nature, they invite you to become sojourners by engaging the most profound embodiments of the intangible Spirit by which it facilitates its own materialization in the cosmos and our spiritualization of the cosmos. Use—says this Spirit—the stardust that you are to become a spirit-faring species in an eternal journey of the cosmos to realize its ultimate motive of existence—the attraction of love!

The Identity of Israel's God in Christian Scripture Don

Collett, Mark Elliott, Mark Gignilliat, Ephraim Radner, 2021-01-29 A broad, sweeping volume that breaches the walls separating biblical and theological disciplines Biblical scholars and theologians engage an important question: Who is Israel's God for Christian readers of the Old Testament? For Christians, Scripture is the Old and New Testament bound together in a single legacy. Contributors approach the question from multiple disciplinary vantage points. Essays on both Testaments focus on figural exegesis, critical exegesis, and the value of diachronic understandings of the Old Testament's compositional history for the sake of a richer synchronic reading. This collection is offered in celebration of the life and work of Christopher R. Seitz. His rich and wide-ranging scholarly efforts have provided scholars and students alike a treasure trove of resources related to this critical question.

Receiving Back One's Deeds Benjamin M. Dally, 2022-11-16 This book investigates the relationship between justification by faith and final judgment according to works as found in Paul's second epistle to the Corinthians within a Protestant (Lutheran, Reformed, Anabaptist, and Anglican) theological framework.

The Cosmic Breath Amos Yong, 2012-05-10 The interjection of pneumatology in both theologies of interreligious dialogue and in the theology-and-science conversation comes together in this volume. The resulting Christianity-Buddhism-science dialogue opens up to new pneumatological perspectives on philosophical cosmology and anthropology in interdisciplinary and global context.

Earthing the Cosmic Christ of Ephesians--The Universe, Trinity, and Zhiyi's Threefold Truth, Volume 4 John P. Keenan, 2024-02-26 In a Tiantai theology, conventional truth is conventionally arisen, which means that such truth is never set once and for all, but is to be cherished and rethought in new circumstances, whether interreligious or scientific—but always in critical consonance with its ancient embodiments. Contexts shift frameworks, but life in Christ is translatable across cultures. Christian faith and theology discourage the assumption that the point of it can be clearly pinned down. God's appearance to Elijah out of the whirlwind is an eternal reminder of the paltriness of all human perspectives. Symbolic worlds of faith and wisdom are not themselves finished products. Because it has a past and a future, the cosmos itself is unfinished. Christian creeds ought not be defended as last-word ideological positions and bastions against relativity, but instead recognized in their cultural contexts and affirmed as grammars of communal and personal assent.
