Spice Doctor Dr. Aneesa Khan,2014-11-17 Spice Doctor is an enticing collection of the flavorful delights enjoyed across cultures in cosmopolitan South Africa. It draws from the diverse heritage of South Africa, showcasing the spicy favorites of the country. Over 145 recipes feature the popular cuisine of South African Indian, Cape Malay, African, Afrikaner, Chinese, Mediterranean, Middle Eastern, and Mexican as enjoyed in South Africa. Ingredients are readily available and the recipes are simple to follow and easy to use. Dr. Khan's vision as a cook as well as a medical doctor is the bringing together of people around the dining table—from nuclear families as well as extended families, friends, and the close community at large—as part of healthy and holistic living. She believes that the addition of spice to one's diet enhances the promotional and preventative health benefits of food. This is a fantastic collection of food and treats catering for breakfast, lunch, supper, and special occasions, and for small and large gatherings. Cosmopolitan Education and Inclusion Yusef Waghid,Chikumbutso Herbert Manthalu,Judith Terblanche,Faiq Waghid,Zayd Waghid,2020-03-10 This book expands understanding of cosmopolitan education that has the potential to cultivate deliberative pedagogical encounters in universities. The authors argue that cosmopolitan education in itself is an act of engaging with strangeness, otherness, difference and inclusion/exclusion. What follows is the engendering of inclusive human encounters in which freedom and rationality – guided by co-operative, co-existential and oppositional acts of resistance – can be exercised. The chapters centre around the enactment of universal hospitality, unconditional engagement, difference, intercultural learning, democratic justice and openness to develop a robust and reflexive defence of cosmopolitan education. This book will appeal to scholars of cosmopolitan education as well as democratic and inclusive education.

The Kongo Kingdom Koen Bostoen,Inge Brinkman,2018-11-15 The Kongo kingdom, which arose in the Atlantic Coast region of West-Central Africa, is a famous emblem of Africa's past yet little is still known of its origins and early history. This book sheds new light on that all important period and goes on to explain the significance of its cosmopolitan culture in the wider world. Bringing together different new strands of historical evidence as well as scholars from disciplines as diverse as anthropology, archaeology, art history, history and linguistics, it is the first book to approach the history of this famous Central African kingdom from a cross-disciplinary perspective. All chapters are written by distinguished and/or upcoming experts of Kongo history with a focus on political space, taking us through processes of centralisation and decentralisation, the historical politics of extraversion and internal dynamics, and the geographical distribution of aspects of material and immaterial Kongo culture.

J.M. Coetzee and the Limits of Cosmopolitanism K. Hallemeier,2013-11-07 Drawing on postcolonial and gender studies, as well as affect theory, the book interrogates cosmopolitan philosophies. Through analysis of J.M. Coetzee's later fiction, Hallemeier invites the re-imagining of cosmopolitanism, particularly as it is performed through the reading of literature.

Plagues Upon the Earth Kyle Harper,2021-10-12 Panoramic in scope, Plagues upon the Earth traces the role of disease in the transition to farming, the spread of cities, the advance of transportation, and the stupendous increase in human population. Harper offers a new interpretation of humanity's path to control over infectious disease—one where rising evolutionary threats constantly push back against human progress, and where the devastating effects of modernization contribute to the great divergence between societies. The book reminds us that human health is globally interdependent and inseparable from the well-being of the planet itself.--

Cosmopolitan Archaeologies Lynn Meskell,2009-04-17 An important collection, Cosmopolitan Archaeologies delves into the politics of contemporary archaeology in an increasingly complex international environment. The contributors explore the implications of applying the cosmopolitan ideals of obligation to others and respect for cultural difference to archaeological practice, showing that those ethics increasingly demand the rethinking of research agendas. While cosmopolitan archaeologies must be practiced in contextually specific ways, what unites and defines them is archaeologists' acceptance of responsibility for the repercussions of their projects, as well as their undertaking of heritage practices attentive to the concerns of the living communities with whom they work. These concerns may require archaeologists to address the impact of war, the political and economic depredations of past regimes, the livelihoods of those living near archaeological sites, or the incursions of transnational companies and institutions. The contributors describe various forms of cosmopolitan engagement involving sites that span the globe. They take up the links between conservation, natural heritage and ecology movements, and the ways that local heritage politics are constructed through international discourses and regulations. They are attentive to how communities near heritage sites are affected by archaeological fieldwork and findings, and to the complex interactions that local communities and national bodies have with international sponsors and universities, conservation agencies, development organizations, and NGOs. Whether discussing the toll of efforts to preserve biodiversity on South Africans living near Kruger National Park, the ways that UNESCO's global heritage project universalizes the ethic of preservation, or the Open Declaration on Cultural Heritage at Risk that the Archaeological Institute of America sent to the U.S. government before the Iraq invasion, the contributors provide nuanced assessments of the ethical implications of the discursive production, consumption, and governing of other people's pasts. Contributors. O. Hugo Benavides, Lisa Breglia, Denis Byrne, Chip Colwell-Chanthaphonh, Alfredo González-Ruibal, Ian Hodder, Ian Lilley, Jane Lydon, Lynn Meskell, Sandra Arnold Scham

Cosmopolitan Fictions Katherine Stanton,2013-10-14 Participating in the reframing of literary studies, Cosmopolitan Fictions identifies, as cosmopolitan fiction, a genre of global literature that investigates the ethics and politics of complex and multiple belonging. The fictions studied by Katherine Stanton represent and revise the global histories of the past and present, including the indigenous or native narratives that are, in Homi Bhabha's words, internal to national identity itself. The works take as their subjects: * European unification * the human rights movement * the AIDS epidemic * the new South Africa. And they test the infinite demands for justice against the shifting borders of the nation, rethinking habits of feeling, modes of belonging and practices of citizenship for the global future. Scholars, teachers and students of global literary and cultural studies, Cosmopolitan Fictions is a book to want on your reading list.

Cosmopolitan Lives on the Cusp of Empire Jane Haggis,Clare Midgley,Margaret Allen,Fiona Paisley,2017-05-23 This book looks back to the period 1860 to 1950 in order to grasp how alternative visions of amity and co-existence were forged between people of faith, both within and resistant to imperial contact zones. It argues that networks of faith and friendship played a vital role in forging new vocabularies of cosmopolitanism that presaged the post-imperial world of the 1950s. In focussing on the diverse cosmopolitanisms articulated within liberal transnational networks of faith it is not intended to reduce or ignore the centrality of racisms, and especially hegemonic whiteness, in underpinning the spaces and subjectivities that these networks formed within and through. Rather, the book explores how new forms of cosmopolitanism could be articulated despite the awkward complicities and liminalities inhabited by individuals and characteristic of cosmopolitan thought zones.

Vernacular Worlds, Cosmopolitan Imagination Stephanos Stephanides,Stavros Karayanni,2015-09-01 Vernacular Worlds, Cosmopolitan Imagination brings together essays on literary and artistic practice involving cross-cultural transactions in the post-colonial world. The essays explore broad questions of ethics and aesthetics in the productive tension between language, culture, and the polis.

Parasitoid Wasps of South East Asia Buntika A. Butcher, Donald L. J. Quicke, 2023-12-22 Parasitoid wasps are cosmopolitan, numerous and enormously diverse with probably one million or more species worldwide, most of which occur in the moist tropics. Their ecological importance is enormous although perhaps most evident in their major roles in the control of insect pest populations. In natural ecosystems they are integral in regulating populations of a vast number of insects, and therefore are key players in terrestrial food webs. Knowledge of their biology is still very poor because the current state of taxonomy is still in its infancy in most parts of the world. In this book, we provide an overview of the more than 30 families of parasitoid wasps that occur in the 11 countries in South East Asia. Particular emphasis is given to those most commonly encountered and reared, as well as to those used in biological control programmes. Outlines of the morphology, biology, ecology and behaviour of each family, as well as of various important subfamilies are presented. The current state of taxonomy in the region is summarised. Other chapters cover basic biology, behaviour, morphological terminology, phylogeny and methods of specimen collecting, preparation and rearing with particular relevance to the tropics. Modern molecular approaches to speeding taxonomic description of hyperdiverse taxa are considered in depth. All groups are illustrated with colour photographs. This book will be of value to professional entomologists, academics, entomology students and the growing body of amateur entomologists and insect photographers.

Entrepreneurship in Africa David S. Fick, 2002-03-30 Who are the entrepreneurs who have achieved success, wealth, and recognition in their African homelands, and how did they do it? Entrepreneur Dave Fick interviewed several hundred women and men who were willing to assume risks, often spectacular ones, for personal economic gain—but who did it legally, ethically, and who are now giving back to their nations and societies at least as much as they received. They speak openly of their hardships and failures, what they did right and what they did wrong, and their accounts are remarkable. We gain insight into the way business must be done under harsh political and economic circumstances, but we also learn unusual techniques and strategies that others in more favorable milieus can use to accomplish similar feats. With commentaries from notable scholars and other businesspeople and with Fick's own first-hand onsite observations, the book is a self-educating colloquium, a collection of personal meetings, accounts, letters, emails and telephone calls between Fick, his counterparts in Africa, and others around the world. It is also an attempt to encourage a dialogue that will accelerate the exchange and spread of knowledge and ideas, and a way to help the people of Africa build a peaceful and better society for themselves and the world.

Race, Decolonization, and Global Citizenship in South Africa Chielozona Eze, 2018 Examines the importance of South Africa's peaceful transition to democracy, especially in light of Nelson Mandela's belief that cosmopolitan dreams are not only desirable but a binding duty.

Islands in a Cosmopolitan Sea Iain Walker, 2019 Many people today have never heard of the Comoros, but these islands were once part of a prosperous regional trading economy that stretched halfway around the world. A key node in the trading networks of the Indian Ocean, the Comoros prospered by exchanging slaves and commodities with Arab and Indian merchants. By the sixteenth century, the archipelago served as an important supply point on the route from Europe to Asia. The twentieth century brought the establishment of French colonial rule and a plantation economy. Since declaring its independence in 1975, the Comoros has been blighted by more than twenty coups, a radical revolutionary government and a mercenary regime. Today, the island nation suffers chronic mismanagement and relies on remittances from a diaspora community in France. Nonetheless, the Comoros is largely peaceful and culturally vibrant-- connected to the outside world in the internet age, but, at the same time, still slightly apart. Iain Walker traces the history and unique culture of these enigmatic islands, from their first settlement by Africans, Arabs and Austronesians, through their heyday within the greater Swahili world, to their decline as a forgotten outpost of the French colonial empire.

Conversations on Global Citizenship Education Emiliano Bosio, 2021-02-04 This volume offers a remarkable collection of theoretically and practically grounded conversations with internationally recognized scholars, who share their perspectives on Global Citizenship Education (GCE) in relation to university research, teaching, and learning. Conversations on Global Citizenship Education brings together the narratives of a diverse array of educators who share their unique experiences of navigating GCE in the modern university. Conversations focus on why and how educators' theoretical and empirical perspectives on GCE are essential for achieving an all-embracing GCE curriculum which underpins global peace. Drawing on the Freirean concept of conscientization, GCE is presented as an educational imperative to combat growing inequality, seeping nationalism, and post-truth politics. This timely volume will be of interest to educators who are seeking to develop their theoretical understanding of GCE into teaching practice, researchers and students who are new to GCE and who seek dynamic starting points for their research, and general audience who are interested in learning more about the history, philosophy, and practice of GCE.
