He's got to help bewildered Hanasuke investigate a string of incidents involving the disappearance of guardian spirits, and there's not a minute to lose. But will Mitamura master the art of perfect partnership in time to keep chaos from erupting? Countdown 7 Days sets the clock ticking in a mad race for answers to the mysteries of life and death! Mitamura must figure out how to stop a scheming young man and his guardian spirit from opening a long-sealed gate to the depths of the great beyond. Countdown Suzanne Slade,2018-09-04 The captivating true story of NASA's effort to land the first man on the Moon is told through powerful free verse and stunning illustrations. An inspiring testament to American grit, teamwork, and ingenuity, Countdown presents exhilarating, informative, and accessible free verse by award-winning author Suzanne Slade paired with historic photographs and detailed illustrations by New York Times best-selling illustrator Thomas Gonzalez. Together, they capture the gripping historic story of NASA's twentieth century efforts to conquer a new space frontier. Through triumph and tragedy, success and failure, an entire nation is glued to the high-stakes, 2,979-day mission as eighteen astronauts climb into spacecraft; three men die before even leaving the ground; eight rockets soar into space; and four hundred thousand people—engineers, technicians, scientists, mathematicians, and machinists—join Project Apollo in pursuit of making a dream a reality.

Countdown 7 Days Vol. 1 Karakara Kemuri,2011-04-01 Lonely Mitamura may be a teacher at the exclusive Sheol Soul School – an academy dedicated to the afterlife – but he has a lot to learn about human emotions and helping others. In fact, his star pupil Tsuru thinks she'll teach him a little lesson by running off during a field trip in the living world. Now, Mitamura has only seven days to track Tsuru down with the help of a brand-new (deceased) sidekick. Will the clock run out before they find her? Countdown 7 Days proves that the afterlife is anything but normal! Mitamura may know how to help the newly departed properly reincarnate into their next life, but he's at a total loss when it comes to understanding why others want nothing to do with him. But when a mischievous student takes it upon herself to school her teacher in the ups and downs of friendship, Mitamura may finally learn the value of life...after death!

Countdown to College Monique Rinere,2019-03-05 After all the testing and touring and applying, your child has been accepted to college. Congratulations! Now what? Every new student grapples with making a successful transition to college—with remaining healthy, happy, grounded, and in school. Indeed, the national statistics are sobering: One in three freshmen will not come back for sophomore year, and less than 50 percent will graduate on time. A student's adjustment is key, especially during the period starting with the lazy summer months before move-in and ending at the dizzying close of a student's first semester. Distilling lessons and sharing stories (some cautionary, some entertaining, all helpful) from her long college advisory career, three-time Ivy League dean Monique Rinere presents a unique month-by-month road map to a college experience that is rich, rewarding, and successful for teens and parents alike. Taking parents from the moment the acceptances arrive to the end of the first college semester, her expert advice covers: • assessing the right fit among your child's options: who and what to ask to get the real scoop on campus and academic life • understanding actual costs: considering hidden expenses, financial-aid and scholarship fine print, loans, and work-study opportunities • parenting through the senior slump so that students don't jeopardize their hard-won college spot • talking to your child about freshman culture shock and their new freedoms around parties, food, finances, and sleep • what your child needs to know about working with an academic advisor, interacting with professors, and creating their own community of advisors • how to help your rising freshman create a conceptual bridge from what they are, a graduating high school senior, to what they want to be, a college alum • time-management and class-scheduling tips to help your child pick an appropriate class (and extracurricular) load • advice for parents facing the emptying nest: letting go of your anxieties about your child's autonomy and seizing this opportunity to reinvent your life in new and intentional ways "A valuable and comprehensive guide for parents of college-bound students . . . The months between high school and college are a critical time, but Dr. Monique Rinere gives you confidence that everything will be all right."—Marvin Krislov, president, Pace University

Season of the Rainbirds Nadeem Aslam,2013-03-26 The first novel by the author of Maps for Lost Lovers: a powerful and exquisitely written

story set in a small town in Pakistan after the murder of a corrupt and prominent local judge. When a sack of letters that were thought to have disappeared in a train crash nineteen years earlier reappears under mysterious circumstances, the inhabitants of a secluded Pakistani village wait anxiously to see what secrets may come to light. Could the letters hold any information about Judge Anwar's murder? As Aslam traces the murder investigation over the next eleven days, he explores the impact that these two events have on a variety of people in the town--from the surviving family of the judge to a journalist reporting on the delivery of the mail packet. With great attention to detail and beautiful scenes that explore the daily rhythms of life in Pakistan, Aslam creates an exotic and timeless world whose traditional rituals are played out against an ominous backdrop of faraway civil wars, assassinations, changing regimes, and religious tensions.
