Time and Space in Video Games Federico Alvarez Igarzábal,2019-09-30 Video games are temporal artifacts: They change with time as players interact with them in accordance with rules. In this study, Federico Alvarez Igarzábal investigates the formal aspects of video games that determine how these changes are produced and sequenced. Theories of time perception drawn from the cognitive sciences lay the groundwork for an in-depth analysis of these features, making for a comprehensive account of time in this novel medium. This book-length study dedicated to time perception and video games is an indispensable resource for game scholars and game developers alike. Its reader-friendly style makes it readily accessible to the interested layperson.

The Assignment W. G. Walters,2000-07 Book Description: Your first assignment: Take the new, revamped Space Shuttle to Mars and examine the mysterious "face" structure. While you're there, look at the pyramid-like objects, also. Your second assignment: Continue the voyage to Jupiter and look for signs of intelligent life. DO NOT LAND UNLESS NECESSARY. You will be informed of your final assignment after arriving at Jupiter. For eight adventurers from different backgrounds and different professions, it sounded easy. But from the takeoff, it seemed doomed: Objects are not stored properly for launch; a new engine they claimed could get them to Mars on less fuel remains untested; and a crew of non-astronauts assembled just for this mission includes an engineer with a serious self-esteem problem, a trigger-happy Marine, and a man who makes a living investigating UFOs. Astrophysicist Nancy Villareal and her hometown friend, Joe Rommel, confront the mystery of the third assignment. All the answers lie hidden in darkness, but first they must accomplish the first two assignments—leading them into a dark world of secrets and lies.

Countdown Zero Thomas H. Saffer,Orville E. Kelly,1983 250,000 U.S. servicemen were exposed to incredibly high levels of radiation between 1945 and 1962 - without their knowledge or consent. For the government, the experiment was simple: how would soldiers perform under the shadow of the bomb? For the many GI's who witnessed bomb tests, the results have been harrowing; more and more atomic veterans fall victim to incurable cancer and undiagnosed illnesses every year. This hard-hitting, very personal account exposes decades of official indifference, gross negligence, and contempt for life on the part of the U.S. government. Both the government and the armed forces have refused to take responsibility for the atomic veterans. Working with the National Association of Atomic Veterans, Thomas H. Saffer and Orville E. Kelly, victims of atomic testing themselves, did much to bring this situation to public attention. This book, horrifying in the facts it relates, is also a moving, even hopeful testament to the men who knew that the whole truth about nuclear testing had to be exposed.

Diablo Douglas Misquita, The Migrant Crisis threatens the European Union with rising intolerance, disintegration and violence. Driven by disillusionment, revenge, and a lack of faith in existing migration policies, The Council wields an horrific deterrent to the problem: an ethnic bio-weapon code-named, Diablo. FBI agent, Kirk Ingram stumbles upon their heinous scheme and is in a race against the clock to stop the genocide, even if he has been ordered to stand down. But when Diablo is seized by the United States and Ingram is framed by the Defence Intelligence Agency, he must join forces with The Council to prevent an even greater atrocity from being unleashed upon the world. Non-stop action, from Los Angeles to Mogadishu to a climatic showdown in Kazakhstan.

Torjen III: Diablo Danny Cove,2015-03-27 With the world erupting into war, the Knights of the Rebellion seem to have reached their breaking point, going their separate ways after the fall of their old friend, Jiffra. But fate seems to have more in store for them, and with a mysterious prophecy underlying all of the turmoil, the time has come to seek the answers in the most distant past, the wisdom which underlies the very fabric of reality. While Bracchus leads a campaign against the being who kept him chained between worlds, Jason entertains an otherworldly king who knows both the past and the future. And with the newly-returned Death Waker battling for control of Apath and dragons vying to consume the knights, Andross and Devil seek solace in their homelands: the enigmatic island-continent of Dagma and the very throne of Hell itself. In this epic conclusion to the Torjen Saga, the adventurers will face their darkest enemy and fight to change the fateful day destined to be known as Diablo Rise.

Under the Cloud Richard Lee Miller,1986 In a chilling documentary history of America's above-ground nuclear tests conducted during the 1950s and early 1960s, Miller takes on the subject and universalizes it, at the same time giving it the flavor of a Dos Passos novel (Kirkus Reviews).

Diablo Mesa Douglas Preston,Lincoln Child,2022-02-15 From New York Times bestsellers Preston and Child, archaeologist Nora Kelly and FBI Agent Corrie Swanson are tasked with the mysterious deaths of two people found at a site where a UFO allegedly crashed decades before. Lucas Tappan, a wealthy and eccentric billionaire and founder of Icarus Space Systems, approaches the Santa Fe Archaeological Institute with an outlandish proposal—to finance a careful, scientific excavation of the Roswell Incident site, where a UFO is alleged to have crashed in 1947. A skeptical Nora Kelly, to her great annoyance, is tasked with the job. Nora's excavation immediately uncovers two murder victims buried at the site, faces and hands obliterated with acid to erase their identities. Special Agent Corrie Swanson is assigned to the case. As Nora’s excavation proceeds, uncovering things both bizarre and seemingly inexplicable, Corrie’s homicide investigation throws open a Pandora's box of espionage and violence, uncovering bloody traces of a powerful force that will stop at nothing to protect its secrets—and that threatens to engulf them all in an unimaginable fate.

Diablo Lake: Protected Lauren Dane,2017-01-23 New York Times bestselling author Lauren Dane welcomes you back to Diablo Lake, Tennessee: a town founded by witches, governed by werewolves and full of secrets Tensions are building in Diablo Lake as the two main rival Packs vie for control, and the town is divided along lines of Pack loyalty. Aimee Benton and Mac Pembry are on opposite sides and he seems to find excuses to spar with her daily. He's infuriating—not to mention charming, gorgeous and oh-so-lickable. Mac can't resist pushing Aimee's buttons. She's always been incredibly sexy, and the wolf in him craves a female with fire in her belly. When a heated argument ends with a sizzling kiss and Mac gets a taste of her, he craves more—and she can't seem to get enough of him, either. The forbidden nature of their attraction stokes their desires until they're secretly hooking up whenever they can. But then Mac's clan goes too far, and Aimee shuts him out. She's hurt and angry—but that's nothing compared to the rage Mac is feeling toward his own Pack. A fight is brewing that will plunge the whole town into chaos, and someone will have to cross Pack lines to keep the town's fragile peace from breaking apart for good. Book two of the Diablo Lake series This book is approximately 90,000 words
