The Encyclopedia of Window and Bed Coverings Charles Randall, 2012-06-01 Completely updated and revised: the latest in window & bed covering ideas, and now with an extensive Bed Covering section, *The Encyclopedia Window & Bed Coverings* is Charles Randall's newest creation based upon his original masterwork: *The Encyclopedia of Window Fashions*. This new book continues the tradition of blending historical, classic and contemporary offerings. *The Encyclopedia of Window & Bed Coverings* is a must have for interior designers, homeowners, and decorating enthusiasts alike. With more full-color and black & white illustrations than ever before, this book presents countless combinations of window and bedding treatments for any room in the home: from a simple rod pocket curtain to a period style masterpiece. 304 pages of cost-saving ideas, yardage calculations and fullness charts, you will quickly see why this book has not only become the industry standard for window decor inspiration, but also the world's best-selling window decorating book.

Forensic Human Factors and Ergonomics Michael S. Wogalter, 2018-09-03 This book has 18 case study chapters investigating various injury scenarios through the use of a Human Factors and Ergonomics (HFE) analysis. Each injury scenario derives from one or more similar lawsuits (but names, places and some of the details are fictionalized). The scenarios describe a 'slice of life' of people interacting with products, equipment, tasks, and environments before they are seriously hurt. The forensic analysis that follows each scenario gives a background of prior similar events and systematically examines potential causes leading to the injury event. There is emphasis on the person-machine interface, human error, hazard analysis, hazard control and a model of communication-human information processing (C-HIP). Chapters are authored by highly experienced expert witnesses in HFE. The methods used are general techniques that can be applied to other injury scenarios, but would be better if employed earlier in a product's life cycle to prevent or limit injury. The first three chapters introduce concepts useful for the analyses in the case study chapters. The last chapter offers some broad take-away points that cut across several of the case studies. Features contributions by persons who have extensive experience in HFE and who have served professionally in the role of an expert witness in various legal cases mostly in product liability Gives a broad range of situations to illustrate where HFE considerations could improve product or environmental safety. There is an emphasis on children/caregivers, and adult activities such as driving Uses mitigation strategies to reduce the likelihood of occurrence and severity of adverse events Includes a first-person scenario at the beginning of each chapter Allows the lessons learned to be adaptable to other domains where people interact with products and environments

What kinds of coverings do animals have? Bobbie Kalman, 2018-01-18 Read Along or Enhanced eBook: This fun title asks readers to think about how different body coverings protect animals by keeping them warm and safe. From fur and feathers to scales and shells, readers get a close-up look at different animal coats to see how they suit the habitats and lives of the animals that are covered in them.

A Cover for Glory Dale Partridge, 2023-04-11 For nearly 2000 years, virtually every Christian woman wore a headcovering during worship. Today, the practice has nearly disappeared. What happened? Dale Partridge walks Christians verse by verse through 1 Corinthians 11:2-16 to help them understand the doctrine of headcoverings and how these biblical symbols visually preserve God's design for men and women. But more than that, he demonstrates that when these visual symbols are eliminated from the church, society's definitions of men and women are forgotten. Dale argues that by restoring this biblical practice, Christians can uphold God's plan for gender roles and restore order among God's people.

Floor Coverings for Historic Buildings Helene Von Rosenstiel, Gail Caskey Winkler, 1988 Wood Planks and Oriental Rugs weren't the only floor coverings found in America's old houses. In fact, a rich array of floor treatments have been used--from brick, tile and linoleum to mats and floorcloths,

from rag rugs to ingrain, embroidered and pile carpets. And, of course, Oriental rugs on wood floors. Finding just the right floor covering to furnish an old house or to create a period look in any building has always been a challenge. Now, *Floor Coverings for Historic Buildings* explains how to choose and buy the correct floor coverings used between 1750 and the 1930s, including where to order 475 reproductions described here in detail. This invaluable catalog, illustrated with 175 photographs, also provides a history of American floors, a glossary of floor covering terms, addresses for 82 suppliers (many of whom fill custom and special orders), a reading list and sources of help.

New Approaches to Building Pathology and Durability João M.P.Q. Delgado, 2016-03-04 This book presents a collection of recent research works intended to assist in the effective management of service loss. It develops and evaluates methodologies for the assessment of defects and failures, and proposes methodologies for preventing and mitigating building defects. As such, the book will appeal to a broad readership of scientists, practitioners, students and lecturers.

Urban Expansion, Land Cover and Soil Ecosystem Services Ciro Gardi, 2017-04-07 More than half of the world population now lives in cities, and urban expansion continues as rural people move to cities. This results in the loss of land for other purposes, particularly soil for agriculture and drainage. This book presents a review of current knowledge of the extension and projected expansion of urban areas at a global scale. Focusing on the impact of the process of 'land take' on soil resources and the ecosystem services that they provide, it describes approaches and methodologies for detecting and measuring urban areas, based mainly on remote sensing, together with a review of models and projected data on urban expansion. The most innovative aspect includes an analysis of the drivers and especially the impacts of soil sealing and land take on ecosystem services, including agriculture and food security, biodiversity, hydrology, climate and landscape. Case studies of cities from Europe, China and Latin America are included. The aim is not only to present and analyse this important environmental challenge, but also to propose and discuss solutions for the limitation, mitigation and compensation of this process.

Green Fashion Subramanian Senthilkannan Muthu, Miguel Angel Gardetti, 2015-12-30 This book deals with the important aspects of green fashion including Animal Welfare in Ethical Fashion, Sustainable Processing of Textiles, Sustainable design case studies, Wool Composting, Consumer behaviour in sustainable clothing market, industrial case studies related to green fashion, etc.

Syrian Female Refugees in Turkey Onur Yamaner, 2021-03-08 Migration hat sich in den letzten Jahren zu einem der meistdiskutierten Phänomene entwickelt, sowohl innerhalb als auch außerhalb der akademischen Welt. Dieses Buch untersucht, wie syrische Flüchtlingsfrauen sozial, wirtschaftlich, kulturell, ethnisch und sexuell marginalisiert werden. Die Autorin analysiert, wie sich die in der türkischen Aufnahmegesellschaft produzierten Diskurse auf syrische Flüchtlingsfrauen und einheimische Frauen auswirken. Was denken diese Frauen über die aktuellen Ereignisse, ihren Status und die Schritte, die die syrische Regierung und auch NGOs bisher unternommen haben, um Lösungen für die Unsichtbarmachung von Frauen im öffentlichen Raum zu finden?

A New Type of Single Valued Neutrosophic Covering Rough Set Model Jingqian Wang, Xiaohong Zhang, Recently, various types of single valued neutrosophic (SVN) rough set models were presented based on the same inclusion relation. However, there is another SVN inclusion relation in SVN sets. In this paper, we propose a new type of SVN covering rough set model based on the new inclusion relation.

Islamophobia Naved Bakali,2016-11-25 The 9/11 terror attacks and the ensuing War on Terror have profoundly impacted Muslim communities across North America. *Islamophobia: Understanding Anti-Muslim Racism through the Lived Experiences of Muslim Youth* is a timely exploration of the experiences of young Canadian Muslims and the challenges they have encountered since 9/11. Through framing anti-Muslim racism, or 'Islamophobia', from a critical race perspective, Naved Bakali theorizes how racist treatment of Muslims in public and political spheres has been mediated through the War on Terror. Furthermore, he examines the lived experiences of Muslim youth as they navigate issues relating to race, gender, identity, and politics in their schools and broader society. This book uncovers systemic bias and racism experienced by Muslim youth in a climate that is increasingly becoming hostile towards Muslims. Ultimately, the findings detailed in this work suggest that anti-Muslim racism in the post-9/11 era is inextricably linked to the effects of the War on Terror in the North American context. Moreover, Islamophobia is also impacted by localized practices, policies, and nationalist debates. This book is a unique contribution to the field of anti-racism education as it examines systemic and institutionalized racism towards Muslims in Canadian secondary schools in the context of the War on Terror.

Two Types of Single Valued Neutrosophic Covering Rough Sets and an Application to Decision Making Jingqian Wang ,Xiaohong Zhang, In this paper, to combine single valued neutrosophic sets (SVNSs) with covering-based rough sets, we propose two types of single valued neutrosophic (SVN) covering rough set models. Furthermore, a corresponding application to the problem of decision making is presented.

Building Materials Kathleen Hess-Kosa,2017-04-07 The construction industry is bombarded with ever-changing building materials—components of which are more and more difficult, if not impossible, to identify. Building material emissions have been implicated as a major source of indoor air pollution, and toxic gases, often unidentified, are generated in building fires. *Building Materials: Product Emission and Combustion Health Hazards* undertakes the task of identifying building materials emission and combustion health hazards. This practical guide introduces the complex world of polymers commonly used in building materials along with plasticizers and additives that are not regulated by OSHA. It also explores the topic of building materials as they relate to function and their emissions/combustion products along with thermal decomposition and combustion products as they relate to fire first responders. Engaging environmental professionals, construction management firms, architects, first respondents, and students, this valuable reference delivers a comprehensive spectrum of knowledge needed to face the challenges of managing building materials in the twenty-first century. Awareness is the first line of defense!

The End of Religion Kathleen McPhillips,Naomi Goldenberg,2020-10-22 Feminist theory has enhanced and expanded the agency, influence, status and contributions of women throughout the globe. However, feminist critical analysis has not yet examined how the assumption that religion is natural, timeless, universal and omnipresent supports sexist and race-based oppression. This book proposes radical new thinking about religion in order to better comprehend and confront the systematic disempowerment of women and marginalized groups. Utilising feminist and post-colonial

analysis of access, equity and violence, contributors draw on recent critical theory to collapse accepted boundaries between religion and secularity with the aim of understanding that religion is a technology of governance in its function, meaning and history. The volume includes case studies focusing on how the category of religion is deployed to perpetuate male hegemony and racist inequities in Australia, Mexico, the United States, Britain and Canada. This trenchant feminist critique and academic analysis will be of key interest to scholars and students of Religion, Sociology, Political Science and Gender Studies.
