A Supposedly Fun Thing I'll Never Do Again David Foster Wallace, 2009-11-23 These widely acclaimed essays from the author of *Infinite Jest* -- on television, tennis, cruise ships, and more -- established David Foster Wallace as one of the preeminent essayists of his generation. In this exuberantly praised book -- a collection of seven pieces on subjects ranging from television to tennis, from the Illinois State Fair to the films of David Lynch, from postmodern literary theory to the supposed fun of traveling aboard a Caribbean luxury cruiseliner -- David Foster Wallace brings to nonfiction the same curiosity, hilarity, and exhilarating verbal facility that has delighted readers of his fiction, including the bestselling *Infinite Jest*.

The Other End of the Leash Patricia McConnell, Ph.D., 2009-02-19 Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover:

- How you can get your dog to come when called by acting less like a primate and more like a dog
- Why the advice to “get dominance” over your dog can cause problems
- Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that

are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

Should We Eat Meat? Vaclav Smil, 2013-03-18 Meat eating is often a contentious subject, whether considering the technical, ethical, environmental, political, or health-related aspects of production and consumption. This book is a wide-ranging and interdisciplinary examination and critique of meat consumption by humans, throughout their evolution and around the world. Setting the scene with a chapter on meat’s role in human evolution and its growing influence during the development of agricultural practices, the book goes on to examine modern production systems, their efficiencies, outputs, and impacts. The major global trends of meat consumption are described in order to find out what part its consumption plays in changing modern diets in countries around the world. The heart of the book addresses the consequences of the massive carnivory of western diets, looking at the inefficiencies of production and at the huge impacts on land, water, and the atmosphere. Health impacts are also covered, both positive and negative. In conclusion, the author looks forward at his vision of “rational meat eating”, where environmental and health impacts are reduced, animals are treated more humanely, and alternative sources of protein make a higher contribution. *Should We Eat Meat?* is not an ideological tract for or against carnivorousness but rather a careful evaluation of meat's roles in human diets and the environmental and health consequences of its production and consumption. It will be of interest to a wide readership including professionals and academics in food and agricultural production, human health and nutrition, environmental science, and regulatory and policy making bodies around the world.

*Let's Pretend This Never Happened* Jenny Lawson, 2013-03-05  
The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. “Gaspingly funny and wonderfully inappropriate.”—O, The Oprah Magazine When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let's Pretend This Never Happened*, Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a poignant and hysterical look at the dark, disturbing, yet wonderful moments of our lives. Readers Guide Inside

**A Stolen Life** Jaycee Dugard, 2011-07-12 A raw and powerful memoir of Jaycee Lee Dugard's own story of being kidnapped as an 11-year-old and held captive for over 18 years On 10 June 1991, eleven-year-old Jaycee Dugard was abducted from a school bus stop within sight of her home in Tahoe, California. It was the last her family and friends saw of her for over eighteen years. On 26 August 2009, Dugard, her daughters, and Phillip Craig Garrido appeared in the office of her kidnapper's parole officer in California. Their unusual behaviour sparked an investigation that led to the positive identification of Jaycee Lee Dugard, living in a tent behind Garrido's home. During her time in captivity, at the age of fourteen and seventeen, she gave birth to two daughters, both fathered by Garrido. Dugard's memoir is written by the 30-year-old herself and covers the period from the time of her abduction in 1991 up until the present. In her stark, utterly honest and unflinching narrative, Jaycee opens up about what she

experienced, including how she feels now, a year after being found. Garrido and his wife Nancy have since pleaded guilty to their crimes.

Sasquatch: Legend Meets Science Jeff Meldrum, 2007-04-01 In this landmark work on a subject too often dismissed as paranormal or disreputable, Jeff Meldrum gives us the first book on sasquatch to be written by a scientist with impeccable academic credentials, an objective look at the facts in a field mined with hoaxes and sensationalism. Meldrum reports on the work of a team of experts from a wide variety of fields who were assembled to examine the evidence for a large, yet undiscovered, North American primate. He reviews the long history of this mystery--which long predates the bigfoot flap of the late fifties--and explains all the scientific pros and cons in a clear and accessible style, amplified by over 150 illustrations. Anyone who has pondered the mysteries of human evolution will be fascinated and eager to join Dr. Meldrum in drawing their own conclusion. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

**Reflections on a Life in Exile** J.F. Riordan, 2019-05-01 Recipient of the 2020 Shelf Unbound Notable Indie Award A collection of essays by novelist J.F. Riordan, *Reflections on a Life in Exile* is easy to pick up, and hard to put down. By turns deeply spiritual and gently comic, these brief meditations range from the inconveniences of modern life to the shifting nature of grief. Whether it's an unexpected revelation from a trip to the hardware store, a casual encounter with a tow-truck driver, the changing seasons, or a conversation with a store clerk grieving for a dog, J. F. Riordan captures and magnifies the passing beauty of the ordinary and the extraordinary that lingers near the surface of daily life.

**Surfing Uncertainty** Andy Clark, 2016 This title brings together work on embodiment, action, and the predictive mind. At the core is the vision of human minds as prediction machines -

devices that constantly try to stay one step ahead of the breaking waves of sensory stimulation, by actively predicting the incoming flow. In every situation we encounter, that complex prediction machinery is already buzzing, proactively trying to anticipate the sensory barrage. The book shows in detail how this strange but potent strategy of self-anticipation ushers perception, understanding, and imagination simultaneously onto the cognitive stage.

Tender Is the Flesh Agustina Bazterrica, 2020-08-04 Working at the local processing plant, Marcos is in the business of slaughtering humans—though no one calls them that anymore. His wife has left him, his father is sinking into dementia, and Marcos tries not to think too hard about how he makes a living. After all, it happened so quickly. First, it was reported that an infectious virus has made all animal meat poisonous to humans. Then governments initiated the “Transition.” Now, eating human meat—“special meat”—is legal. Marcos tries to stick to numbers, consignments, processing. Then one day he’s given a gift: a live specimen of the finest quality. Though he’s aware that any form of personal contact is forbidden on pain of death, little by little he starts to treat her like a human being. And soon, he becomes tortured by what has been lost—and what might still be saved.

**Adventures among Ants** Mark W. Moffett, 2010-05-05 Intrepid international explorer, biologist, and photographer Mark W. Moffett, the Indiana Jones of entomology, takes us around the globe on a strange and colorful journey in search of the hidden world of ants. In tales from Nigeria, Indonesia, the Amazon, Australia, California, and elsewhere, Moffett recounts his entomological exploits and provides fascinating details on how ants live and how they dominate their ecosystems through strikingly human behaviors, yet at a different scale and a faster tempo. Moffett’s spectacular close-up photographs shrink us down to size, so that we can observe ants in familiar roles; warriors, builders, big-game hunters, and slave owners. We find them

creating marketplaces and assembly lines and dealing with issues we think of as uniquely human—including hygiene, recycling, and warfare. *Adventures among Ants* introduces some of the world's most awe-inspiring species and offers a startling new perspective on the limits of our own perception. • Ants are world-class road builders, handling traffic problems on thoroughfares that dwarf our highway systems in their complexity • Ants with the largest societies often deploy complicated military tactics • Some ants have evolved from hunter-gatherers into farmers, domesticating other insects and growing crops for food

New York Magazine, 1997-06-23 *New York magazine* was born in 1968 after a run as an insert of the *New York Herald Tribune* and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

**Edible Insects and Human Evolution** Julie J.

Lesnik, 2019-02-13 Researchers who study ancient human diets tend to focus on meat eating because the practice of butchery is very apparent in the archaeological record. In this volume, Julie Lesnik highlights a different food source, tracing evidence that humans and their hominin ancestors also consumed insects throughout the entire course of human evolution. Lesnik combines primatology, sociocultural anthropology, reproductive physiology, and paleoanthropology to examine the role of insects in the diets of hunter-gatherers and our nonhuman primate cousins. She posits that women would likely spend more time foraging for and eating insects than men, arguing that this pattern is important to note because women are too often ignored in reconstructions of ancient human behavior. Because of the abundance of insects and the low risk of acquiring them, insects were a reliable food source that

mothers used to feed their families over the past five million years. Although they are consumed worldwide to this day, insects are not usually considered food in Western societies. Tying together ancient history with our modern lives, Lesnik points out that insects are highly nutritious and a very sustainable protein alternative. She believes that if we accept that edible insects are a part of the human legacy, we may have new conversations about what is good to eat—both in past diets and for the future of food.

*Born to Run* Christopher McDougall, 2010-12-09 A New York Times bestseller 'A sensation ... a rollicking tale well told' - The Times At the heart of *Born to Run* lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged 57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what the secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to down a beer at the 20 mile mark.

*I Know Why the Caged Bird Sings* Maya Angelou, 2010-07-21 Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. *I Know Why the Caged Bird Sings* captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her

brother, Bailey, endure the ache of abandonment and the prejudice of the local “powhitetrash.” At eight years old and back at her mother’s side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors (“I met and fell in love with William Shakespeare”) will allow her to be free instead of imprisoned. Poetic and powerful, *I Know Why the Caged Bird Sings* will touch hearts and change minds for as long as people read. “*I Know Why the Caged Bird Sings* liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity.”—James Baldwin From the Paperback edition.

*Born a Crime* Trevor Noah,2016-11-15 #1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A “brilliant” (Lupita Nyong’o, Time), “poignant” (Entertainment Weekly), “soul-nourishing” (USA Today) memoir about coming of age during the twilight of apartheid “Noah’s childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa’s history that must never be forgotten.”—Esquire Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by The New York Time, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah’s unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents’ indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa’s tyrannical white rule, Trevor and his mother

set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. *Born a Crime* is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man's relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love.

The Georgia Rambler Charles Salter, 2011-07-21 For years, veteran Atlanta Journal-Constitution columnist Charles Salter roamed the state in his 1975 Chevy station wagon in search of the most offbeat characters to appear in his celebrated column, *The Georgia Rambler*. From tall tales of the Okefenokee Swamp, to treasure hunters of Duluth and ex-moonshiners of North Georgia, Salter's stories are as eclectic and extraordinary as the people he interviewed. Along the way, he discovered the alleged original recipe for Coca-Cola in the pages of an old pharmacist's book, a find that inspired an episode of award-winning radio show *This American Life*. Read these remarkable stories and more in this never-before-published compilation of the best of *The Georgia Rambler*.
