Birkbeck Word Association Norms Helen Moss, Lianne Older, 1996 This is a reference work containing free association norms for over 2000 words in the English language collected over the last eight years from groups of 40-50 British English speakers aged between 17 and 45. These norms provide the information that, for example, 67% of people give dog as the first word they think of in response to the word cat, that 24% give the word society in response to the word pillar, and given the name Michael, 65% say Jackson, whereas less than 5% say Heseltine or Caine. These norms will be of use to researchers and students in many fields of psychology, especially language and memory, where the degree of association between pairs of words is often an important experimental variable. The main part of the book contains an alphabetical list of all associative responses and their frequency for each of the 2464 stimulus words. In addition, there is an index of stimulus words organised according to semantic category to aid selection of experimental materials. Full methodological details of the collection and compilation of the data are also provided in the introduction.

Montana Horse Racing Brenda Wahler, 2019-09-02 For centuries, on prairie grasslands, dusty streets and racing ovals, everyday Montanans participated

in the sport of kings. More than a century after horses arrived in the region, Lewis and Clark's Nez Perce guides staged horse races at Traveler's Rest in 1806. In response to hazardous street races, the Montana legislature granted communities authority to ban immoderate riding or driving. Helena led the way to respectable racing, with Madam Coady's fashion course hosting the first territorial fair in 1868. Soon, leading citizens like Marcus Daly built oval tracks and glitzy grandstands. By 1890, a horse named Bob Wade set a world record for a quarter mile in Butte, a mark that stood until 1958. Horsemoman and historian Brenda Wahler highlights the Big Sky's patrons of the turf and courageous equine champions, including Kentucky Derby winner Spokane.

Wow It's a Cow Sharon Villapiano, 2020-11-25 What happens when a cow decides to leave her home at the farm? The funniest series of twists and turns imaginable. Eager to see the world, the cow bolts right through the front gate. Townspeople try to catch her-but she's too fast. Even as she races through a bank and pizzeria, no one can stop this curious cow. Soon, the outside world doesn't seem so great. The cow is thirsty, scared and tired of running. Luckily, she bumps into a friendly vet, who knows just what to do! **WOW It's a Cow** is a hilarious children's book, based on a true story. It has a playful Dr. Seuss inspired rhyme pattern and beautiful watercolor illustrations that will teach kids there really is no place like home.

How to Think About Exercise Damon Young,The School of Life,2014-01-02 It can often seem as though existence is split in two: body and mind, flesh and spirit, moving and thinking. In the office or at study we are 'mind workers', with superfluous bodies. In the gym we stretch, run and lift, but our minds are idle. Damon Young challenges this idea, revealing how fitness can develop our bodies and minds as one. Exploring exercises and sports with the help of ancient and modern philosophy, he uncovers the pleasures, virtues and big ideas of fitness. By exercising intelligently, we are committing to wholeness: enjoying and enhancing our full humanity. One in the new series of books from The School of Life, launched January 2014: How to Age by Anne Karpf How to Develop Emotional Health by Oliver James How to Be Alone by Sara Maitland How to Deal with Adversity by Christopher Hamilton How to Think

Sport in America, Volume II David K. Wiggins, 2009-11-11 Sport in America: From Colonial Leisure to Celebrity Figures and Globalization, Volume II, presents 18 thought-provoking essays focusing on the changes and patterns in American sport during six distinct eras over the past 400 years. The selections are entirely different from those in the first volume, discussing diverse topics such as views of sport in the Puritan society of colonial New England, gender roles and the croquet craze of the 1800s, and the Super Bowl's place in contemporary sport. Each of the six parts includes an introduction to the essays, allowing readers to relate them to the cultural changes and influences of the period. Readers will find essays on well-known topics written by established scholars as well as new approaches and views from recent studies. Suitable for use as a stand-alone or supplemental text in undergraduate and graduate sport history courses, Sport in America provides students with opportunities to examine selected sport topics in more depth, realize a greater understanding of sport throughout history, and consider the interrelationships of sport and other societal institutions. Essays are arranged chronologically from the early American period to the present day to provide the proper historical context and offer perspective on changes that have occurred in sport over time. Also, a list of suggested readings provided in each part offers readers the opportunity to expand their thinking on the nature of sport throughout American history. Essays on how

Pinehurst Golf Course was created, the interconnection between sport and the World War I military experience, and discussion of sport icons such as Joe Louis, Walter Camp, Jackie Robinson, and Cal Ripken Jr. allow readers to explore sport as a reflection of the changing values and norms of society. *Sport in America: From Colonial Leisure to Celebrity Figures and Globalization, Volume II*, provides students and scholars with perspectives regarding the role of sport at particular moments in American history and gives them an appreciation for the complex intersections of sport with society and culture.
