A Cassação da Inscrição Estadual do Contribuinte de ICMS Cassiano Luiz Souza Moreira, 2022-02-14 A inscrição estadual é um cadastro de contribuintes do ICMS criado em 1970, ainda sob a vigência da Constituição Federal de 1967, quando o Ministro da Fazenda e os Secretários de Fazenda dos Estados e do Distrito Federal acordaram em criar um Sistema Nacional Integrado de Informações Econômico-Fiscais. A inscrição do contribuinte pode ser cassada em diversas hipóteses, que vão desde a inatividade constatada ou presumida até a prática de atos ilícitos que tenham repercussão no âmbito tributário, passando pela inadimplência fraudulenta e por práticas sonegatórias que levem ao desequilíbrio concorrencial, entre outras. A medida se reveste de gravidade, já que impede a emissão de nota fiscal eletrônica, inabilitando o contribuinte à prática das operações tributadas pelo ICMS. A obra discute se a cassação da inscrição estadual, sobretudo em caso de inadimplência fraudulenta, caracteriza o que se convencionou chamar sanção política, analisando aspectos de natureza formal e material sobre o tema.

Expanding Bank Outreach Through Retail Partnerships

,2006-01-01 This paper explores the extent to which formal, regulated financial institutions such as banks have been able to partner with correspondents- commercial entities whose primary objective and business is other than the provision of financial services. The paper illustrates the case of Brazil, where banks recently have developed extensive networks of such correspondents. Such arrangements result in lower costs and shared risks for participating financial institutions, making these arrangements an attractive vehicle for outreach to the

underserved. Correspondent banking requires an enabling environment to emerge, and poses some regulatory challenges and some increase in risk. While there are reasons why this model was particularly successful in Brazil, it may be replicable elsewhere if appropriate regulatory adjustments are undertaken.

Globalization and National Financial Systems James A.

Hanson, Patrick Honohan, Giovanni Majnoni, 2003 This book breaks new ground by exploring the challenges, constraints, and opportunities of national financial systems in developing countries, while noting that all such systems must be considered small when viewed in the context of global finance. Resolving Foreign Bribery Cases with Non-Trial Resolutions Settlements and Non-Trial Agreements by Parties to the Anti-Bribery Convention OECD, 2019-03-10 Non-trial resolutions, often referred to as settlements, have been the predominant means of enforcing foreign bribery and other related offences since the entry into force of the OECD Anti-Bribery Convention 20 years ago. The last decade has seen a steady increase in the use of coordinated multi-jurisdictional non-trial resolutions, which have, to date, permitted the highest global amount of combined financial penalties in foreign bribery cases. This study is the first cross-country examination of the different types of resolutions that can be used to resolve foreign bribery cases.

Administração pública digital José Luiz de Moura Faleiros Júnior, 2020-08-06 Recebi de José Luiz de Moura Faleiros Júnior, a quem orientei durante o curso de Mestrado em Direito na

Universidade Federal de Uberlândia, a incumbência de apresentar a obra que outrora foi seu objeto de pesquisa e que, agora, é apresentada à comunidade jurídica com o título *Administração Pública digital: proposições para o aperfeiçoamento do Regime Jurídico Administrativo na sociedade da informação*. O trabalho vai muito além do que se esperaria de uma pesquisa acadêmica realizada no restrito biênio de um curso de Mestrado, eis que, como não poderia deixar de ser, o espírito incansável do jovem José Faleiros Jr. não apenas o fez se lançar com dedicação extrema à cognição das bases estruturantes do tema que se propôs a investigar, como também o conduziu ao desafio de buscar, inclusive no direito estrangeiro, os substratos necessários para a elaboração de um trabalho que mais se assemelha a uma Tese, tamanho o ineditismo e o caráter propositivo de algumas das diretrizes apresentadas na hipótese de pesquisa. Quando se fala na 'sociedade da informação', há muito vislumbrada – e o autor deixa claro, já em suas primeiras linhas introdutórias, que se trata de um fenômeno inescapável e de efeitos variados –, fundamental se torna o enfrentamento dos vetustos dilemas da Ciência do Direito à luz de compreensões que, invariavelmente, desafiam o operador do direito a explorar searas do conhecimento não usuais, tamanho o impacto transformador da tecnologia. A constante (e acelerada) evolução das Tecnologias da Informação e Comunicação (TICs) dá a tônica do processo histórico que culminou na preocupação do autor em investigar seus efeitos sobre o direito público. E isso se apresenta a partir de algo que ele próprio enuncia como um 'descompasso anunciado entre inovação e regulação', que sempre coloca o ritmo de desenvolvimento tecnológico adiante da capacidade do Estado de se adaptar a essas transformações, implicando em 'gap', ou lacuna de tempo, durante a qual certa escassez regulamentar pode implicar riscos e contingências

de toda espécie. De forma inovadora e ambiciosa, o autor enfrenta esse problema desde suas raízes, identificando os principais gargalos que tornam o Regime Jurídico Administrativo, nos moldes tradicionais, incapaz de responder totalmente às necessidades que as novas tecnologias impõem ao Estado, na busca pela pacificação de conflitos.
