*Quality Management* Mary Pellettieri, 2015-10-07 Craft beer sales are flourishing across the U.S. and without a continual emphasis on producing the highest quality beer, the health of the entire craft brewing industry is in jeopardy. Proper quality management for small, regional, and national breweries is critical. This guidebook decodes how to create and manage a quality system in a brewery. Written for staff who manage quality in breweries of all types and sizes—new and established alike—this book affords an understanding of how quality management is integrated into every level of the operation. Whether you are lab staff, production staff, part of a quality team, or a brewmaster wearing many hats, this book will help you develop a comprehensive program that will grow with your brewery and help ensure quality processes along the way—so you can continue to provide great beer for your fans.

**We Make Beer** Sean Lewis, 2014-09-23 An eye-opening journey into craft beer-making in America, and what you can find in the quest to brew the perfect pint Sean Lewis was living in Boston when he first set foot inside the Blue Hills Brewery. He was writing for BeerAdvocate magazine about America's craft brewers, and the then-fledgling Blue Hills was his first assignment. Lewis was immediately struck by the spirit of the brewers he met there. That visit would lead him first to an intensive study of beer-brewing, and later to a nation-spanning journey into the heart—and the art—of American beer making. What Lewis found along the way was a group of like-minded craftsmen—creators who weren't afraid to speak their minds, who saw their competitors as cherished friends. A group who takes sheer joy in their work, and who seeks the same kind of balance in their lives as they do in the barrels they brew. He shared pints with pioneering upstarts like Paul and Kim Kavulak of Nebraska Brewing Company, and talked shop with craft beer stalwarts like Ken Grossman of Sierra Nevada and bombastic innovators like Greg Koch (the Arrogant Bastard behind Stone Brewing Co.). He found, in them and others, a community that put its soul into its work, who sees beer-making as an extension of themselves. *We Make Beer* is not just a celebration of American brewing, but of the spirit that binds brewers together. It's about what you can discover in yourself when you put your hands and your heart into crafting the perfect pint.

**Connecticut Beer** Will Siss, 2015-04-27 The history of the frothy beverage in Connecticut dates back to early colonists, who used it to quench their thirst in the absence of clean drinking water. So integral was beer to daily life in the colony that government officials and militiamen congregated in taverns like the General Wolfe to talk laws and business over pints of ale. Over the next two centuries, the number of breweries rose and then declined, especially after Prohibition. It was not until the 1980s that homebrewers brought this vital Nutmeg State tradition back to life, hatching the likes of New England and Cottrell Brewing Companies, as well as brewpubs including City Steam and Southport Brewing. More recently, small operations with one or two people, such as Relic and Beer'd, are changing the landscape again. Connecticut beer writer Will Siss introduces readers to the hardworking people who keep the breweries and beer bars inviting and the hoppy history alive.

*Locally Brewed* Anna Blessing, 2014-02-11 Locally Brewed celebrates the Midwest's craft brewing movement with profiles of 20 of the area's brewmasters and their breweries. These are entertaining and inspiring stories of the individuals who have been essential in the exponential growth of this movement, as told through vivid interviews, beautiful photography, and dynamic artwork. In just the past 20 years, beer has been transformed from a low-class drink to a pluralistic, populist drink with the same stylistic diversity and caring craftsmanship as wine. One of the strongest hotbeds of this cultural shift is in the Midwest, where independently owned craft brewers focus on the creative, artisanal elements of the beer-making process. Locally Brewed explores these trends and the fun, fascinating, and unique details of each brewery, including label art, hand-pull designs, and of course the brews themselves. This is a book that can be enjoyed by the "beer geek" and the casual imbibers alike, as it emphasizes the people behind the beer as well as the beers they brew. Special sidebars and pullouts show what makes each brewery special, weaving together the story of the indie beer movement, relevant to both small-town Midwesterners and big-city beer lovers.

Producing and Consuming the Craft Beer Movement Wesley Shumar, Tyson Mitman, 2023-03-31 Producing and Consuming the Craft Beer Movement is an ethnographic analysis of the craft beer movement and its rapid development as an industry that articulated a different set of values: celebrating, quality, community, and good taste. This book will provide an excellent foundation for considering craft beer and an entrepreneurial practice that produces other forms of value beyond monetary value. The craft beer movement has been an important movement for thinking about contemporary consumer culture, and how that consumer culture might develop a very different set of values and priorities from those of the dominant consumer culture that is created by large-scale industries focused on the instrumental values of profit and efficiency. Located in one site, the ethnography is situated within the larger context of the rise of digital media, the evolution of cities, and the latest stage of the capitalist marketplace. The book is distinctive as it is ethnographic in its methodology. It is focused on one locale, the metropolitan area around Philadelphia. Philadelphia, along with Boston, Denver, San Diego, and a few other cities, was a central location for the early development of the craft beer industry. With its interdisciplinary approach,

individuals with interests in digital and social media, consumer culture, political economy, ethnography, and contemporary cultural theory will find this an interesting case study of an important industry that developed from the homebrewing movement to become an important craft industry that is now a global phenomenon. This book is directed to a broad range of readers interested in new media, consumer culture, craft, and contemporary capitalist culture. The book embeds the local in the larger historical and political economic context. Readers would include faculty members in communication, media studies, cultural studies, sociology, and anthropology. Students at a graduate and upper level undergraduate level would be interested as well.
