Perturbation Methods, Instability, Catastrophe and Chaos Wenfang Chen, C. F. Chan Man Fong, Daniel De Kee, 1999 This important book introduces perturbation and qualitative methods for differential equations in terms understandable to students with only a basic knowledge of calculus and ordinary linear differential equations. Theorems are stated clearly with their limitations and restrictions and are applied to solve examples from various disciplines. The writing style is informal and new ideas are introduced gradually via concepts already familiar to the reader.

Black-body Radiative, Thermodynamic, and Chromatic Functions: Tables in Finite Spectral Ranges Anatoliy I. Fisenko, Vladimir F. Lemberg, 2016-07-14
This book provides detailed calculated values for the thermal radiative and thermodynamic functions of black-body radiation in finite spectral ranges. The results are presented in tabular form. The areas of thermal power

generation, infrared medical diagnostics, solar power and nuclear generation, and astrophysics are included. A range of the thermal radiative and thermodynamic functions are calculated by the authors in the finite frequency/wavenumber/wavelength intervals at different temperatures. This book also contains the tables of the chromaticity coordinates and RGB parameters calculated for different color spaces (Rec.709 (HDTV), sRGB, Adobe RGB). A number of the optimization problems is formulated and solved for various thermal black-body radiative and thermodynamic functions in a finite range of frequencies.

Medicare Physician Payments Kathleen M. King, 2008-10 In 2005 Medicare paid over \$1.4 billion for anesthesia services (AS). These services are provided by anesthesia practitioners (AP), such as anesthesiologists and certified registered nurse anesthetists. A study found that Medicare payments for AS are lower than private payments. This difference may create regional discrepancies in the supply of AP. This report examines: the extent to which Medicare payments for AS were lower than private payments across Medicare payment localities; whether the supply of AP across Medicare payment localities was related to the differences between Medicare and private payments for AS or the concentration of Medicare beneficiaries; and compensation levels for AP in 2005 and trends in graduate training.
