The Old Neighborhood Avery Corman, 2013-02-05 A Madison Avenue adman returns to the Bronx of his youth in this New York Times bestseller by the author of *Kramer vs. Kramer*: “Charming” (The New York Times). Growing up in the Bronx in the 1940s, Steven Robbins was raised on egg creams, baseball stats, and the camaraderie that kept his melting-pot Bronx neighborhood humming during World War II. Robbins aspired to escape his humble roots, and eventually worked his way to Madison Avenue, where he became a hotshot ad man with an enviable wife. But as he pushes fifty and his marriage falls apart, Robbins begins yearning for a deeper happiness. Returning to his old neighborhood in the Bronx, Robbins seeks the simplicity of the life he once fled in the one place where he may ultimately find contentment. *The Old Neighborhood* is a warm-hearted novel that shows it is possible to go home again, or to take home with you wherever you go. This ebook features an illustrated biography of Avery Corman, including rare images from the author’s personal collection.

Jim Cramer's Stay Mad for Life James J. Cramer, 2017-10-24 Jim Cramer, bestselling author and host of CNBC's Mad Money, has written the ultimate guide to lifetime investing for readers of any age. Whether you're a recent college grad trying to figure out how to start investing, a young parent struggling to decide where and how to put away money, or someone well into middle age and worried about whether you've saved enough for retirement, Jim Cramer's Stay Mad for Life has the answers. Cramer covers all the essentials: how to save, where to invest, which pitfalls to avoid. He offers valuable advice on everything from mortgages to college tuition. He explains what professional money managers do right that amateur investors do wrong. Because there is always a bull market somewhere, Cramer tells readers where to find the bull markets of the future, and for those willing to do the homework, he chooses twenty stocks that could be long-term moneymakers. For those who don't have the time or the temperament to invest in stocks, he identifies the mutual funds that are proven winners. He's investigated these funds by using his own twenty-five years' experience managing money for himself and dozens of America's wealthiest families. Throughout, in addition to his own enormously successful experience, Cramer draws on rigorous research to back up his advice. Jim Cramer is America's #1 financial guru. Every day he advises investors on how to get ahead of the markets and stay ahead on his daily television show, Mad Money; in his online columns and commentary at TheStreet.com; in his popular "Bottom Line" column in New York magazine, and on television programs from early morning to late night. His books have all been national bestsellers and have helped educate hundreds of thousands of investors about the perils and promises of the financial markets. USA TODAY called him "the media's most electrifying market pundit," and his legions of fans agree. Jim Cramer's Stay Mad for Life is the definitive money book, a practical, concrete, insightful book of invaluable financial advice that is a joy to read.

Geography and Economy in South Africa and its Neighbours Christian M. Rogerson, 2017-05-15 The dismantling of the apartheid regime in South Africa caused massive transformation in both geographical and economic terms, not only in this country but also in the region as a whole. As the post-apartheid government enters its second term, this captivating volume assesses its progress in unravelling the geography of apartheid, both in South Africa itself and in its relationships with other countries in Southern Africa and Africa. It also considers the ways in which South Africa, now that it is no longer a pariah state, has begun to position itself within the current global economy. Examining South Africa's land and agriculture, mining and minerals, manufacturing, tourism, corporate finance, the labour market and transport, the volume discusses the challenges of balancing growth and redistribution, the extent and nature of progress, change and relationships within the regional and global economy. A compelling investigation into the economics of South Africa's neighbouring states in relation to their natural resources,

colonialism and inter-relationships with themselves and with South Africa leads to a focus on the region as a whole and its relations with the global economy.

Toward Camden Mercy Romero, 2021-08-30 In *Toward Camden*, Mercy Romero writes about the relationships that make and sustain the largely African American and Puerto Rican Cramer Hill neighborhood in New Jersey where she grew up. She walks the city and writes outdoors to think about the collapse and transformation of property. She revisits lost and empty houses—her family's house, the Walt Whitman House, and the landscape of a vacant lot. Throughout, Romero engages with the aesthetics of fragment and ruin; her writing juts against idioms of redevelopment. She resists narratives of the city that are inextricable from crime and decline and witnesses everyday lives lived at the intersection of spatial and Puerto Rican diasporic memory. *Toward Camden* travels between what official reports say and what the city's vacant lots withhold. Duke University Press Scholars of Color First Book Award recipient

Land Fictions D. Asher Ghertner, Robert W. Lake, 2021-03-15 *Land Fictions* explores the common storylines, narratives, and tales of social betterment that justify and enact land as commodity. It interrogates global patterns of property formation, the dispossessions property markets enact, and the popular movements to halt the growing waves of evictions and land grabs. This collection brings together original research on urban, rural, and peri-urban India; rapidly urbanizing China and Southeast Asia; resource expropriation in Africa and Latin America; and the neoliberal urban landscapes of North America and Europe. Through a variety of perspectives, *Land Fictions* finds resonances between local stories of land's fictional powers and global visions of landed property's imagined power to automatically create value and advance national development. Editors D. Asher Ghertner and Robert W. Lake unpack the dynamics of land commodification across a broad range of political, spatial, and temporal settings, exposing its simultaneously contingent and collective nature. The essays advance understanding of the politics of land while also contributing to current debates on the intersections of local and global, urban and rural, and general and particular. The Last Rites Yvonne Mason, 2011-08-08 In May 1975 a decomposed body on Uilrich Rd in Fort Pierce, Florida was found by two fishermen. At first the body was listed as a Jane Doe. When she was identified, the investigation was hampered by all the ones who were talked to by law enforcement. The case went cold for a year, it was only after a prisoner had a case of conscience that the case was finally solved. Pauline Metler was buried in an unmarked grave in Fort Pierce Cemetery and forgotten. She will never be forgotten again. This is her story.

Homesteading the Plains Richard Edwards, Jacob K. Friefeld, Rebecca S.

Wingo, 2017-09 *Homesteading the Plains* offers a bold new look at the history of homesteading, overturning what for decades has been the orthodox scholarly view. The authors begin by noting the striking disparity between the public's perception of homesteading as a cherished part of our national narrative and most scholars' harshly negative and dismissive treatment. *Homesteading the Plains* reexamines old data and draws from newly available digitized records to reassess the current interpretation's four principal tenets: homesteading was a minor factor in farm formation, with most Western farmers purchasing their land; most homesteaders failed to prove up their claims; the homesteading process was rife with corruption and fraud; and homesteading caused Indian land dispossession. Using data instead of anecdotes and focusing mainly on the nineteenth century, *Homesteading the Plains* demonstrates that the first three tenets are wrong and the fourth only partially true. In short, the public's perception of homesteading is perhaps more accurate than the one scholars have constructed. *Homesteading the Plains* provides the basis for an understanding of homesteading that is startlingly different from current scholarly orthodoxy. --

Cramer's Choice Mike Cramer, 2023-09-29 Mike Cramer's first love was baseball cards. Before high school he had a mail-order trading card business. At age 30 he founded Pacific Trading Cards with money he made fishing crab in the Bering Sea. From 1980 to 2004, Pacific created more than 200 successful trading card products. In 2021, a Pacific Tom Brady rookie card sold for \$117,000. Pacific's cards remain some of the hobby's most sought-after and other companies still emulate their innovations. Cramer's memoir offers a behind-the-scenes look at the birth of a major card company, from one kid's overgrown collection to every hands-on facet of building a business with hundreds of employees producing cards for retail stores worldwide.

On Cramér's Theory in Infinite Dimensions Raphaël Cerf, 2007 This text is a self-contained account of Cramer's theory in infinite dimensions. The point of view is slightly different from the classical texts of Azencott, Bahadur and Zabell, Dembo and Zeitouni, and Deuschel and Stroock. The authors have been trying to understand the relevance of the topological hypotheses necessary to carry out the core of the theory. They have also drawn some inspiration from the analogy between the large deviation proofs in statistical mechanics and for i.i.d. random variables.
