How to Draw Crazy Cars & Mad Monsters Like a Pro Ed Newton, Thom Taylor, Chopped, slammed, channeled, blown . . . in the late '50s and early '60s all of these features lent themselves nicely to the rise of hot rod art that caricaturized the already severe design traits associated with these cars. Usually, the rods and customs in this art were piloted by slobbering, snaggle-toothed monsters with bulging, bloodshot eyes. Thanks to the iron-on T-shirt boom of the '70s and a raft of younger artists working today, hot rod monsters have persevered. Now award-winning car-designer Thom Taylor and legendary kustom culture figure Ed Newton reveal the tricks and techniques used by masters past and present to render these whack rods and their warts-and-all drivers. Beginning with a brief history of the form, the authors examine figures like Stanley Mouse, Ed Roth, and Newton himself, then reveal how those pioneers influenced modern artists like Keith Weesner, John Bell, and Dave Deal, to name a few. In addition to offering chapters covering topics like equipment, perspective, light sources, and other technical considerations, Taylor expands on the cartooning, proportion, and color chapters from his previous works, applying them to the subject at hand. Also includes dozens of examples of the form from many of the above-mentioned artists and more.

Car Crazy G. Wayne Miller,2015-11-03 Before the Big Three, even before the Model T, the race for dominance in the American car market was fierce, fast, and sometimes farcical. Car Crazy takes readers back to the passionate and reckless years of the early automobile era, from 1893, when the first US-built auto was introduced, through 1908, when General Motors was founded and Ford's Model T went on the market. The motorcar was new, paved roads few, and devotees of this exciting and unregulated technology battled with citizens who considered the car a dangerous scourge, wrought by the wealthy, that was shattering a more peaceful way of life. Among the pioneering competitors were Ransom E. Olds, founder of Olds Motor Works and creator of a new company called REO; Olds' cutthroat new CEO Frederic L. Smith; William C. Billy Durant of Buick Motor Company (and soon General Motors); and inventor Henry Ford. They shared a passion for innovation, both mechanical and entrepreneurial, but their maniacal pursuit of market share would also involve legal manipulation, vicious smear campaigns, and zany publicity stunts -- including a wild transcontinental car race that transfixed the public. Their war on wheels ultimately culminated in a courtroom battle that would shape the American car industry forever. Based on extensive original research, Car Crazy is a page-turning story of popular culture, business, and sport at the dawn of the twentieth century, filled with compelling, larger-than-life characters, each an American original.
