Formula 2 Chris Witty,2017-09-15 This sumptuous book, a feast of nostalgia, celebrates the wonderful era of the European Formula 2 Championship, 1967-84, on the 50th anniversary of its beginnings. Formula 2 pitted emerging heroes against the greats of the day and virtually all the top Formula 1 drivers - names like Jackie Stewart, Jack Brabham, Graham Hill, Jochen Rindt and Bruce McLaren in 1967 - battled with young chargers in races that thrilled huge crowds at the best European circuits, from the Nürburgring to Brands Hatch. In bringing the glory days of Formula 2 back to life in this book, passionate author Chris Witty has interviewed many of the surviving protagonists to present a colourful and evocative retrospective, supported by the work of Jutta Fausel, who photographed Formula 2 races throughout this period. Birth of the European Formula 2 Championship in 1967, when Jacky Ickx (the writer of the book's foreword) became the first champion, driving a Tyrrell-entered Matra. French Matra cars propelled the next two champions, Jean-Pierre Beltoise (1968) and Johnny Servoz-Gavin (1969), both Frenchmen. Of all the manufacturers of Formula 2 cars, March achieved the most success, Ronnie Peterson (1971) becoming the first of six champions to win in these British-built cars. A fine all-British year, 1972, saw ex-motorcycle 'great' Mike Hailwood win the championship in a Surtees car. French champions in five consecutive years: Jean-Pierre Jarier (1973), Patrick Depailler (1974), Jacques Laffite (1975), Jean-Pierre Jabouille (1976) and Rene Arnoux (1977) dominated their era and all but Jarier went on to become Grand Prix winners. Toleman and Ralt cars - also made in Britain - emerged in the final years of the championship, which saw three more British champions: Brian Henton (1980), Geoff Lees (1981) and Jonathan Palmer (1983). The other champions were Clay Regazzoni (1970), Bruno Giacomelli (1978), Marc Surer (1979), Corrado Fabi (1980) and Mike Thackwell (1984).

Beautiful, Simple, Exact, Crazy Apoorva Khare,Anna Lachowska,2015-08-25 In this vibrant work, which is ideal for both teaching and learning, Apoorva Khare and Anna Lachowska explain the mathematics essential for understanding and appreciating our quantitative world. They show with examples that mathematics is a key tool in the creation and appreciation of art, music, and literature, not just science and technology. The book covers basic mathematical topics from logarithms to statistics, but the authors eschew mundane finance and probability problems. Instead, they explain how modular arithmetic helps keep our online transactions safe, how logarithms justify the twelve-tone scale commonly used in music, and how transmissions by deep space probes are similar to knights serving as messengers for their traveling prince. Ideal for coursework in introductory mathematics and requiring no knowledge of calculus, Khare and Lachowska's enlightening mathematics tour will appeal to a wide audience.

The Geek Dad Book for Aspiring Mad Scientists Ken Denmead,2011-11 Provides a collection of ideas for science fair projects and family activities, including making topsoil, understanding calories, and building a MacGyver radio.

Mad Men Gary R. Edgerton,2010-12-18 Don and Betty Draper live in a picture-perfect world. He is a hard-living advertising executive - a 'mad man' - on the fast track. She's a Bryn Mawr graduate and former fashion model, now a suburban princess, mother of three children. If they've everything, why are they so unhappy? Why is their dream come true not enough? This book explores, analyses, celebrates the world of Mad Men in all its

aspects, and includes an interview with it's Executive Producer and an episode guide. Every few years a new television program comes along to capture and express the zeitgeist. Mad Men is now that show. Since premiering in July 2007, it's won many awards and is syndicated across the globe. Its imprint is evident throughout contemporary culture, from features to fashions and online debate. Its creator Matthew Weiner, a former exec producer on The Sopranos, has created again compelling, complex characters, this time in the sophisticated go-go world of Madison Avenue through the 1960s, with the excessive drinking and smoking, as well as the playing out of the prejudices and anxieties of an era long neglected in popular culture. Mad Men is a zeitgeist show of the early twenty-first century, this book demonstrates, partly because its characters are an earlier, confused and conflicted version of ourselves, trying to make the best of a future unfolding at breakneck speed.
