The Age of Em Robin Hanson, 2016-05-13 Robots may one day rule the world, but what is a robot-ruled Earth like? Many think the first truly smart robots will be brain emulations or ems. Scan a human brain, then run a model with the same connections on a fast computer, and you have a robot brain, but recognizably human. Train an em to do some job and copy it a million times: an army of workers is at your disposal. When they can be made cheaply, within perhaps a century, ems will displace humans in most jobs. In this new economic era, the world economy may double in size every few weeks. Some say we can't know the future, especially following such a disruptive new technology, but Professor Robin Hanson sets out to prove them wrong. Applying decades of expertise in physics, computer science, and economics, he uses standard theories to paint a detailed picture of a world dominated by ems. While human lives don't change greatly in the em era, em lives are as different from ours as our lives are from those of our farmer and forager ancestors. EmS make us question common assumptions of moral progress, because they reject many of the values we hold dear. Read about em mind speeds, body sizes, job training and career paths, energy use and cooling infrastructure, virtual reality, aging and retirement, death and immortality, security, wealth inequality, religion, teleportation, identity, cities, politics, law, war, status, friendship and love. This book shows you just how strange your descendants may be, though ems are no stranger than we would appear to our ancestors. To most ems, it seems good to be an em.

On Adventure with Dad Kenny Deuss, 2022-04-11 * Kenny Deuss, the man behind the humorous Instagram account On adventure with Dad, makes his 400k followers laugh every week with hilarious photos about fatherhood* The perfect Father's Day gift or new father gift Alone every Tuesday with his newborn daughter, Kenny Deuss fielded frequent requests from his partner, Tineke, for photos of the baby when she was away from home. His series of hilariously Photoshopped images of the baby in mock perilous situations began with teasing photographs that showed just how safe the baby was. Currently, people from all over the world follow Kenny's adventures with his (now 2) daughters Alix and Aster through his Instagram account On Adventure with Dad. In this book he bundles his best photos, supplemented with a large number of never-before-seen images. He also includes 'tips' for dads and dads-to-be with a large dose of his typical dry humor.

Naptime with Theo and Beau Jessica Shyba, 2015-12-29 The only thing better than naptime is naptime with a friend. Theo the puppy (part-Boxer, part-Shepherd, part-Labrador, part-Sharpei) was rescued by Beau, a twenty-three-month-old toddler, and his family from an animal shelter in Santa Cruz. The two of them instantly became best friends. And every day at naptime, Theo waits for Beau to fall asleep, then curls up next to him. Theo and Beau were already a viral sensation thanks to the unbearably adorable, utterly charming photos that author (Beau's mother) Jessica Shyba has been posting on her popular blog Momma's Gone City. And now, she's matched the very sweetest of them to a charming bedtime text to make a board book that is (as Alyssa Milano said of the blog) so cute it hurts.

The Peel Sessions Ken Garner, 2010-12-15 This is a story of teenage dreams, which, as any Peel fan knows, are hard to beat. Between 1967 and 2004 John Peel picked over 2000 bands to come and record over 4000 sessions to be played on his radio show. Many were young and had never been in a recording

studio before, for some it was the start of an illustrious career, for others it was the only recognition their musical talent ever got. For over 35 years the cream of British musical talent made the journey to the BBC's studio in Maida Vale, from Pink Floyd to Pulp, the Small Faces to the Smiths. And because John Peel was so respected his sessions took on a legendary status - they were a rite of passage that every new band wanted to go through. Unfettered by commercial pressure the Peel Sessions were a unique British institution - an archive of music that reflects one man's passion for finding and encouraging new music. Includes a full sessionography listing songs, band members and broadcast dates. Jarvis Cocker writing about his first Peel Session aged 18 (Wayne the drummer was 15): 'We travelled down to Maida Vale in a van driven by a very strange man we'd contacted via a card pinned to the Virgin record shop noticeboard. We'd had to borrow lots of equipment from a band called The Naughtiest Girl Was a Monitor 'cause we didn't have enough stuff of our own. The session was to be produced by Dale Griffin, who used to be the drummer in Mott the Hoople; I seem to remember that he was wearing cowboy boots. I think the crisis point came when Wayne was attempting to get a home-made synth-drum to work that a friend of his at school had made out of a rubber burglar-alarm mat and an old electronic calculator - Dale Griffin looked at this 15-year-old kid crouching on the floor bashing what looked like a doormat with some wires coming out of it and just put his head in his hands. But to his credit, the session did get finished and after it, everything else started for me...'

Ur Special Danny Casale, 2021-11-02 Based on the wildly popular characters from Coolman Coffeedan, a colorful and charming collection of parables reminding us to face our fears, our anxieties, and our self-consciousness head-on. What do a naked cat, a sad turtle, an armless robot, and a sentient potato have in common? Quite a lot, actually! In this vibrant and heartfelt book, self-proclaimed bad animator Danny Casale delivers a much-needed jolt of positivity and humor to ease even the sourest of spirits. Fans of his Coolman Coffeedan accounts will recognize his simple and relatable illustrations, but the material is entirely new. Each chapter introduces a new friend and a new hardship, offering the perfect pick-me-up for whatever has you down. Tackling topics from loneliness and self-confidence to the perfect (ONLY) way to construct a bowl of cereal, this book will leave you feeling just fine. So don't forget—no matter what you may be feeling on the inside, or what people may be saying on the outside, UR SPECIAL!

Where Is My Flying Car? J. Storrs Hall, 2021-11-30 From an engineer and futurist, an impassioned account of technological stagnation since the 1970s and an imaginative blueprint for a richer, more abundant future The science fiction of the 1960s promised us a future remade by technological innovation: we'd vacation in geodesic domes on Mars, have meaningful conversations with computers, and drop our children off at school in flying cars. Fast-forward 60 years, and we're still stuck in traffic in gas-guzzling sedans and boarding the same types of planes we flew in over half a century ago. What happened to the future we were promised? In *Where Is My Flying Car?*, J. Storrs Hall sets out to answer this deceptively simple question. What starts as an examination of the technical limitations of building flying cars

evolves into an investigation of the scientific, technological, and social roots of the economic stagnation that started in the 1970s. From the failure to adopt nuclear energy and the suppression of cold fusion technology to the rise of a counterculture hostile to progress, Hall recounts how our collective ambitions for the future were derailed, with devastating consequences for global wealth creation and distribution. Hall then outlines a framework for a future powered by exponential progress—one in which we build as much in the world of atoms as we do in the world of bits, one rich in abundance and wonder. Drawing on years of original research and personal engineering experience, *Where Is My Flying Car?*, originally published in 2018, is an urgent, timely analysis of technological progress over the last 50 years and a bold vision for a better future.

The 2030 Spike Colin Mason, 2013-06-17 The clock is relentlessly ticking! Our world teeters on a knife-edge between a peaceful and prosperous future for all, and a dark winter of death and destruction that threatens to smother the light of civilization. Within 30 years, in the 2030 decade, six powerful 'drivers' will converge with unprecedented force in a statistical spike that could tear humanity apart and plunge the world into a new Dark Age. Depleted fuel supplies, massive population growth, poverty, global climate change, famine, growing water shortages and international lawlessness are on a crash course with potentially catastrophic consequences. In the face of both doomsaying and denial over the state of our world, Colin Mason cuts through the rhetoric and reams of conflicting data to muster the evidence to illustrate a broad picture of the world as it is, and our possible futures. Ultimately his message is clear; we must act decisively, collectively and immediately to alter the trajectory of humanity away from catastrophe. Offering over 100 priorities for immediate action, *The 2030 Spike* serves as a guidebook for humanity through the treacherous minefields and wastelands ahead to a bright, peaceful and prosperous future in which all humans have

the opportunity to thrive and build a better civilization. This book is powerful and essential reading for all people concerned with the future of humanity and planet earth.

Crazy Faith Michael Todd, 2023-09-19 NEW YORK TIMES BESTSELLER • From the author of *Relationship Goals* . . . Will you be remembered as a person who claimed to follow God but liked to play it safe? Or as a person who lived your life out on the limb and trusted God enough to live in crazy faith? Noah looked crazy when he started building the ark . . . until it started raining. It was crazy for Moses to lead a nation of people into the desert away from

Egypt . . . until the Red Sea parted. It was crazy to believe that a fourteen-year-old virgin would give birth to the Son of God . . . until Mary held Jesus in her arms. There are many things that seem normal or average today that at one point in time seemed absolutely crazy. Smartphones, Wi-Fi, and even the electric light bulb were all groundbreaking, history-making inventions that started out as crazy ideas. Our see-it-to-believe-it generation tends to have a hard time exercising true faith—one that steps out, takes action, and sees mountain-moving results. Many of us would rather play it safe and stand on the sidelines, but it's crazy faith that helps us see God move and reveals His promises. In *Crazy Faith*, Pastor Michael Todd shows us how to step out in faith and dive into the purposeful life of trusting God for the impossible. Even if you have to start with baby faith or maybe faith, you can become empowered to let go of your lazy faith, trust God through your hazy faith, and learn to live a lifestyle of crazy faith. With powerful stories of modern-day faith warriors who take their cues from biblical heroes, Michael Todd equips you to • believe for the impossible • choose hope over fear • be alert to the voice of God • cope with loss and doubt • develop a deeper level of trust in God • speak faith-filled declarations • inspire crazy faith in others God's not looking for somebody to give Him all the reasons why His plans can't happen. He's looking for somebody to believe they will happen. In fact, He has so much He wants to do through you. The question is, Are you crazy enough to believe it?

Woman Evolve Sarah Jakes Roberts, 2021-04-06 A New York Times bestseller! With life lessons she's learned and new insights from the story of Eve, Sarah Jakes Roberts shows you how past disappointments, struggles, and even mistakes can be used today to help you become the woman God intended. Who would imagine being friends with Eve—the woman who's been held responsible for the fall of humanity (and cramps) for thousands of years? Certainly not Sarah Jakes Roberts. That is, not until Sarah discovered she is more like Eve than she cares to admit. Everyone faces trials, and everyone will mess up. But failure should not be the focus. Your focus should not be on who you were but rather the pursuit of who you can become. In *Woman Evolve*, Sarah helps you understand that your purpose in life does not change; it evolves. Making her mistake in the Garden of Eden, Eve became the first woman to deal with rebuilding her life in the aftermath of her past. Eve knew better, but she didn't do better. With scriptural lessons, Eve as the framework, and Sarah as your guide you will discover and work through: Past issues and insecurities that haunt you Seeing yourself as God sees you and trusting Him with who you really are How to come out of darkness and pursue a real relationship with God Why it's important to truly care for yourself Setting in motion the beautiful seed that God planted in you Your fears and insecurities may have changed how you viewed God, others, and yourself, but in *Woman Evolve*, you can break through and use past mistakes to revolutionize your life. Like Eve, you don't have to live your future defined by your past.
