Parenting with Kindness & Consequences Barbara Frandsen,2022-11-30 The perfect combination of child-development research and grandmotherly wisdom. . . a practical roadmap for raising a child in the 21st century. ~Kirsten Brunner, LPC, co-author of *The Go-To Guide for New Dads* Being a good parent is the most challenging—and meaningful—job anyone can assume. The manner in which parents and other caregivers fulfill this task will impact the future of the child, as well as the world. In *Parenting with Kindness & Consequences*, parents and grandparents are encouraged to nurture children from birth, with many examples and tips on how to compassionately guide them through each stage of development. An important part of loving a child includes setting appropriate limits. Methods are examined in detail, along with how to respond both kindly and firmly when children push the boundaries. The good news is that when corrections or consequences match behaviors in ways that help a child learn, no punishment need occur. Severe challenges (such as cruelty to others, stealing, and lying) are examined with a focus on healing. Although this book focuses on early childhood, the same principles apply to older children, teens, and young adults.

Bannack Jerry Delaney,2020-05-29 Bannack is a story of adventure and self-discovery set in the time of the Civil War and vigilante violence. Sixteen-year-old Billy Mayfair, kicked out of his home in Illinois by his father, sets out to find a fortune in gold in a remote mining camp in what would become the Montana Territory. While in St. Louis, he loses his money and virginity, gets in a fight and lands in jail. But he manages to save enough working in a Union hospital caring for Civil War casualties to book passage on a steamer headed 2,000 miles north to Fort Benton. Panning for gold and living in the wild hard-drinking town of Bannack, he becomes a friend of the sheriff, who will become known in the official record as the most notorious outlaw in Montana history. There, Billy witnesses the deadliest outbreak of vigilante violence in U.S. history: twenty-one men are hanged in less than a month's time. What makes this story unique is that it gives voice to the victims as well as the victors of this actual event.

Transforming the Workforce for Children Birth Through Age 8 National Research Council,Institute of Medicine,Board on Children, Youth, and Families,Committee on the Science of Children Birth to Age 8: Deepening and Broadening the Foundation for Success,2015-07-23 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. *Transforming the Workforce for Children Birth Through Age 8* explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. *Transforming the Workforce for Children Birth Through Age 8* offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

Casting Lots Susan Silverman,2016-03-29 Susan Silverman grew up with parents who were, both before and after a devastating loss, atheists. Yet, as a young adult, she shocked everyone who knew her (“But you were elected Class Flirt in high school!”) and became a rabbi. What was not surprising, however, was that she built her own big, unwieldy family through both birth and adoption, something she had intended from childhood. With three daughters and two sons (“We produce girls and import boys”), this unique family becomes a metaphor for the world’s contradictions and complexities—a microcosm of the tragedy and joy, hope and despair, cruelty and compassion, predictability and absurdity of this world we all live in. A meditation on identity, faith, and belonging—one that's as funny as it is moving—Casting Lots will resonate with anyone who has struggled to find their place in the world and to understand the significance of that place.
