Monster Hunt NYC 2 Harmon Cooper, 2018-11-05 Hunt monsters. Upgrade your dojo. Make money. The illegal Monster Hunt app has definitely done a number on Chase Knowles' life, transforming him from a down-on-his-luck musician to the Alpha of two incredible Huntresses. Along with his bandmate, Iris, the group has taken New York City by storm, hunting and brawling in the city's landmarks and hard-to-reach spaces. But there is more to the Monster Hunt app than catch or sell. An exclusive world known as EverLife presents new challenges, new adventure, and a mystery that none have been able to solve. It also presents new foes. Warning: Monster Hunt NYC contains a light harem with monster girls, augmented reality, fantasy violence, a ton of action, and GameLit/LitRPG concepts. It was inspired by the Persona Games, Pokemon Go!, and Scott Pilgrim vs. the World.

Flashmob Christopher Farnsworth, 2017-06-27 Publishers Weekly's Best Books of 2017 Gifted troubleshooter John Smith, introduced in the acclaimed thriller *Killfile*, must take down a shadowy figure who has weaponized the internet, using social media to put a price on the heads of his targets in this intense, unstoppable thriller from the author reviewers have compared to Michael Crichton, Brad Thor, and James Rollins. As a fixer for America's one percent, John Smith cleans up the messes of those rich enough to afford him. But he's no ordinary gun for hire. Smith is a man of rare gifts, including the ability to read minds. Arriving at the wedding of Kira Sadeghi, a reality television celebrity he recently saved from kidnappers, Smith witnesses a

group of gunmen open fire, hitting the bride and others. Though he's unarmed, Smith cripples one of the killers and is able to pry one word from his mind: Downvote. Eager to learn more, Smith hacks into the brain of an FBI agent investigating the attack to discover the Bureau has been investigating a nefarious new threat called Downvote, an encrypted site on the dark net that lists the names of celebrities and offers a hefty bounty for anyone who can kill them—unleashing an anonymous and deadly flashmob with a keystroke. Finding a mastermind on the internet is like trying to catch air—unless you're John Smith. Motivated by money and revenge, he traces a series of electronic signatures to a reclusive billionaire living at sea, accompanied by a scary-smart female bodyguard who becomes Smith's partner in his quest. The hunt for their prey will lead from Hong Kong to Reykjavik to a luxury gambling resort deep in the Laotian jungle. Yet always this criminal mastermind remains one step ahead. The only way Downvote's creator can stop Smith is to kill him . . . because while this diabolical genius can run, there's no hiding from a man who can read minds.

The Ghost Hunter's Daughter Caroline Flarity, 2019-04-14 - Featured in Best YA of 2019 (Ginger Nuts of Horror, the UK's #1 Horror Review Site) - Winner of 2019 Indie Book Award (Crossroad Reviews) - One of the 10 Best Books of 2019 (Inspired Chaos Books) Supernatural meets Mean Girls in this YA horror mystery for older teens. Sixteen-year-old Anna sees things from another world, the spiritual world, a skill that isn't exactly useful in high school. It's bad enough that her mother, possessed by a demon, took her own life when Anna was a child, a loss she remains tortured by. Now her father makes his living clearing haunted objects, and Anna's job as his assistant makes her a social misfit. Most kids in her suburban New Jersey town refer to her just as

Goblin Girl. Only Freddy and Dor remain loyal friends. But Anna's so focused on her own problems, she's missed that her connection with Freddy is moving beyond the friend zone and that Dor is in crisis. As junior year approaches, a rare solar storm lights up the night skies and the citizens of Bloomtown begin to act strangely: Anna's teachers lash out, her best friends withdraw, and the school bullies go from mean to murderous. When Anna realizes she can harness this evil power, she sets out to save Bloomtown and the only family she has left. But to do so, she must keep her own increasingly dark urges at bay. *Trigger Warnings*: suicide (while possessed), suicide ideation, bullying, mental illness (hoarding), self-harm, pet harm, predatory and abusive adults in positions of power.

The Isle of Blood Rick Yancey, 2011-09-13 This gothic, gory novel—the third book in the Printz Honor-winning Monstrumologist series—is “articulately literary, horrifically grotesque, and mind-bendingly complex” (Kirkus Reviews). When Dr. Warthrop goes hunting for the “Holy Grail of Monstrumology” with his eager new assistant, Arkwright, he leaves Will Henry in Victorian New York. Finally, Will can enjoy something that always seemed out of reach: a normal life with a real family. But part of Will can't let go of Dr. Warthrop, and when Arkwright returns, claiming that the doctor is dead, Will is devastated—and not convinced. Determined to discover the truth, Will travels to London, knowing that if he succeeds, he will be plunging into depths of horror worse than anything he has experienced so far. His journey takes him to Socotra, the Isle of Blood, where human beings are used to make nests and blood rains from the sky—and puts Will Henry's loyalty to the ultimate test.

The Australopithecine Face Yoel Rak, 2014-05-10 The Australopithecine Face

provides an introduction to the interpretation of the facial skeleton of *Australopithecus*, a part of the anatomy well represented in the African collections. This book presents important morphological differences between the early hominid taxa and interprets them in a biochemical, functional, evolutionary framework. Organized into seven chapters, this book begins with an overview of the description of the face of the four species of *Australopithecus*, extending to comparisons both within the genus and with other primates. This text then provides an analysis of the facial morphology of *Australopithecus* in terms of structural significance. Other chapters consider the taxonomic and phylogenetic status of the australopithecine species in light of the description and comparison. This book discusses as well the changes in the morphology and topography of the facial mask. The final chapter deals with the phylogenetic assignment of the different species. This book is a valuable resource for anthropologists.

Unlock the Hidden Job Market Duncan Mathison, Martha I. Finney, 2009-09-20
More than 70% of today's job opportunities come through the "hidden job market": they're never advertised, assigned to search firms or internal recruiters, or displayed at job fairs. What's more, as employers cut recruiting costs, the proportion of "hidden" job opportunities is actually growing. And, since most jobseekers know practically nothing about it, those who do understand it have a powerful inside advantage. Now, two career experts reveal the hidden job market, and show how to use it to dramatically improve your chances of landing a job that fits your passions and skills perfectly. Duncan Mathison and best-selling author Martha Finney help you launch a custom, personal job search that avoids competing with thousands of desperate, laid-off job seekers. Learn how to: Use the hidden job market to

leap-frog salary levels or even change professions Uncover hidden market opportunities, and your target employers' unspoken needs and wants Tell your story in two minutes, and make people want to know more Get the interviews that count, and run them like a pro Network without sounding phony, lame or desperate Reframe experiences, passions, and hobbies as "transferrable skills" Build a strategic support team of advisors Identify a "dead-ended" job search, and get it restarted Negotiate compensation for "hidden" jobs.

A Toast to Eclipse Brian McGinty, 2012-08-31 The sparkling wines of California rival the best French Champagnes today, but their place at our tables came about through careful craftsmanship that began more than a century ago. The predecessor of today's California bubbly was Eclipse Champagne, the first commercially successful California sparkling wine, produced by Arpad Haraszthy in the mid- to late nineteenth century. In A Toast to Eclipse, Brian McGinty offers a definitive history of the wine, exploring California's winemaking past and two of the people who put the state's varietal wines on the map: Arpad and his father Agoston Haraszthy, the legendary "father of California viticulture." Inspired by his father's dream of making California one of the world's great viticultural regions, Arpad Haraszthy (1840-1900) pursued that goal at a time when the best grapes for making California wine had yet to be discovered, when the best locations for vineyards had not yet been established, and when the public could hardly believe that good wine could be made in a country overrun with gold miners

and desperados. As a young man, Arpad spent two years in the Champagne country of northeastern France, studying the classic methods of French sparkling wine manufacture, before bringing his knowledge home to California. As McGinty shows, the story of the award-winning wine Haraszthy created is also the story of San Francisco during its heyday as the largest, most dynamic city in the American West. McGinty reveals new information about California varietals and winemaking districts, and probes the controversy about whether Agoston Haraszthy introduced the Zinfandel grape to the Golden State. Aficionados of wine and of California history will find this narrative insightful and refreshing, and all readers will gain an appreciation for Arpad Haraszthy, Eclipse, and the delicate process of making a wine sparkle.

First Peoples in a New World David J. Meltzer, 2009-05-27 More than 12,000 years ago, in one of the greatest triumphs of prehistory, humans colonized North America, a continent that was then truly a new world. Just when and how they did so has been one of the most perplexing and controversial questions in archaeology. This dazzling, cutting-edge synthesis, written for a wide audience by an archaeologist who has long been at the center of these debates, tells the scientific story of the first Americans: where they came from, when they arrived, and how they met the challenges of moving across the vast, unknown landscapes of Ice Age North America. David J. Meltzer pulls together the latest ideas from archaeology, geology, linguistics, skeletal biology, genetics, and other fields to trace the breakthroughs that have revolutionized our understanding in recent years. Among many other topics, he explores disputes over the hemisphere's oldest and most controversial sites and considers how the first Americans coped with changing global climates. He also confronts some radical claims: that the Americas were colonized from

Europe or that a crashing comet obliterated the Pleistocene megafauna. Full of entertaining descriptions of on-site encounters, personalities, and controversies, this is a compelling behind-the-scenes account of how science is illuminating our past.

Spearhead of Logistics Benjamin King, Richard C. Biggs, 2016-02-25 *Spearhead of Logistics* is a narrative branch history of the U.S. Army's Transportation Corps, first published in 1994 for transportation personnel and reprinted in 2001 for the larger Army community. The Quartermaster Department coordinated transportation support for the Army until World War I revealed the need for a dedicated corps of specialists. The newly established Transportation Corps, however, lasted for only a few years. Its significant utility for coordinating military transportation became again transparent during World War II, and it was resurrected in mid-1942 to meet the unparalleled logistical demands of fighting in distant theaters. Finally becoming a permanent branch in 1950, the Transportation Corps continued to demonstrate its capability of rapidly supporting U.S. Army operations in global theaters over the next fifty years. With useful lessons of high-quality support that validate the necessity of adequate transportation in a viable national defense posture, it is an important resource for those now involved in military transportation and movement for ongoing expeditionary operations. This text should be useful to both officers and noncommissioned officers who can take examples from the past and apply the successful principles to future operations, thus ensuring a continuing legacy of Transportation excellence within Army operations. Additionally, military science students and military historians may be interested in this volume.

How Do You Kill 11 Million People? Andy Andrews, 2012-01-02 How do you get away with the murder of 11 million people? The answer is simple—and disturbing. You lie to them. Learn how you can become an informed, passionate citizen who demands honesty and integrity from your leaders. In this nonpartisan New York Times bestselling book, Andy Andrews emphasizes that seeking and discerning the truth is of critical importance, and that believing lies is the most dangerous thing you can do. You'll be challenged to become a more careful student of the past, seeking accurate, factual accounts of events that illuminate choices our world faces now. By considering how the Nazi German regime was able to carry out over eleven million institutional killings between 1933 and 1945, Andrews advocates for an informed population that demands honesty and integrity from its leaders and from each other. This short, thought-provoking book poses questions like: What happens to a society in which truth is absent? How are we supposed to tell the difference between the “good guys and the “bad guys”? How does the answer to this question affect our country, families, faith, and values? Does it matter that millions of ordinary citizens aren't participating in the decisions that shape the future of our country? Which is more dangerous: politicians with ill intent, or the too-trusting population that allows such

people to lead them? This is a wake-up call: we must become informed, passionate citizens or suffer the consequences of our own ignorance and apathy. We can no longer measure a leader's worth by the yardsticks provided by the left or the right. Instead, we must use an unchanging standard: the pure, unvarnished truth.

The Last Bogler Catherine Jinks, 2016-01-05 The hunt is on for child-eating monsters in Victorian England in the "wonderfully crafted fantasy series" (School Library Journal).
