Crime City Joseph O'Neill,2008-03-20 Historian Joseph O'Neill has recreated the sights, sounds and smells of a lost milieu in all its fascinating detail. Here are true stories of the legendary detective Jerome Caminada, the super-criminal Charlie Peace, street gangs like the Bengal Tigers and myriad characters like One-Armed Dick, the infamous fence, set in the gin palaces, dance halls and cheap brothels that were as much a part of Manchester as the giant cotton mills. O'Neill is a longstanding contributor to historical publications and to *True Detective*, *True Murder* and *Master Detective*.

American Iron Magazine Presents 1001 Harley-Davidson Facts Tyler

Greenblatt,2017-02-15 When anyone thinks of motorcycling, whether they are enthusiasts or only casually interested, the name Harley-Davidson immediately comes to mind. Harley-Davidson is among the oldest surviving motorcycle manufacturers; the company began in 1903 and continues to this day. As you can imagine, over the course of more than 100 years, the company has seen prosperous times as well as lean times, changes in focus and direction, evolution and revolution. All of that leads to a lot of company history and trivia. American Iron Magazine associate editor Tyler Greenblatt has compiled 1,001 Harley-Davidson facts into this single volume, with subjects ranging from the historic powertrains to pop culture to Harley-Davidson as a company and manufacturer. Facts begin with the early years, when a motorcycle was not much more than a bicycle with an engine attached, to the war efforts of World War I, when 15,000 were put into service. During the 1920s, Harley-Davidson grew into the largest manufacturer in the world, and that momentum helped carry it through the Great Depression and into World War II. Postwar development and AMF ownership are also covered in detail, as well as the restructuring and revival of the brand in recent years. Whether you're a casual rider, racer, or restorer,

Harley-Davidson enthusiasts will be sure to find something in this book for that next conversation with fellow hobbyists. This book will keep Harley-Davidson enthusiasts entertained for hours, and is a great edition to any motorcycling library. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial}

Handbook of Crime Correlates Lee Ellis, Kevin M. Beaver, John Wright, 2009-05-07 Over the past two centuries, many aspects of criminal behavior have been investigated. Finding this information and making sense of it all is difficult when many studies would appear to offer contradictory findings. The Handbook of Crime Correlates collects in one source the summary analysis of crime research worldwide. It provides over 400 tables that divide crime research into nine broad categories: Pervasiveness and intra-offending relationships Demographic factors Ecological and macroeconomic factors Family and peer factors Institutional factors Behavioral and personality factors Cognitive factors Biological factors Crime victimization and fear of crime Within these broad categories, tables identify regions of the world and how separate variables are or are not positively or negatively associated with criminal behavior. Criminal behavior is broken down into separate offending categories of violent crime, property crime, drug offenses, sex offenses, delinquency, general and adult offenses, and recidivism. Accompanying each table is a description of what each table indicates in terms of the positive or negative association of specific variables with specific types of crime by region. This book should serve as a valuable resource for criminal justice personnel and academics in the social and life sciences interested in criminal behavior.

Deadly Vengeance Travis Jerome, 2013-05 Deadly Vengeance is an epic story of how one man's vengeance turned deadly. Four jewelry thieves robbed his jewelry store for more than ten million dollars' worth of jewelry and unwittingly stumbled on a valuable piece of jewelry that could ruin the lives of a few, leaving employed men seeking their whereabouts and many dead, with one up on the game the Federal Bureau of Investigation. Despite the men of law enforcement that seek to unravel the sophistication of the crime, the two main orchestrators of previous and following crimes, RL and Mayshach, seek their own vengeance: to take Wilson, the prominent owner of the jewelry store, for a substantial share of the empire he's acquired through selling mass amounts of drugs. Their vengeance is deadly.

The Oxford Handbook of Environmental Criminology Gerben J.N. Bruinsma, Shane D. Johnson, 2018-02-08 The study of how the environment, local geography, and physical locations influence crime has a long history that stretches across many research traditions. These include the neighborhood effects approach developed in the 1920s, the criminology of place, and a newer approach that attends to the perception of crime in communities. Aided by new technologies and improved data-reporting in recent decades, research in environmental criminology has developed rapidly within each of these approaches. Yet research in the subfield remains fragmented and competing theories are rarely examined together. The Oxford Handbook of Environmental Criminology takes a unique approach and synthesizes the contributions of existing methods to better integrate the subfield as a whole. Gerben J.N. Bruinsma and Shane D. Johnson have assembled a cast of top scholars to provide an in-depth source for understanding how and why physical setting can influence the emergence of crime, affect the environment, and impact individual or group behavior. The contributors address how changes in the environment, global connectivity, and technology provide more criminal opportunities and new ways of committing old crimes. They also explore how crimes committed in countries with distinct cultural practices like China and West Africa might lead to different spatial patterns of

crime. This is a state-of-the-art compendium on environmental criminology that reflects the diverse research and theory developed across the western world.

Gordon Parks: the Atmosphere of Crime 1957 Sarah Meister, 2020-03-31 Gordon Parks' ethically complex depictions of crime in New York, Chicago, San Francisco and Los Angeles, with previously unseen photographs When Life magazine asked Gordon Parks to illustrate a recurring series of articles on crime in the United States in 1957, he had already been a staff photographer for nearly a decade, the first African American to hold this position. Parks embarked on a six-week journey that took him and a reporter to the streets of New York, Chicago, San Francisco and Los Angeles. Unlike much of his prior work, the images made were in color. The resulting eight-page photo-essay *The Atmosphere of Crime* was noteworthy not only for its bold aesthetic sophistication, but also for how it challenged stereotypes about criminality then pervasive in the mainstream media. They provided a richly hued, cinematic portrayal of a largely hidden world: that of violence, police work and incarceration, seen with empathy and candor. Parks rejected clichés of delinquency, drug use and corruption, opting for a more nuanced view that reflected the social and economic factors tied to criminal behavior and afforded a rare window into the working lives of those charged with preventing and prosecuting it. Transcending the romanticism of the gangster film, the suspense of the crime caper and the racially biased depictions of criminality then prevalent in American popular culture, Parks coaxed his camera to record reality so vividly and compellingly that it would allow Life's readers to see the complexity of these chronically oversimplified situations. *The Atmosphere of Crime, 1957* includes an expansive selection of never-before-published photographs from Parks' original reportage. Gordon Parks was born into poverty and segregation in Fort Scott, Kansas, in 1912. An itinerant laborer, he worked as a brothel pianist and railcar porter, among other jobs, before buying a camera at a pawnshop, training himself and becoming a photographer. He evolved into a modern-day Renaissance man, finding success as a film director, writer and composer. The first African-American director to helm a major motion picture, he helped launch the blaxploitation genre with his film *Shaft* (1971). Parks died in 2006.

Classics in Environmental Criminology Martin A. Andresen, Paul J. Brantingham, J. Bryan Kinney, 2010-05-25 A careful analysis of environmental factors is key to understanding the causes of crime, to solving crimes, and eventually helping to predict and prevent them. *Classics in Environmental Criminology* is a comprehensive collection of seminal pieces from legendary contributors who focus on the role that the immediate environment plays in the occurrence

The Civilization of Crime Eric Arthur Johnson, Eric H. Monkkonen, 1996 Along with most of the rest of Western culture, has crime itself become more civilized? This book exposes as myths the beliefs that society has become more violent than it has been in the past and that violence is more likely to occur in cities than in rural areas. The product of years of study by scholars from North America and Europe, *The Civilization of Crime* shows that, however violent some large cities may be now, both rural and urban communities in Sweden, Holland, England, and other countries were far more violent during the late Middle Ages than any cities are today. Contributors show that the dramatic change is due, in part, to the fact that violence was often tolerated or even accepted as a form of dispute settlement in village-dominated premodern society. Interpersonal violence declined in the seventeenth and eighteenth centuries, as dispute resolution was taken over by courts and other state institutions and the church became increasingly intolerant of it. The book also challenges a number of other historical-sociological theories, among them that contemporary organized crime is new, and addresses continuing debate about the meaning and usefulness of crime statistics.
