

Croacs

Nerea Lorenzo

Impresiones a Colores Xelhua Rode, 2012-08 Impresiones a Colores son una serie de relatos que compendian veinte años de la vida del autor y que, mediante la secuencia no cronológica expone las realidades sociales y culturales que se concretan en la comunidad mexicana; el autor hace un recorrido atrevido expresando con libertad poética, las sensaciones que le transcurren; en algunos momentos se declara dadaísta y surrealista. Como Tzara balbucea los sonidos en el intento de la experiencia cero o Kandinsky se pierde en el caballete. La vida cotidiana le permite al autor inventarse y recrear mediante ejercicios de narrativa, de versificación, destacar los problemas sociales y la importancia de la vida en familia. El libro intenta acercarse al lector en un viaje sincrético, volátil y sensacional que le permiten al autor construir un enfoque de vida diaria grandemente enriquecido por la cotidianidad, el amor a su familia y a su única hija, -que estuvo a punto de perder- hacen un vuelco fundamental que describe las Líneas de Tiempo y su entorno vital. Es una obra provocadora que más allá de la exposición de personajes y aventuras relatadas, desencadena quizá al análisis posterior de la realidad, oponerse al positivismo todavía vigente en algunos contextos.

Le sang de la liberté Marcel Guenot, Guillaume Moingeon, 2005 Carnet de guerre tenu par un caporal fourrier pendant la Première Guerre mondiale. Il raconte les combats auxquels il a participé (Verdun, Chemin des Dames, etc.) et témoigne du quotidien des soldats sur le front et dans les tranchées.

Interstitial Alloys Harvey J. Goldschmid, 2013-12-11

Poetic Rhythm Reuven Tsur, 2012 This research is an instrumental investigation of a theory of rhythmical performance of poetry, originally

propounded speculatively in author Reuven Tsur's A Perception-Oriented Theory of Metre (1977). Iambic pentameter means that there is a verse unit consisting of an unstressed and a stressed syllable (in this order), and that the verse line consists of five such units. In the first 165 verse lines of Paradise Lost, there are two such lines. The theory takes up one of the central issues in metrical studies: all criteria for metricality hitherto proposed have been violated by the greatest masters of musicality in English poetry. The question arises, how do we recognize two verse lines that are very different in their structures as instances of the same abstract pattern of, e.g., iambic pentameter, and how do we distinguish a metrical from an unmetrical line? One great difference between this theory of meter and others concerns the status of deviation. Most theoreticians deploy a battery of tools to make deviant stress patterns conform with metric pattern. Only when all attempts fail do they speak of tension. When they succeed, they blur the distinction between, for example, Milton's and Pope's metrical styles. Or else, they have formulated different rules of metricality for Shakespeare and Milton. This theory assumes that when the versification patterns and linguistic patterns conflict, they can be accommodated in a pattern of Rhythmical Performance - namely, one in which the conflicting patterns are simultaneously perceptible. There are scales of mounting difficulties of mismatches, on which each poet (and each theorist) draws at different points the boundary of what is acceptable. Reuven Tsur's revised and expanded second edition (original publication, Peter Lang, 1986) is essential reading for all scholars and students involved in versification and Cognitive Poetics.

Asymptotic Time Decay in Quantum Physics Domingos H U Marchetti, Walter F Wreszinski, 2012-11-16 Time decays form the basis of a multitude of important and interesting phenomena in quantum physics that range from spectral properties, resonances, return and approach to equilibrium, to quantum mixing, dynamical stability properties and irreversibility and the “arrow of time”. This monograph is devoted to a clear and precise, yet pedagogical account of the associated concepts and methods. Contents: Introduction: A Summary of Mathematical and Physical Background for One-Particle Quantum Mechanics Spreading and Asymptotic Decay of Free Wave Packets: The Method of Stationary Phase and van der Corput's Approach The Relation Between Time-Like Decay and Spectral Properties Time Decay for a Class of Models with Sparse Potentials Resonances and Quasi-exponential Decay Aspects of the Connection Between Quantum Mechanics and Classical Mechanics: Quantum Systems with Infinite Number of Degrees of Freedom Readership: Students and researchers in mathematical physics or quantum theory. Keywords: Quantum Physics; Dynamics; Decay and Exponential Decay; Return Probability; Correlation Functions; Mixing; Stability; Irreversibility; Arrow of Time Key Features: The book concentrates on exotic spectra which have not been treated in the classic references Systems with infinite number of degrees of freedom are analyzed with existing soluble models for the approach to equilibrium, and elaborated on the important property of mixing, as well as on the problem of irreversibility and the “arrow of time” This book is the first treatment of

the mentioned topics in comprehensive (textbook) form

Las almas juzgadas Miklós Bánffy,2010-02-08 Las almas juzgadas retoma la historia de los dos primos transilvanos que protagonizaban Los días contados. Un año después, en 1906, las vidas de los condes Bálint Abády y László Gyerffy transcurren paralelas al destino político de su país: Bálint Abády se ha visto forzado a abandonar a la bella e infeliz Adrienne Miloth, mientras que su primo László Gyerffy persevera en su empeño autodestructivo. Entretanto, los políticos húngaros continúan con sus luchas partidistas despreciando las necesidades reales de sus conciudadanos. Obstinados en su pugna contra la soberanía vienesa y en mantener sus privilegios, los políticos y aristócratas húngaros serán incapaces de ver cómo las grandes potencias se están acercando peligrosamente a una conflagración que más tarde desembocará en la primera guerra mundial y terminará con el mundo tal como lo han conocido. Las almas juzgadas es la segunda novela de la Trilogía transilvana que Miklós Bánffy publicó entre 1934 y 1940, y está considerada como una de las obras más importantes de la narrativa centroeuropea de la primera mitad del siglo XX. Prohibida durante más de cuarenta años por los regímenes comunistas, desde su reciente recuperación no ha dejado de cautivar a lectores de todo el mundo.

some of the most talked about territories of Colombia.

AmárRamé Nerea Lorenzo, 2019-05-13 El conocimiento no exime del sentimiento. Y es que puedes saberte la teoría, pero no saberlo llevar a la práctica. Una vez leí que lo peor no es la oscuridad, sino saber dónde está el interruptor y no tener el valor de pulsarlo. Esto no es un poemario cualquiera. Es una ventana abierta a mi corazón, a mi alma. En sus páginas derramo sangre; sudor y lágrimas, de tristeza y alegría. Hablo sin tapujos de sentimientos y pensamientos a los que me enfrento, a los que nos enfrentamos, a los que escondemos por miedo o vergüenza. Una montaña rusa de sensaciones. Esta es mi historia, mi oscuridad, mi interruptor, y mi lucha por encender la luz. Disfruten la visita por mi caja de Pandora. AmárRamé no es un poemario cualquiera. Es una ventana abierta al corazón y al alma de una joven que derrama sobre sus páginas sangre, sudor y lágrimas; de tristeza y alegría. En él habla sin tapujos de sentimientos y pensamientos a los que se enfrenta, a los que todos nos enfrentamos alguna vez en mayor o menos medida y de los que nos escondemos, por miedo o vergüenza. Verso a verso, Nerea Lorenzo documenta su espiral autodestructiva en las garras de la anorexia, el punto de inflexión que supuso su internamiento hospitalario y su valiente lucha de vuelta a la vida. Su reto: visibilizar un trastorno estigmatizado que afecta a un 5% de la población adolescente, y ayudar a otros jóvenes a sentir que es posible superarlo, que no están solos y que son mucho más fuertes de lo que creen.

Perla 2 - Perla y la muñeca triste Wendy Harmer, Mike Zarb, 2014-07-24
¡Disfruta y diviértete con Perla, el hada del parque, mientras ayuda a una muñeca perdida! Perla, el hada del parque, vive mágicas aventuras en un montón de lugares distintos. ¿A qué esperas para conocerla? Un anochecer, el

hada Perla encuentra una muñeca abandonada bajo una planta. La muñeca está muy triste porque ha perdido a su dueña. ¿Qué puede hacer Perla? ¡Organizar un concierto brillante y glorioso, eso es! ¡Y todos los animales del parque podrán participar en él! Libros ideales para primeros lectores -Con letra grande para una lectura fácil y amena -Con divertidas y detalladas ilustraciones que acompañan al texto -Con historias mágicas que enganchan a niñas y niños -Con un tamaño perfecto para manejar y para llevar a cualquier parte «Toda la colección es amena y divertida. Las ilustraciones son preciosas, a los niños les encanta.» «Divertidas historias que enganchan a los pequeños lectores, dibujos preciosos y letra grande para principiantes en la lectura.» «Libros muy adecuados para iniciarse en la lectura.» «Los dibujos están llenos de detalles que hacen la estética muy chula.»

Voyage en Orient: Les femmes du Caire. Druses et Maronites Gérard de Nerval, 1867

Images Man'ha Garreau-Dombasle, 1987-01-01T00:00:00+01:00 Ces poèmes, écrits par ma grand-mère au cours de sa toute jeunesse, je les ai découverts alors qu'elle les avait oubliés, et je les ai aimés ! Quand je vécus auprès d'elle, elle avait parcouru le monde et me le racontait : elle était née poète et l'est restée. Ce recueil, simplement intitulé « Images », nous rend un temps - disparu semble-t-il - où l'on avait davantage celui de vivre en résonance avec la nature, de transposer ses signes, de rêver avec elle et en elle... Aux éblouissements de ses heureux éveils, se mêlent les ombres des tristes saisons et celles projetées par l'aile mystérieuse de la mort planant toujours sur notre monde. Je souhaite que le lecteur de ces chants puisse, comme moi, les aimer en tant que reflets des enchantements et de la magie de l'univers.
