Pero Maldini,Davor Paukovi?

Croatia and the European Union Pero Maldini, Davor Pauković, 2016-03-09 The accession of Croatia to the EU marked the end of a long and arduous period of transition. Croatia had to meet significantly higher criteria than previous states with suspicion and concerns among existing members about further enlargement increasing. Meanwhile initially strong public support in Croatia declined as inconsistencies in EU policy, entry criteria and problems caused by the economic crisis all combined with fears about the loss of national identity and the ability to realize national interests. The successful Croatian accession to the EU in 2013 shows that, despite concerns on both sides, the EU continues to have meaning and significance and that membership remains highly desirable. Through nine mutually interrelated chapters the contributors speak not only about the political and social situation in Croatia, but also prospects for the European Union itself.

THE CROATIAN ORTHODOX CHURCH Was, Is, And Shall Be Croatian Archbishop Alexander, 2019-12-03 For over a century, facts have been silenced, documents and historical monuments falsified, and whole parts of history fabricated, with the aim of creating a glorious Serbo-Yugoslav history, and to demean Croatian history and freedom of thought. The falsifiers made every effort to break the unity of the Croatian people, and thus imposed a model whereby all Orthodox Christians were Serbs. The deepest hidden secret in modern-day democratic Croatia is that the Orthodox faith and Orthodox Church of the Croatian people did indeed exist. This book disproves the accumulated lies, points to facts and historical truth and allows for a better understanding of the historic course of the restoration of the Croatian Orthodox Church. On December 1, 2013, Patriarch Nicolas signed a Tomos granting autocephaly to the Croatian Orthodox Church. This book provides readers with answers to why the Croatian Orthodox Church is unlawfully being prevented registration in the Republic of Croatia.

Competition Law in Croatia Jasminka Pecotić Kaufman, Vlatka Butorac Malnar, Dubravka Akšamović, 2022-10-20 Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of competition law and its interpretation in Croatia covers every aspect of the subject – the various forms of restrictive agreements and abuse of dominance prohibited by law and the rules on merger control; tests of illegality; filing obligations; administrative investigation and enforcement procedures; civil remedies and criminal penalties; and raising challenges to

administrative decisions. Lawyers who handle transnational commercial transactions will appreciate the explanation of fundamental differences in procedure from one legal system to another, as well as the international aspects of competition law. Throughout the book, the treatment emphasizes enforcement, with relevant cases analysed where appropriate. An informative introductory chapter provides detailed information on the economic, legal, and historical background, including national and international sources, scope of application, an overview of substantive provisions and main notions, and a comprehensive description of the enforcement system including private enforcement. The book proceeds to a detailed analysis of substantive prohibitions, including cartels and other horizontal agreements, vertical restraints, the various types of abusive conduct by the dominant firms and the appraisal of concentrations, and then goes on to the administrative enforcement of competition law, with a focus on the antitrust authorities' powers of investigation and the right of defence of suspected companies. This part also covers voluntary merger notifications and clearance decisions, as well as a description of the judicial review of administrative decisions. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for business and legal professionals alike. Lawyers representing parties with interests in Croatia will welcome this very useful guide, and academics and researchers will appreciate its value in the study of international and comparative competition law.

The Border Dispute Between Croatia and Slovenia Thomas Bickl, 2020-10-01 This book re-constructs the evolution of the border conflict between Croatia and Slovenia. The aim is to reveal the processes at work, the historical and contemporary circumstances, and the strategies and motives of the actors involved. The book highlights the roles of the European Union and of judicial third parties in the management of the conflict. Further, it considers the precedent-setting value of the Slovenian-Croatian conflict, the attempts at its resolution, and what they mean for the ongoing and prospective EU enlargement in South East Europe. Internal documents and interviews are at the heart of this process-tracing analysis, which discusses the third-party roles of the European Commission and the EU Council Presidency in 2008/2009 as a mediator-facilitator in the drafting stages of the arbitration agreement, and the judicial work of the arbitration tribunal and the EU Court of Justice. Lastly, the book offers policy recommendations on how to strengthen dispute resolution and solve current bilateral issues in the EU accession process.

Understanding Croatia Božo Skoko, 2018-11 Božo Skoko has written a book that only a Croat could write, but one that everyone interested in Croatia today should read. He is searingly honest, while determinedly fair-minded, about what is right and wrong in this young state with such unfulfilled potential. He describes what is unique, and often maliciously distorted, in Croatia's historic identity.

He examines what is self-destructive and difficult, though also lovable and admirable, in the outlook of its people. Not least, he exposes what is deplorable and inexcusable about the failure of the governing elite to live up to their responsibilities. I hope it may make some of them lose sleep, but I wouldn't bet on it. Robin Harris, author and historian

Policy-Making at the European Periphery Zdravko Petak, Kristijan Kotarski, 2018-05-30 This book examines Croatia's economic and political transformation over the last 30 years. It brings together the best political scientists, macroeconomists and public finance experts from Croatia to provide an in-depth analysis of the Croatian policy-making context and the impact of Europeanization upon its domestic institutional framework. The second part of the book scrutinizes the political economy context and Croatia's long-term macroeconomic under-performance, especially in comparison to other transition economies. The final part explores sectoral public policies, including cohesion policy, education, health, pensions, and local government. The book offers a unique blend of Croatia's political economy framework and public policy analysis.

States, the Law and Access to Refugee Protection Maria O'Sullivan, Dallah Stevens, 2017-03-23 This timely volume seeks to examine two of the most pertinent current challenges faced by asylum seekers in gaining access to international refugee protection: first, the obstacles to physical access to territory and, second, the barriers to accessing a quality asylum procedure – which the editors have termed 'access to justice'. To address these aims, the book brings together leading commentators from a range of backgrounds, including law, sociology and political science. It also includes contributions from NGO practitioners. This allows the collection to offer interdisciplinary analysis and to incorporate both theoretical and practical perspectives on questions of immense contemporary significance. While the examination offers a strong focus on European legal and policy developments, the book also addresses the issues in different regions (Europe, North America, the Middle East, Africa and Australia). Given the currency of the questions under debate, this book will be essential reading for all scholars in the field of asylum law.

Croatia: Monitoring the Accession Process Great Britain: Parliament: House of Commons: European Scrutiny Committee, 2012-10-26

The Ultras Mark Doidge, Martin Lieser, 2020-12-17 Over the last 50 years, the ultras have become the most widespread, outspoken and spectacular form of football fandom across the globe. Whilst the ultras phenomenon began in Italy, then spread across Southern Europe into Northern Europe, it is now the dominant style of fandom in North Africa, South East Asia and East Asia and is spreading into North America and Australia. This spectacular style of fandom has been spread through global media, social media and increased travel, where fans can view, engage and interact with a range of fans from across the globe and bring various local dimensions to their fandom. This volume brings together a range of articles about the ultras' style of football fandom. It is designed to be an introduction: a first account of ultras for the uninitiated. What follows are analyses and accounts of ultras in Italy, France, Germany, Poland, Turkey, Israel, North America, Australia, Indonesia and Croatia. Not only does this volume demonstrate the prevalence of the ultras' style of fandom across the globe, it shows how football becomes an important cultural arena to see the intersections of globalization and localism. This book was originally published as a special issue of *Sport in Society*.

Research Handbook on EU Administrative Law Carol Harlow, Päivi Leino, Giacinto della Cananea, 2017-02-24 Key chapters, written by leading experts across the field, engage with important

ongoing debates in the field of EU administrative law, focusing on areas of topical interest such as financial markets, the growing security state and problematic common asylum procedures. In doing so, they provide a summary of what we know, don't know and ought to know about EU administrative law. Examining the control functions of administrative law and the machinery for accountability, this Research Handbook eloquently challenges areas of authoritarian governance, such as the Eurozone and security state, where control and accountability are weak and tackles the seemingly insoluble question of citizen 'voice' and access to policy-making.

EU Socio-Economic Governance in Central and Eastern Europe Mario Munta, 2021-04-20
This book investigates to what extent and how the European Semester impacts on national employment policy in four EU member states of the Central and Eastern European (CEE) region. Using an original theoretical and methodological framework, and based on empirical evidence from extensive interviews with experts in the field, this book examines the relation between EU preferences, exemplified by the yearly list of country-specific recommendations, and national policy responses to EU suggestions, tracing the extent to which policy change can be attributed to the influence of the European Semester. It extracts three potential mechanisms of European Semester influence on policy change: External pressure, mutual learning and creative appropriation and identifies key contributing and inhibiting factors. The book provides several policy recommendations regarding the organisation and workings of the European Semester process. This text will be of key interest to students, academics and practitioners in European and EU politics, EU socio-economic governance, EU social policy, European integration, soft Europeanization and the Europeanization of Central and Eastern Europe.
