*War* Andrew Clapham, 2021-07-29 How relevant is the concept of war today? This book examines how notions about war continue to influence how we conceive rights and obligations in national and international law. It also considers the role international law plays in limiting what is forbidden and legitimated in times of war or armed conflict. The book highlights how, even though war has been outlawed and should be finished as an institution, states nevertheless continue to claim that they can wage necessary wars of self-defence, engage in lawful killings in war, imprison law-of-war detainees, and attack objects which are said to be part of a war-sustaining economy. The book includes an overall account of the contemporary laws of war and delves into whether states should be able to continue to claim so-called 'belligerent rights' over their enemies and those accused of breaching expectations of neutrality. A central claim in the book is as follows: while there is general agreement that war has been abolished as a legal institution for settling disputes, the time has come to admit that the belligerent rights that once accompanied states at war are no longer available. The conclusion is that claiming to be in a war or an armed conflict does not grant anyone a licence to kill people, destroy things, and acquire other people's property or territory.

**Crystals II** Antonis Anastasiadis, 2016-05-19 The Crystals series - as you may already know - will hopefully be completed in a decalogy which will start from the creation of the universe, will transcend all human civilization, will come to the present and continue into the future, summarily showing the development of human civilization. In the first book, we saw the discovery of an object with strange properties, the study and finally the 'cosmic' journey in which we observed the Big Bang, the creation of galaxies and star systems. The 2nd book refers to the creation of the solar system, the creation and structure of the earth, the appearance of life on earth and its developmental course. This whole period, which in fact was initiated about five billion years ago, is elaborated with mythological fights and dwells, fitting in reality to mythological forms as natural forces, and that is why they are named 'Supernatural'. Thus, we observe the drama of archetypal life on planet earth in the form of Supernatural Powers. The Titans with their leader, Cronos dominate the scene in the 2nd book. The structural upheavals on planet earth are presented in the form of epic battles and struggles, as well as the calamities and extinction of life but also the emergence of new life forms on earth. The 2nd Clash of the Titans brings us to about 50 million years ago with the final triumph of the Supernatural Powers in their fight against the Hypercosmic Powers followed by their slippage into the arrogance of power which will cause the 3rd Clash of the Titans. Continuing on this magic journey and keeping the White Crystal as the 'vehicle' of our transport, the reader of this and the other books in the series will observe the development of the human civilization from the creation of the universe to this day, through the use of myth, allegory and real events and scientific knowledge. The following 10 books will follow with the following proposed titles: 1st Battle of the Titans: Clash between Vacuum and the Hypercosmic (Creation) 2nd Battle of the Titans: Clash between Hypercosmic and the Supernatural (Celestial Battle) 3rd Battle of the Titans: Clash between Natural and the Supernatural (Zeus-Cronos)

4th Battle of the Titans: Clash between Natural and the Paranormal (Battle of Giants) 5th Battle of the Titans: Clash between Natural and the Metaphysical (Prometheus) 6th Battle of the Titans: Clash between the Good and the Evil (White-Dark Crystal) 7th Battle of the Titans: Clash between the Sociopolitical and the Counter-sociopolitical (Early Civilizations) 8th Battle of the Titans: Clash between Humanism and Technocracy (Later Periods) 9th Battle of the Titans: Clash between Civilization and Barbarism (Current Times) 10th Battle of the Titans: Clash between Earthlings and Extraterrestrials (Intergalactic Travel)

**Blue Crystal in Six Days' War** Lorraine Elijah Brown, 2008-01 Blue Crystal in Six Days is science fiction. It starts with the weather. After a hurricane, in contaminated water, a blue substance is forming. As a result, there are panic attacks, suicides, and lack of faith. Readers will find themselves living in the story and questioning how to destroy the blue crystals in six days. When blue crystal eyes sparkle like diamonds as when bones of lightning and voices of thunder come; when the winds are controlling and influencing nature and the full black moon enters the sun in total darkness. Soon the world is heavenly covered with blue crystals. The greatest temptation known to staff brightens the world from the light of the ground. The story reaches its turning point, and people go into hiding, praying and avoiding a lustful nature. The outcome remains.

**The Letters of Major General Price Davies VC, CB, CMG, DSO** Peter Robinson, 2013-01-01 The new series of Spellmount Military Memoirs provides rare and sought-after texts for the collector of classic historical works, together with rigorously selected personal narratives never before in print – destined to become classics in their own right. Llewelyn Alberic Emilius Price-Davies was awarded the Victoria Cross when serving with the King's Royal Rifle Corps during the Second Boer War. He went on to serve as Divisional Corps liaison officer in 1914-15, his correspondence offers a rare insight into the changing face of the British Army at this time. In 1916 he took over the 113th Brigade, in a New Army Division 38th (Welsh). The first major test was on the Somme at Mametz Wood, where the divisional commander was sacked. He describes this famous fight and eventual capture of the wood in dramatic detail. Once again in the thick of the fighting at Pilckem Ridge in 1917 on the first day of Third Ypres, his letters show the importance of this battle's success. In 1918 he travelled to Italy, where his diaries reveal for the first time how the Allied Command functioned in this theatre. His constant correspondence with his brother-in-law Henry Wilson, the C.I.G.S., is a unique insight into British Army High Command and this legendary Field Marshal. This rare collection of letters offers a broad and detailed insight into the First World War that will fascinate any enthusiast.

Out of the Crystal Maze Lillian Hoddeson, 1992 Focuses on the field of solid-state physics - also referred to as condensed matter physics - which grew to maturity between 1920 and 1960. The history of some exciting developments is told here in an easy-to-follow text, accessible to general readers, while maintaining standards of high

scholarship.

**The Legitimate Use of Military Force** Howard M. Hensel,2016-03-03 Throughout human history, scholars, statesmen and military leaders have attempted to define what constitutes the legitimate use of armed force by one community against another. Moreover, if force is to be used, what normative guidelines should govern the conduct of warfare? Based upon the assumption that armed conflict is a human enterprise and therefore subject to human limitations, the Western 'just war tradition' represents an attempt to provide these guidelines. Following on from the success of Hensel's earlier publication, *The Law of Armed Conflict*, this volume brings together an internationally recognized team of scholars to explore the philosophical and societal foundations of just war tradition. It relates the principles of jus ad bellum to contemporary issues confronting the global community and explores the relationship between the principles of jus in bello and the various principles embodied in the customary law of armed conflict. Applying an interdisciplinary approach to analyzing and assessing the links between just war and the norms of behaviour, the book provides a valuable contribution to international law, international relations and national security studies.
