Elana Freeland

Under an Ionized Sky Elana Freeland,2018-02-13 It is difficult to believe that our planet has been weaponized before our very eyes, but that is exactly what has happened. First, we were seduced by the convenience of a wireless world; then, atmospheric weather experimentation in the guise of carbons “climate change” converted the air we breathe into an antenna. Now, the geo-engineering we’ve been subjected to for two decades is being normalized as the “Star Wars” Space Fence rises around and within us. Is this the Space Age we were promised?

Chemtrails, HAARP, and the Full Spectrum Dominance of Planet Earth Elana Freeland,2014-05-26 We are entering a Space Age, but not the kind President Kennedy originally envisioned. This Space Age is replacing resource wars and redefines planet earth as a battlespace in accordance with the military doctrine of Full-Spectrum Dominance. This book examines how chemtrails and ionispheric heaters like the High-frequency Active Auroral Research Project (HAARP) in Alaska services a full-spectrum dominance. This Revolution in Military Affairs needs an atmospheric medium to assure wireless access to the bodies and brains of anyone on Earth—from heat-seeking missiles to a form of mind control. How sinister are these technologies? Are we being prepared for a global village lockdown? The recent release of NSA records have reminded Americans that eyes in the sky are tracking us as supercomputers record the phone calls, e-mails, internet posts, and even the brain frequencies of millions. Elana M. Freeland's startling book sifts through the confusion surrounding chemtrails-versus-contrails and how extreme weather is being geo-engineered to enrich disaster capitalists and intimidate nations. A deconstruction of Bernard J. Eastlund's HAARP patent points to other covert agendas, such as a global Smart Grid infrastructure that enables access to every body and brain on Earth, a Transhumanist future that erases lines between human and machine, and Nanobiological hybrids armed with microprocessors that infest and harm human bodies.

The Influencing Machine Mike Jay,2012-03 London in the 1790s, Europe is in turmoil and war with France is looming. James Matthews, an Welsh tea merchant and anti war advocate who holds covert meeting with both the English and the French leaders. But Matthews believes that his mind is being controlled by revolutionary terrorists and a secret machine called the Air Loom. He is promptly declared mad and send to Bedlam. Here his delusions are celebrated as the most complex and bizarre ever recorded and strangely many of the incredible events he claims to have been involved in are entirely true.
