*Model Rules of Professional Conduct* American Bar Association. House of Delegates,Center for Professional Responsibility (American Bar Association),2007  
The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

**Bob Steele on the Radio** Paul Hensler,2019-08-23 For more than sixty years, Bob Steele was the radio voice of Southern New England, entertaining listeners of WTIC AM with his wit and humor and an inimitable style that kept listeners faithfully tuning in to his morning show. Capturing the nation's highest market share, the National Radio Hall of Fame inductee maintained an unparalleled popularity through the latter half of the twentieth century. This first ever biography of Bob Steele details both the home life and the award-winning broadcasting career of this Connecticut media legend, from his humble Midwestern roots to the pinnacle of radio fame. Steele and his The Word for the Day feature remain forever embedded in the memories of his many listeners.

**The Death of the American Death Penalty** Larry Wayne Koch,Colin Wark,John F. Galliher,2012 The death penalty has largely disappeared as a national legislative issue and the Supreme Court has mainly bowed out, leaving the states at the cutting edge of abolition politics. This essential guide presents and explains the changing political and cultural challenges to capital punishment at the state level. As with their previous volume, *America Without the Death Penalty* (Northeastern, 2002), the authors of this completely new volume concentrate on the local and regional relationships between death penalty abolition and numerous empirical factors, such as economic conditions; public sentiment; the roles of social, political, and economic elites; the mass media; and population diversity. They highlight the recent abolition of the practice in New York, New Jersey, New Mexico, and Illinois; the near misses in New Hampshire, Connecticut, Maryland, and Nebraska; the Kansas rollercoaster rides; and the surprising recent decline of the death penalty even in the deep South. Abolition of the death penalty in the United States is a piecemeal process, with one state after another peeling off from the pack until none is left and the tragic institution finally is no more. This book tells you how, and why, that will likely happen.
