The Best of World SF Lavie Tidhar, 2021-04-01 Twenty-six new short stories representing the state of the art in international science fiction. 'Rare and wonderful' The Times 'The most important anthology of SF short fiction since *Dangerous Visions*' Adam Roberts 'Fizzes with great ideas and wonderful writing... Now this book exists, it feels absurd it didn't exist sooner' SFX The future is coming. It knows no bounds, and neither should science fiction. They say the more things change the more they stay the same. But over the last hundred years, science fiction has changed. Vibrant new generations of writers have sprung up across the globe, proving the old adage false. From Ghana to India, from Mexico to France, from Singapore to Cuba, they draw on their unique backgrounds and culture, changing the face of the genre one story at a time. Prepare yourself for a journey through the wildest reaches of the imagination, to visions of Earth as it might be and the far corners of the universe. Along the way, you will meet robots and monsters, adventurers and time travellers, rogues and royalty. In *The Best of World SF*, award-winning author Lavie Tidhar acts as guide and companion to a world of stories, from never-before-seen originals to award winners, from twenty-three countries and seven languages. Because the future is coming and it belongs to us all. The First 20 Hours Josh Kaufman, 2013-06-13 Forget the 10,000 hour rule—what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In *The First 20 Hours*, Josh Kaufman offers a systematic approach to rapid skill acquisition—how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of any skill in record time . . . and have more fun along the way.

Dogs on the Trail Blair Braverman, Quince Mountain, 2021-10-26 A delightful photographic journey into a year in the life of a team of sled dogs, based on Braverman's wildly popular Twitter feed When Blair Braverman started posting pictures of her dog team on Twitter, she had no idea the response she would get. Being a musher, after all, isn't just about racing—raising dogs from puppyhood to retirement (and beyond) is a full-time job. She and her husband, musher Quince Mountain, wanted to share stories about life with their dog team. And not just the big stuff, like expeditions and wild animal encounters, but also the everyday things: the challenge of storing a thousand pounds of raw meat, scouting new trails with the dogs, the decisions that go into putting a team together, how she trains puppies to be brave. These were goofy stories, scary stories, heartfelt stories, stories that clearly connected with people and kept going viral. Inspired by those connections, **Dogs on the Trail** is a chronicle of a year in the life of their dog team. Beginning in the fall as the weather starts to cool, training on both dry land and in the snow, then camping and racing. Spring brings mud-lousy for sledding, but the dogs love it. And summer is the season of puppies. The book ends on a beginning, in anticipation of the adventurous lives that the new pups have in store. An irresistible adventure, **Dogs on the Trail** will delight and entertain while taking you inside a musher's world, and showing you why the wilderness isn't simply a place to visit but also a home to return to.
