Columbine Dave Cullen,2009-04-06 Ten years in the works, a masterpiece of reportage, this is the definitive account of the Columbine massacre, its aftermath, and its significance, from the acclaimed journalist who followed the story from the outset. The tragedies keep coming. As we reel from the latest horror . . . So begins a new epilogue, illustrating how Columbine became the template for nearly two decades of spectacle murders. It is a false script, seized upon by a generation of new killers. In the wake of Newtown, Aurora, and Virginia Tech, the imperative to understand the crime that sparked this plague grows more urgent every year. What really happened April 20, 1999? The horror left an indelible stamp on the American psyche, but most of what we know is wrong. It wasn't about jocks, Goths, or the Trench Coat Mafia. Dave Cullen was one of the first reporters on scene, and spent ten years on this book-widely recognized as the definitive account. With a keen investigative eye and psychological acumen, he draws on mountains of evidence, insight from the world's leading forensic psychologists, and the killers' own words and drawings-several reproduced in a new appendix. Cullen paints raw portraits of two polar opposite killers. They contrast starkly with the flashes of resilience and redemption among the survivors. Expanded with a New Epilogue

Managing Financial Resources Michael Broadbent,John Cullen,2003 Managing Financial Resources addresses the complicated issues of financial planning and control. These include performance measures and cost analysis, methods of improving profitability and techniques of financial monitoring and control. Real examples and case studies are used throughout to illustrate points in a practical context. All chapters have been updated and new material has been added to extend the original text in areas such as public sector management issues, audit commission, capital investment decisions, stakeholder analysis for published reports and accounts, performance measurement, outsourcing, new developments in the public sector and transfer pricing. This book is based on the Management Charter Initiative's Occupational Standards for Management NVQs and SVQs at level 4. It is particularly suitable for managers on the Diploma in Management or part 1 of the Postgraduate Diploma, especially those accredited by the Chartered Management Institute and Edexcel but this also a useful text for practicing managers and those individuals studying for a MBA. Fully revised and updated and includes new material on areas such as public sector management issues, audit commission, shareholder value analysis and intellectual property Focuses on finance for the non-financial manager Follows the learning outcomes of the syllabus for the Chartered Management Institute

Parenting Matters National Academies of Sciences, Engineering, and Medicine,Division of Behavioral and Social Sciences and Education,Board on Children, Youth, and Families,Committee on Supporting the Parents of Young Children,2016-11-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well- being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.
