Cross-Cultural Connections Duane Elmer, 2009-08-20 With the new realities of global interconnectedness comes a greater awareness of cultural diversity from place to place. Besides differences in food and fashion, we face significant contrasts of cultural orientation and patterns of thinking. As we travel across cultures, what should we expect? How do we deal with culture shock? And can we truly connect with those we meet? Experienced cross-cultural specialist Duane Elmer provides a compass for navigating through different cultures. He shows us how to avoid pitfalls and cultural faux pas, as well as how to make the most of opportunities to build cross-cultural relationships. Filled with real-life illustrations and practical exercises, this guide offers the tools needed to reduce apprehension, communicate effectively, and establish genuine trust and acceptance. Above all, Elmer demonstrates how we can avoid being cultural imperialists and instead become authentic ambassadors for Christ. Whether you are embarking on a short-term mission trip or traveling for business or pleasure, this book is both an ideal preparation and a handy companion for your journey.

French Connections Andrew N. Wegmann, Robert Englebert, 2020-11-04 French Connections examines how the movement of people, ideas, and social practices contributed to the complex processes and negotiations involved in being and becoming French in North America and the Atlantic World between the years 1600 and 1875. Engaging a wide range of topics, from religious and diplomatic performance to labor migration, racialization, and both imagined and real conceptualizations of "Frenchness" and "Frenchification," this volume argues that cultural mobility was fundamental to the development of French colonial societies and the collective identities they housed. Cases of cultural formation and dislocation in places as diverse as Quebec, the Illinois Country, Detroit, Haiti, Acadia, New England, and France itself demonstrate the broad variability of French cultural mobility that took place throughout this massive geographical space. Nevertheless, these communities shared the same cultural root in the midst of socially and politically fluid landscapes, where cultural mobility came to define, and indeed sustain, communal and individual identities in French North America and the Atlantic World. Drawing on innovative new scholarship on Louisiana and New Orleans, the editors and contributors to French Connections look to refocus the conversation surrounding French colonial interconnectivity by thinking about mobility as a constitutive condition of culture; from this perspective, separate "spheres" of French colonial culture merge to reveal a broader, more cohesive cultural world. The comprehensive scope of this collection will attract scholars of French North America, early American history, Atlantic World history, Caribbean studies, Canadian studies, and frontier studies. With essays from established, award-

winning scholars such as Brett Rushforth, Leslie Choquette, Jay Gitlin, and Christopher Hodson as well as from new, progressive thinkers such as Mairi Cowan, William Brown, Karen L. Marrero, and Robert D. Taber, *French Connections* promises to generate interest and value across an extensive and diverse range of concentrations.

Transpacific Literary and Cultural Connections Jie Lu, Martín Camps, 2020-11-11 This critical interdisciplinary volume investigates modern and contemporary Asian cultural products in the non-westernized transpacific context of Asian and Latin American intellectual and cultural connections. It focuses on the Latin American intellectual, literary, and cultural influences on Asia, which have long been overshadowed by the dominance of Europe/North America-oriented discourse and by the predominance of academic research by both Asian and western intellectuals that focuses only on the West. Moving beyond the western intellectual paradigm, the volume examines how Asian literature, films, and art interact with Latin American literature and ideas to reexamine, reconsider, and re-explore issues related to the two regions' historical traumas, cultural identities, indigenous/vernacular traditions, and peripheral global-ness. The volume argues that Asian and Latin American literary and cultural endeavors are part of these regions' broader efforts to search for the forms of modernity that best fit their unique sociohistorical and sociocultural conditions.

Cross-Cultural Connections in Crime Fictions V. Miller, H. Oakley, 2012-05-09 A collection of ten original essays forging new interdisciplinary connections between crime fiction and film, encompassing British, Swedish, American and Canadian contexts. Cultural Connections Morris J. Vogel, 1991 Illustrates the history, civilization, and social conditions of the United States via artifacts, paintings, and other objects from the collections of cultural institutions in Philadelphia and environs.

Caddo Connections Jeffrey S. Girard, Timothy K. Perttula, Mary Beth Trubitt, 2014-04-10 Drawing on the latest archaeological fieldwork, *Caddo Connections* looks at the highly dynamic cultural landscape of the Caddo Area and its complex interconnections and exchanges with surrounding regions. The authors employ a multiscalar approach to examine cultural diversity through time and across space within the Caddo Area. They explore how and why this diversity developed, consider what allowed it to stabilize during the Mississippian period, and analyze changes following contact between historic Caddo peoples and Europeans. Looking beyond individual river valleys to the broader macroregion, they also address the linkages connecting the Caddo Area with the Southeast, southern Plains, and Southwest.

Transnational Connections Ulf Hannerz, 2002-01-04 This work provides an account of culture in an age of globalization. Ulf Hannerz argues that, in an ever-more interconnected world, national understandings of culture have become insufficient. He explores the implications of boundary-crossings and long-distance cultural flows for established notions of the local, community, nation and modernity. Hannerz not only engages with theoretical debates about culture and globalization but raises issues of how we think and live today. His account of the experience of global culture encompasses a shouting match in a New York street about Salman Rushdie, a papal visit to the Maya Indians; kung-fu dancers in Nigeria and Rastafarians in Amsterdam; the nostalgia of foreign correspondents; and the surprising experiences of tourists in a world city or on a Borneo photo safari.

China's Christian Colleges Daniel Bays,Widmer,2009-02-27 China's Christian Colleges explores the cross-cultural dynamics that existed on the campuses of the Protestant Christian colleges in China during the first half of the twentieth century. Focusing on two-way cultural influences rather than on missionary efforts or Christianization, these campuses, most of which were American-supported and had a distinctly American flavor, were laboratories or incubators of mutual cultural interaction that has been very rare in modern Chinese history. In this Sino-foreign cultural territory, the collaborative educational endeavor between Westerners and Chinese created a highly unusual degree of cultural hybridity in some Americans and Chinese. The thirteen essays of the book provide concrete examples of why even today, more than a half-century after the colleges were taken over by the state, long-lasting cultural results of life in the colleges remain.

Narrative Inquiries from Fulbright Lecturers in China Shin Freedman,Pat Munday,Jeannette W. Cockroft,2019-06-07 This collection of nine Fulbright educators' narrative accounts examines how these scholars navigated their teaching responsibilities with students, time with fellow colleagues, and cultural expectations in China, ranging from experience in teaching arts and government to questions of religion, emotional literacy, and urban infrastructure. With these contributions, authors analyze their own expectations against their actual experiences in order to offer insights for scholars and students of study abroad programming. As a roadmap for negotiating China's higher education network and for taking advantage of any cross-cultural educational environment, this book highlights the type of fruitful educational programming that can come from cultural, historical, economic, and political difference.

Sport in the City Michael P. Sam,John Hughson,2013-09-13 Sport is seen as an increasingly important aspect of urban and regional planning. Related programmes have moved to the forefront of agendas for cities of the present and future. This has occurred as the barriers between so-called 'high' and 'popular' culture continue to disintegrate. Sport is now a key component within strategies for the cultural regeneration of cities and regions, a tendency with mixed outcomes - at times fostering genuinely democratic arrangements, at others pseudo-democratic arrangements, whereby political, business and cultural elites manipulate a sense of sameness and unity among their fellow citizens to smooth the path for the pursuit of what are actually vested interests. Almost any active enactment of a 'sports city of culture' risks divisiveness. Recognizing controversies, with both potentially positive and negative outcomes, this book examines sport within contexts of urban and regional regeneration, via a number of rather different case studies. Within these studies, the role of sport stadium development, franchise expansion and sports-fan (and anti-sport) activism is addressed and articulated with issues concerning, inter alia, public funding, environmental impact, urban infrastructure and citizen identity. The 'sport in the city' project commenced as a research symposium held at the University of Otago, Dunedin, New Zealand and number of the essays originate from this occasion. This book was previously published as a special issue of Sport in Society.

How Connections Heal Maureen Walker,Wendy B. Rosen,2004-04-21 From faculty and

associates of the Stone Center's Jean Baker Miller Training Institute, this practice-oriented casebook shows how relational-cultural theory (RCT) translates into therapeutic action. Richly textured chapters—all written especially for this volume—explain key concepts of RCT and demonstrate their application with diverse individuals, couples, families, and groups, as well as in institutional settings. Emphasizing that relationship is the work of therapy, case narratives illuminate both the therapist and client factors that promote or interfere with movement toward connection. Highlighted are the ways in which cultural contexts profoundly influence relationships; how growthful connection inevitably includes conflict; and how experienced therapists work on a moment-by-moment basis to engage with and counteract personal and cultural forces of disconnection.

Culturally Responsive Teaching and The Brain Zaretta Hammond, 2014-11-13 A bold, brain-based teaching approach to culturally responsive instruction To close the achievement gap, diverse classrooms need a proven framework for optimizing student engagement. Culturally responsive instruction has shown promise, but many teachers have struggled with its implementation—until now. In this book, Zaretta Hammond draws on cutting-edge neuroscience research to offer an innovative approach for designing and implementing brain-compatible culturally responsive instruction. The book includes: Information on how one's culture programs the brain to process data and affects learning relationships Ten "key moves" to build students' learner operating systems and prepare them to become independent learners Prompts for action and valuable self-reflection

Sons And Daughters Of Los David James, 2003-02-27 Los Angeles. A city that is synonymous with celebrity and mass-market culture, is also, according to David James, synonymous with social alienation and dispersal. In the communities of Los Angeles, artists, cultural institutions and activities exist in ways that are often concealed from sight, obscured by the powerful presence of Hollywood and its machinations. In this significant collection of original essays, *The Sons and Daughters of Los* reconstructs the city of Los Angeles with new cultural connections. Explored here are the communities that offer alternatives to the picture of L.A. as a conglomeration of studios and mass media. Each essay examines a particular piece of, or place in, Los Angeles cultural life: from the Beyond Baroque Poetry Foundation, the Woman's Building, to Highways, and LACE, as well as the achievements of these grassroots initiatives. Also included is critical commentary on important artists, including Harry Gamboa, Jr., and others whose work have done much to shape popular culture in L.A. The cumulative effect of reading this book is to see a very different city take shape, one whose cultural landscape is far more innovative and reflective of the diversity of the city's people than mainstream notions of it suggest. *The Sons and Daughters of Los* offers a substantive and complicated picture of the way culture plays itself out on the smallest scale—in one of the largest metropolises on earth—contributing to a richer, more textured understanding of the vibrancy of urban life and art.

The Madonna Connection Cathy Schwichtenberg, 1993 Various cultural theories (foremost among them, postmodernism) have figured in the debate over the politics of representation. These theories have tended to look at representation in the context of either audience enablement or commercial constraint; that is, do the images empower the public or inhibit it? One key area consistently overlooked has been the study of subcultural or subordinate groups that appropriate what is traditionally considered mainstream. *The Madonna Connection* is the first book to address the complexities of race, gender, and sexuality in popular culture by using the influence of a cultural heroine to advance cultural theory. Madonna's use of various media - music, concert tour, film, and video - serves as a paradigm by which the contributors study how images and symbols associated with subcultural groups (multiracial, gay and lesbian, feminist) are smuggled into the mainstream. Using a range of critical and interpretive approaches to this evolving and lively cultural phenomenon, the contributors demonstrate the importance of personalities like Madonna to issues of enablement and constraint. Are others given voice by political interventions in mass popular culture? Or is their voice co-opted to provide mere titillation and maximum profit? What might the interplay of these views suggest? These are some of the questions the contributors attempt to answer. Some celebrate Madonna's affirmation of cultural diversity. Others criticize her flagrant self-marketing strategies. And still others regard her as only a provisional challenge to the mainstream.
