Lila Black doesn't believe in matchmaking, let alone soul mates. So then why is she constantly being hassled by the Cupids Matchmaking Service? But this gilded, cherub-bedecked dating agency isn't exactly what it seems . . . and it's about to turn Lila's entire world upside down. It turns out that Cupids Matchmaking is the real deal. As in, it's run by actual cupids—who don't look at all like they do in the paintings—and they have a serious problem with Lila's "match." Because this guy shouldn't be in the system. He shouldn't have a match. And while he's irresistibly hot, he's also incredibly dangerous. Because Lila's true love match is Cupid. The original bad boy of love. And he wants her. Now Lila's once-normal teenaged world has exploded into a mythological nightmare overrun by crime-lord sirens, wrathful cupid hit men, magic arrows that cause no end of trouble, and a mischievous, not-so-angelic love god she can't seem to stop herself from falling for . . . **Dataclysm** Christian Rudder, 2014-09-09 A New York Times Bestseller An audacious, irreverent investigation of human behavior—and a first look at a revolution in the making Our personal data has been used to spy on us, hire and fire us, and sell us stuff we don't need. In Dataclysm, Christian Rudder uses it to show us who we truly are. For centuries, we've relied on polling or small-scale lab experiments to study human behavior. Today, a new approach is possible. As we live more of our lives online, researchers can finally observe us directly, in vast numbers, and without filters. Data scientists have become the new demographers. In this daring

and original book, Rudder explains how Facebook likes can predict, with surprising accuracy, a person's sexual orientation and even intelligence; how attractive women receive exponentially more interview requests; and why you must have haters to be hot. He charts the rise and fall of America's most reviled word through Google Search and examines the new dynamics of collaborative rage on Twitter. He shows how people express themselves, both privately and publicly. What is the least Asian thing you can say? Do people bathe more in Vermont or New Jersey? What do black women think about Simon & Garfunkel? (Hint: they don't think about Simon & Garfunkel.) Rudder also traces human migration over time, showing how groups of people move from certain small towns to the same big cities across the globe. And he grapples with the challenge of maintaining privacy in a world where these explorations are possible. Visually arresting and full of wit and insight, Dataclysm is a new way of seeing ourselves—a brilliant alchemy, in which math is made human and numbers become the narrative of our time.

**Optimal Cupid** Christopher McKinlay, 2014-01-25 An easy-to-implement blueprint from the mathematician who reverse-engineered OkCupid and met the woman of his dreams in 90 days. Christopher McKinlay has been featured in Wired Magazine and Good Morning America for his groundbreaking analysis of OkCupid. For the first time he's showing non-experts how to turn Internet dating on its head. This concise guide will show anyone (straight, gay, male or female) the procedure McKinlay used to meet his fiancée and how the same ideas can transform their lives and bring them from browsing to contact. One summer evening while logged into a supercomputer in Colorado waiting for a large computation, McKinlay was killing time on OkC when he was troubled by a problem: what if large groups of people responded to OkCupid's personality questionnaire in statistically similar ways? He created custom software to scrape data from the site, collecting over 6,000,000 answers to OkC's "match questions" from more than 20,000 real users. This data made clear he'd been using the site the wrong way. Based on his findings, McKinlay (a mathematics PhD), optimized his own profile. The transformation was profound. He went from showing a "match percentage" of 90% with a few hundred women in the L.A. area to showing 90% or higher with over 30,000 local women. Unsolicited messages from attractive strangers began flooding his inbox. With a foreword by Jon Finkel, McKinlay's insightful how-to will teach you how to benefit from the buried statistical patterns of online romance.

**The Headless Cupid** Zilpha Keatley Snyder, 2012-10-23 When the four Stanley children meet Amanda, their new stepsister, they're amazed to learn that she studies witchcraft. They're stunned to see her dressed in a strange costume, carrying a pet crow and surrounded by a pile of books about the supernatural. It's not long before Amanda promises to give witchcraft lessons to David, Jamie, and the twins. But that's when strange things start happening in their old house. David suspects Amanda of causing mischief, until they learn that the house really was haunted long ago. Legend has it that a ghost cut the head off of a wooden cupid on the stairway. Has the ghost returned to strike again?

**Cupidity** CAROLINE GOODE, 2012-12-11 Dating in high school is like reality TV. It can get pretty surreal. Between the strict social ladder (geeks' lockers left, jocks' to the right), and silly, pointless rules (no hand-holding, no kissing, no breathing!), high school is the single worst place to find a boyfriend. And Laura Sweeney is no exception. She hasn't had a date since...well, ever. Desperate times call for desperate measures. So Laura is calling in the big guns. She needs guidance. A proven get the guy strategy. Luckily she knows exactly the expert to call. He's a matchmaking mastermind who actually has the bow and arrow to prove it. Let's just call him...Cupid.

*Cupid's Dart* David Nobbs, 2014-11-20 Alan and Ange are on a train, heading for London. Alan is a philosophy lecturer, still a virgin at fifty-five; Ange a twenty-something, horoscope reading, darts groupie. They certainly don't expect their first casual meeting to lead to anything, but it does. Seizing the day, as they pull into Euston station, Alan asks Ange out to dinner and so begins the unlikeliest of liaisons. As they get to know each other, they are initiated into each other's worlds. From the claustrophobic confines of an Oxford College to the heady excitement of a big dart's match; from Liebfraumilch to Wittgenstein and everything in between. They even travel to Rome seeing many wonderful things as Alan learns to live for the moment and Ange to appreciate the finer things in life. But can they survive their differences in age and background? Are Alan's feelings the stuff of obsession and infatuation or is this true love? And what sort of philosopher is he if he cannot define and understand love? Told through the voice of Alan, this touching and hilarious story is much more than a tale about an unlikely couple. Ultimately, it is a story about the nature of love.

The Lucretian Renaissance Gerard Passannante, 2011-11-16 With *The Lucretian Renaissance*, Gerard Passannante offers a radical rethinking of a familiar narrative: the rise of materialism in early modern Europe. Passannante begins by taking up the ancient philosophical notion that the world is composed of two fundamental opposites: atoms, as the philosopher Epicurus theorized, intrinsically unchangeable and moving about the void; and the void itself, or nothingness. Passannante considers the fact that this strain of ancient Greek philosophy survived and was transmitted to the Renaissance primarily by means of a poem that had seemingly been lost—a poem insisting that the letters of the alphabet are like the atoms that make up the universe. By tracing this elemental analogy through the fortunes of Lucretius's *On the Nature of Things*, Passannante argues that, long before it took on its familiar shape during the Scientific Revolution, the philosophy of atoms and the void reemerged in the Renaissance as a story about reading and letters—a story that materialized in texts, in their physical recomposition, and in their scattering. From the works of Virgil and Macrobius to those of Petrarch, Poliziano, Lambin, Montaigne, Bacon, Spenser, Gassendi, Henry More, and Newton, *The Lucretian*

Renaissance recovers a forgotten history of materialism in humanist thought and scholarly practice and asks us to reconsider one of the most enduring questions of the period: what does it mean for a text, a poem, and philosophy to be “reborn”?

Cupid's C\*ck Ups Chelsea Black, 2020-12-09 Dating is like any exercise regime: It's not as fun as they make out in all of those late night TV informercials and, once you start, you can't stop for fear of losing your muscles. So dating after divorce isn't easy. Chelsea Black has been thrown out of the suburbs where single women are not allowed for fear they'll steal someone else's husband and thrown back into the dating world. A decade later and there is the internet, mobile phones and the constant threats of cocktails to thwart her plans for finding her FuHu (Future Husband). But try she does as she asks herself what does one have to do to be truly dating ready and why are so many men not doing it? Apparently more than one bargained for. The book takes you through all types of dating from online and sex only dating (yes this does exist) to new fiancés and the men who seem to forget that they have a wife at home. But through it all she manages to pick herself up and start again because there's no such thing as a date that can get you down, right? I love the book; it's actually hilarious. I was almost in tears with your Tupac story and your porn at university story. BG, New York It's the first season of sex in the city if it was from Samantha's point of view. SM, Johannesburg Witty, astute and so painfully close to home Anon, London This memoir is a tipsy and personal journey based on the blog The mizzadventures of Chelsea Black.

*Cupid's Playbook* Jeannine Kaiser, Keith Kaiser, 2010-01-01 Cupid's Playbook offers dating and relationship advice to singles, with the aim of helping them break out of negative dating patterns and find a healthy, happy relationship.

**Finding Cupid** B. E. Baker, 2019-02-01 Love is patient. Love is kind. Love is for chumps. Geo never plans weddings. Corporate retreats, fundraisers, birthday parties, and even the occasional engagement party? Sure. But weddings? Not anymore. She never dates, either. Not under any circumstance. These two rules keep her safe. They maintain order, and Geo needs a predictable life. So when her best friend Paisley tries to convince her to plan just one wedding, Geo turns her down flat. Until a clinical trial opens up—one that might save (a little bit of) her mother's future. But it costs money, and the only event planning that pays that kind of money is a wedding. How bad can it be to make an exception just this once? The undead want her legal advice. And she's starting to catch feelings for someone she shouldn't. Oh, and someone has triggered the Apocalypse. So she should probably stop that. . . **Cupid's Connection** C. A. King, 2019-03-26 Seeing magic in love is a talent; one Mina Amore puts to good use writing articles for Love Match magazine. When a rival targets her latest story, she is reassigned to investigating a new website for singles. There is one condition, though; love is not allowed to make an appearance. Guy Tremone has made a career out of debunking other reporter's articles. To him, love is nothing more than a string of coincidences. When a story lands him close to the unemployment line, the only path to redemption leads to questioning his own beliefs. This Valentine's Day, they are about to learn the meaning of their own Single
