Birds of Aruba, Bonaire, and Curaçao Jeffrey V. Wells, Allison Childs Wells, Robert Dean, 2017-06-15 Birds of Aruba, Bonaire, and Curaçao is the essential guide for anyone traveling to those islands. It showcases the more than 280 species seen on Aruba, Bonaire, and Curaçao and provides descriptions of and directions to the best places to bird, from the famous white sand beaches to hidden watering holes to the majestic national parks. Aruba, Bonaire, and Curaçao—the ABCs—located in the southwestern Caribbean, not far from Venezuela, share fascinating ecological features with the West Indies as well as the South American mainland, making birding on the islands unique. The identification portion of the book features endemic subspecies such as the Brown-throated Parakeet; a wide variety of wintering North American migrants; spectacular restricted-range northern South American species such as the Yellow-shouldered Parrot, Bare-eyed Pigeon, Troupial, Ruby-topaz Hummingbird, and Yellow Oriole; and West Indian species including the Pearly-eyed Thrasher and Caribbean Elaenia. Colorful introductory sections provide readers with a brief natural history of the islands, detailing the geography, geology, and general ecology of each. In the site guide that follows, Jeffrey V. Wells and Allison Childs Wells share their more than two decades of experience in the region, providing directions to the best birding spots. Clear, easy-to-read maps accompany each site description, along with notes about the species that birders are likely to find. The identification section is arranged in classic field guide format and offers vivid descriptions of each bird, along with tips on how to identify them by sight and sound. The accounts also include current status and seasonality, if relevant, and common names in English, Dutch, and Papiamentu, often inspired by the unique voices of the birds, such as the chibichibi (Bananaquit) and choco (Burrowing Owl). The accompanying color plates feature the beautiful work of illustrator Robert Dean. The final section, on conservation, raises awareness about threats facing the birds and the habitats on which they rely and summarizes conservation initiatives and needs, offering recommendations for each island.

Caribbean Anti-Trafficking Law and Practice Jason Haynes, 2019-07-11 This monograph investigates the International, European and Commonwealth Caribbean approaches to human trafficking from an Analytical Eclectic perspective. It presents a compelling, empirically based argument that although there is currently a panoply of measures aimed at preventing human trafficking, prosecuting offenders and protecting trafficked victims in both Europe and the Commonwealth Caribbean, these measures have in practice been fraught with a number of challenges, whether of a normative, institutional or individual nature. The continued existence of these challenges strongly suggests that there exists a 'disconnect' between anti-trafficking law and practice which is not peculiar to small-island developing States since they also extend to developed States, including the United Kingdom. Although these challenges are not insurmountable, this monograph advances the argument that sustained social, economic, political and legal commitments are both necessary and desirable, and that without such commitments, only pyrrhic victories would be won in the fight to eradicate the scourge of the twenty-first century. Given the importance of the issue of human trafficking and its inescapable impact on victims, families, communities, nations, regions and the international community as a whole, this monograph will serve as an important resource for policy makers, scholars, students and practitioners actively working in this increasingly dynamic area of law.

Handbook of Caribbean Economies Robert E. Looney, 2020-11-10 This volume aims to illustrate the uniqueness of the economies of the countries and territories of the Caribbean as well as the similarities they share with other regions. While most countries in the region share many of the characteristics of middle-income countries, theirs is a matter of extremes. Their generally small size suggests a fragility not found elsewhere. While much of the world is beginning to feel some effects of climate change, the Caribbean is ground zero. These factors suggest a difficult road ahead, but the chapters presented in this volume aim to help to spur the search for creative solutions to the region's problems. The chapters, written by expert contributors, examine the Caribbean economies from several perspectives. Many break new ground in questioning past policy mindsets, while developing new approaches to many of the traditional constraints limiting growth in the region. The volume is organized in four sections. Part I examines commonalities, including issues surrounding small economies, tourism, climate change and energy security. Part II looks at obstacles to sustained progress, for example debt, natural disasters and crime. In Part III chapters consider the specific role of external influences, including the USA and the European Union, the People's Republic of China, as well as regional co-operation. The volume concludes in Part IV with country case studies intended to provide a sense of the diversity that runs through the region.

The Routledge Companion to Applied Qualitative Research in the Caribbean Corin Bailey, Roy McCree, Latoya Lazarus, Natalie Dietrich Jones, 2023-11-10 This cutting-edge book provides a comprehensive examination of applied qualitative research in the Caribbean. It highlights the methodological diversity of qualitative research by drawing on various approaches to the study of Caribbean society, addressing the lack of published qualitative research on the region. Featuring 17 chapters, the book covers five key areas, namely Overview and Introduction; Gender, Crime, and Violence; Gender and Intimate Partner Violence; Health, Management, and Public Policy; and Migration and Tourism. Throughout the course of the book, the chapters explore how different kinds of qualitative research can be used to inform public policy and help deal with a myriad of socioeconomic problems that affect Caribbean people. The book further uses distinct approaches to showcase a diverse selection of qualitative research methods, such as autoethnography, life history, narrative enquiry, participants' observation, grounded theory, case study, and critical discourse. The book will be beneficial for students and scholars both from the Caribbean and internationally who are engaged in the conduct of qualitative empirical enquiry. It will further hold appeal to advanced undergraduate level classes and postgraduate students along with scholars in the fields of social sciences and education.

The American Philatelist , 1889

The Caribbean in a Changing World Stephanie Fullerton-Cooper, Erica Gordon, Livingston Smith, 2017-06-23 This collection is a critical reflection of the evolution of Caribbean countries since the demise of the West Indies Federation in 1962. At this historical juncture, some territories opted for independence while others remained dependent territories. The volume examines Caribbean societies in comparative and general ways, covering aspects of their ongoing development and challenges. It covers such areas as Caribbean integration, the state of human capital and social policy in the region, the education sector, Caribbean economic sustainability, and, significantly, the physical environment of the Caribbean. A central question has always been: should these territories have gone independent or stayed under some British tutelage? The book addresses this question, illustrating that these island states have made considerable progress, especially in the maintenance and deepening of democratic practices.

The report also includes a series of commentaries from ARF Council members on how sports data can fuel illegal betting; the greater negative impacts of illegal betting and gambling-related harm; international and intergovernmental issues around corruption in sport; and notable examples and development in sports law in relation to illegal betting. The report also includes contributions from INTERPOL and the UNODC regarding their views on the relationship between illegal betting, sports corruption, and organised crime.

A Worldwide Guide to Retirement Destinations Louise Hudson, Simon Hudson, 2019-10-01 This guide provides information on retiree destinations around the world, all based on research conducted by the authors and hands-on testimonies from each region. It consists of 10 chapters, starting with a general overview of retiree migration patterns, which examines the factors retirees consider when deciding on a destination. The following nine chapters each cover one particular region of the world that is attracting retirees. Mini-profiles of retiree migrants in each chapter include anecdotes and experiences from diverse destinations. The reader will hear, for example, from an American luxuriating on a Spanish island; a Brit building homes in the mountains and coast of BC, Canada; a New York filmmaker reinventing in Cuenca, Ecuador; and British skiers retiring to “encore careers” in the French Alps. Chapters also include “destination profiles”—short vignettes that analyze retirement from the destination perspective, again based on personal interviews with key stakeholders from a national, regional and local perspective.

The Struggle of Non-Sovereign Caribbean Territories H. Adlai Murdoch, 2021-02-12 *The Struggle of Non-Sovereign Caribbean Territories* is an essay collection made up of two sections; in the first, a group of anglophone and francophone scholars examines the roots, effects and implications of the major social upheaval that shook Guadeloupe, Martinique, French Guiana, and Réunion in February and March of 2009. They clearly demonstrate the critical role played by community activism, art and media to combat politico-economic policies that generate (un)employment, labor exploitation, and unattended health risks, all made secondary to the supremacy of profit. In the second section, additional scholars provide in-depth analyses of the ways in which an insistence on capital accumulation and centralization instantiated broad hierarchies of market-driven profit, capital accumulation, and economic exploitation upon a range of populations and territories in the wider non-sovereign and nominally sovereign Caribbean from Haiti to the Dutch Antilles to Puerto Rico, reinforcing the racialized patterns of socioeconomic exclusion and privatization long imposed by France on its former colonial territories.

Women's Lives around the World [4 volumes] Susan M. Shaw, Nancy Staton Barbour, Patti Duncan Ph.D., Kryn Freehling-Burton Ph.D., Jane Nichols, 2018-01-04 Providing an in-depth look at the lives of women and girls in approximately 150 countries, this multivolume reference set offers readers transnational and postcolonial analysis of the many issues that are critical to the success of women and girls. For millennia, women around the world have shouldered the responsibility of caring for their families. But in recent decades, women have emerged as a major part of the global workforce, balancing careers and family life. How did this change happen? And how are societies in developing countries responding and adapting to women's newer roles in society? This four-volume encyclopedia examines the lives of women around the world, with coverage that includes the education of girls and teens; the key roles women play in their families, careers, religions, and cultures; how issues for women intersect with colonialism, transnationalism, feminism, and established norms of power and control. Organized geographically, each volume presents detailed entries about the lives of women in particular countries. Additionally, each volume offers sidebars that spotlight topics related to women and girls in specific regions or focus on individual women's lives and contributions. Primary source documents include sections of countries' constitutions that are relevant to women and girls, United Nations resolutions and national resolutions regarding women and girls, and religious statements and proclamations about women and girls. The organization of the set enables readers to take an in-depth look at individual countries as well as to make comparisons across countries.

Forgotten Diplomacy Vincent K.L. Chang, 2019-11-26 In this meticulously researched volume, Vincent Chang resurrects a near forgotten yet pivotal chapter of Dutch-Chinese ties to narrate how World War II, the civil war in China, and Indonesia's decolonization redefined and remade this age-old bilateral relationship. Drawing on a unique range of hitherto unexplored archives, the book explains how China's nascent rise on the global scene and the Netherlands' simultaneous decline as a colonial power shaped events in Dutch-controlled Indonesia (and vice versa) and prompted a recalibration of their mutual ties, culminating in the Netherlands' recognition of the People's Republic and laying the foundations for Dutch and Chinese policies through to the present. Offering insightful analyses of power dynamics and international law at the close of empire, this book is a critical resource for historians and China specialists as well as scholars of international relations.

Asphalt Kenneth O'Reilly, 2021-07 Asphalt: A History provides a narrative history of asphalt and its effects from ancient times to the modern day. Although asphalt creates our environment, it also threatens it--

Netherlands Yearbook of International Law 2020 Maarten den Heijer, Harmen van der Wilt, 2022-08-26 This volume of the Netherlands Yearbook of International Law (NYIL) addresses the question how the assumption that states have a common obligation to achieve a collective public good can be reconciled with the fact that the 195 states of today's world are highly diverse and increasingly unequal in terms of size, population, politics, economy, culture, climate and historical development. The idea of common but differentiated responsibilities is on paper the perfect bridge between the factual inequality and formal equality of states. The acknowledgement that states can have common but still different – more or less onerous – obligations is predicated on the moral and legal concept of global solidarity. This book encompasses general contributions on the function and the content of the related principles, chapters that describe and evaluate how the principles work in a specific area of international law and chapters that address their efficiency and broader ramifications, in terms of compliance, free-rider behaviour and shifting balances of power. The originality of the book resides in the integration of conceptual, comparative and practical dimensions of the principles of global solidarity and common but differentiated responsibilities. The book is therefore highly recommended reading for both academics with a theoretical interest and those working within international organisations. The Netherlands Yearbook of International Law was first published in 1970. It offers a forum for the publication of scholarly articles in a varying thematic area of public international law.

The Ends of Empire John Connell, Robert Aldrich, 2020-09-14 This book offers a fresh analysis of constitutional, economic, demographic and cultural developments in the overseas territories of Britain, France, the Netherlands, Denmark, Spain, the United States, Australia and New Zealand. Ranging from Greenland to Gibraltar, the Falklands to the Faroes, and encompassing islands in the Atlantic, Pacific and Indian Oceans, and the Caribbean, these territories command attention because of their unique status, and for the ways that they occasionally become flashpoints for rival international claims, dubious financial activities, illegal migration and clashes between metropolitan and local mores. Connell and Aldrich argue that a negotiated dependency brings greater benefits to these territories than might independence.
