International Financial Statistics provides a complete
library of continuously updated international statistics on
all aspects of international and domestic finance. The
monthly print edition contains over 1,000 pages of
statistical data in each issue. It reports, for most countries
of the world, current data needed in the analysis of
problems of international payments and of inflation and
deflation, i.e., data on exchange rates, international
liquidity, money and banking, interest rates, prices,
production, international transactions, government
accounts, and national accounts. Information is presented

in country tables and in tables of area and world aggregates.
