Caged Heat Tony Loxley,2016-09-05 The most powerful, thrilling, and popular cars and drivers ever to race on dirt track ovals spring from these pages! Sprint car racing competition in and between the US, Australia and New Zealand has never been better than it is today. Sprint car fans are among the most loyal in motorsports, they are truly dedicated to the tracks, the drivers

The Godfather of New England Stock Car Racing Adrienne J Venditti,2019-05-18 This book is dedicated to the man whose life inspired me to tell his story. His name is D. Anthony Venditti, widely known as the Godfather of Stock Car Racing in New England. It is also dedicated to my mother, with her eternal love and devoted support of her beloved Anthony, her family, and racing. She and the Godfather enabled and empowered our family to persevere in the sport. This is to all those with unending convictions in the Godfather and to the Seekonk Fraternity of racing. This book is a pictorial and a closer look at the life of the Godfather. He was the youngest promoter in motor sports in the United States in the 1940s. And as a twenty-five-year-old, he planned, engineered, and built his speedway. He was young and full of ambition. It was his dream, an American dream, to build, open, and operate his speedway at the end of World War II, in 1946. Yet when in his advanced years, he then became known as the oldest living promoter in stock car racing. He consecutively ran his race plant each year, faithfully opening his facility, without fail. He never missed a season under his reign—an unheard-of feat of forty-five years as a stock car racing promoter. Seekonk Speedway continues to run without any ambiguity by the same family. The speedway is proudly still in business all these seventy-three consecutive years of racing in the books. Anthony is celebrated and acclaimed for his pioneering in the American sport of auto racing, awarded RPM's "1978 Promoter of the Year." It was with great adoration of the sports community that he is acknowledged for his forethought and far-reaching ideas of innovation pertaining to mechanical engineering, safety features in facility construction, and administrative procedures. Mr. Venditti is attributed to numerous awards for his devotion for the betterment of the sport of auto racing.

Encyclopedia of Stock Car Racing [2 volumes] Lew Freedman,2013-03-14 This two-volume encyclopedia is the Daytona 500 of stock car racing books—an essential Bible that provides an all-encompassing history of the sport as well as an up-to-date examination of modern-day stock car racing. How did stock car racing become firmly entrenched in American pop culture, especially in light of the lack of interest in motorsports overall as a spectator activity in the United States? And what has been the secret to NASCAR's financial success and growth over the last six decades? Encyclopedia of Stock Car Racing highlights approximately 250 subjects that have defined the sport since stock car racing was first organized. Organized in A-Z order, it covers all of the greatest drivers, such as Richard Petty, Jimmie Johnson, Junior Johnson, and David Pearson; the special races such as the Daytona 500 and Brickyard 400; and the famed tracks across the country, from Bristol Motor Speedway to Darlington Raceway to Talladega Superspeedway. This unprecedented resource collects information about every element of NASCAR history in one place: the early personalities who shaped the sport and set things in motion, the past greats who have now retired, and today's rising stars who continue to make stock car racing one of the most popular sports in the United States.

Driving with the Devil Neal Thompson,2007-08-28 The true story behind NASCAR's hardscrabble, moonshine-fueled origins, "fascinating and fast-moving . . . even if you don't know a master cylinder from a head gasket" (Atlanta Journal-Constitution). "[Neal] Thompson exhumes the sport's Prohibition-era roots in this colorful, meticulously detailed history."—Time Today's NASCAR—equal parts Disney, Vegas, and Barnum & Bailey—is a multibillion-dollar conglomeration with 80 million fans, half of them women, that grows bigger and more mainstream by the day. Long before the sport's rampant commercialism lurks a distant history of dark secrets that have been carefully hidden from view—until now. In the Depression-wracked South, with few options beyond the factory or farm, a Ford V-8 became the ticket to a better life. Bootlegging offered speed, adventure, and wads of cash. Driving with the Devil reveals how the skills needed to outrun federal agents with a load of corn liquor transferred perfectly to the red-dirt racetracks of Dixie. In this dynamic era (the 1930s and '40s), three men with a passion for Ford V-8s—convicted felon Raymond Parks, foul-mouthed mechanic Red Vogt, and war veteran Red Byron, NASCAR's first champ—emerged as the first stock car "team." Theirs is the violent, poignant story of how moonshine and fast cars merged to create a sport for the South to call its own. In the tradition of Laura Hillenbrand's *Seabiscuit*, this tale captures a bygone era of a beloved sport and the character of the country at a moment in time.

Rolling Thunder Stock Car Racing: White Lightning Kent Wright,Don Keith,1999-03-15 Jodell Lee, raised in East Tennessee by his grandfather, becomes hooked on the thrill of stock car racing and begins to compete on dirt tracks against the likes of the Pettys, Ned Jarrett, and Junior Johnson—who soon become legends. Original.

The Race Bob Judd, Bob Judd's debut novel, Formula One, took us behind the scenes of the glamorous and dangerous world of professional race-car driving and behind the wheel of some of its most powerful machines. Now, the author who brought us that absorbing, tingling story (The New York Times) is back with *The Race*, a thriller as clever and action-packed as the last one. At the opening of *The Race*, Forrest Evers, the dashing, cultured hero of Formula One, has just won the Grand Prix of Monaco. His celebration is cut short, though, when he is told by telegram to report to the New York office of his corporate sponsor so they can fire him in person. Ellie Chapman, the beautiful CEO of the company, tells him that she has lost twelve million dollars of the company's money and they can no longer afford to back his career. When Evers offers to arrange a sting to get the money back, *The Race* takes off with the speed and thrills of a 200-m.p.h. race that doesn't let up until the checkered flag. The target

of Evers's scam is Billy Fraser, a brash American executive who rules a global media empire. To bait the trap for Fraser, Evers borrows a friend's private jet to zip down to that Caribbean capital of money laundering and shady business deals, the Cayman Islands. Once the deal is set up, though, Evers becomes a marked man. As he trots the globe trying to salvage the deal and stay on the racing circuit, it becomes clear that someone wants him dead.
