*Games and Bereavement* Sabine Harrer, 2019-03-31 How can videogames portray love and loss? Games and Bereavement answers this question by looking at five videogames and carrying out a participatory design study with grieverers. Sabine Harrer highlights possible connections between grief and videogames, arguing that game design may help make difficult personal feelings tangible. After a brief literary review of grief concepts and videogame theory, the book deep-dives into examples of tragic inter-character relationships from videogame history. Building on these examples, the book presents a case study on pregnancy loss as a potential grief experience that can be validated through game design dialogue.

**The Poisonwood Bible** Barbara Kingsolver, 2009-10-13 New York Times Bestseller • Finalist for the Pulitzer Prize • An Oprah's Book Club Selection "Powerful . . . [Kingsolver] has with infinitely steady hands worked the prickly threads of religion, politics, race, sin and redemption into a thing of terrible beauty." —Los Angeles Times Book Review The Poisonwood Bible, now celebrating its 25th anniversary, established Barbara Kingsolver as one of the most thoughtful and daring of modern writers. Taking its place alongside the classic works of postcolonial literature, it is a suspenseful epic of one family's tragic undoing and remarkable reconstruction over the course of three decades in Africa. The story is told by the wife and four daughters of Nathan Price, a fierce, evangelical Baptist who takes his family and mission to the Belgian Congo in 1959. They carry with them everything they believe they will need from home, but soon find that all of it—from garden seeds to Scripture—is calamitously transformed on African soil. The novel is set against one of the most dramatic political chronicles of the twentieth century: the Congo's fight for independence from Belgium, the murder of its first elected prime minister, the CIA coup to install his replacement, and the insidious progress of a world economic order that robs the fledgling African nation of its autonomy. Against this backdrop, Orleanna Price reconstructs the story of her evangelist husband's part in the Western assault on Africa, a tale indelibly darkened by her own losses and unanswerable questions about her own culpability. Also narrating the story, by turns, are her four daughters—the

teenaged Rachel; adolescent twins Leah and Adah; and Ruth May, a prescient five-year-old. These sharply observant girls, who arrive in the Congo with racial preconceptions forged in 1950s Georgia, will be marked in surprisingly different ways by their father's intractable mission, and by Africa itself. Ultimately each must strike her own separate path to salvation. Their passionately intertwined stories become a compelling exploration of moral risk and personal responsibility.

**The Solace of Leaving Early** Haven Kimmel, 2002-07-23 Using small-town life as a springboard to explore the loftiest of ideas, Haven Kimmel's irresistibly smart and generous first novel is at once a romance and a haunting meditation on grief and faith. Langston Braverman returns to Haddington, Indiana (pop. 3,062) after walking out on an academic career that has equipped her for little but lording it over other people. Amos Townsend is trying to minister to a congregation that would prefer simple affirmations to his esoteric brand of theology. What draws these difficult-if not impossible-people together are two wounded little girls who call themselves Immaculata and Epiphany. They are the daughters of Langston's childhood friend and the witnesses to her murder. And their need for love is so urgent that neither Langston nor Amos can resist it, though they do their best to resist each other. Deftly walking the tightrope between tragedy and comedy, *The Solace of Leaving Early* is a joyous story about finding one's better self through accepting the shortcomings of others.

**Game Feel** Steve Swink, 2008-10-13 *Game Feel* exposes feel as a hidden language in game design that no one has fully articulated yet. The language could be compared to the building blocks of music (time signatures, chord progressions, verse) - no matter the instruments, style or time period - these building blocks come into play. Feel and sensation are similar building blocks whe
