The Duty of Delight Dorothy Day, 2011-10-25 For almost fifty years, through her tireless service to the poor and her courageous witness for peace, Dorothy Day offered an example of the gospel in action. Now the publication of her diaries, previously sealed for twenty-five years after her death, offers a uniquely intimate portrait of her struggles and concerns. Beginning in 1934 and ending in 1980, these diaries reflect her response to the vast changes in America, the Church, and the wider world. Day experienced most of the great social movements of her time but, as these diaries reveal, even while she labored for a transformed world, she simultaneously remained grounded in everyday human life: the demands of her extended Catholic worker family; her struggles to be more patient and charitable; the discipline of prayer and worship that structured her days; her efforts to find God in all the tasks and encounters of daily life. A story of faithful striving for holiness and the radical transformation of the world, Day's life challenges readers to imagine what it would be like to live as if the gospels were true.

Synthesizing Highway Transportation, Land Development, Municipal and School Finance in the Greater Twin Cities Area, 1970-1997, 2000 This report presents results of analyses of land development, school finance and local government finance, and statistical analyses of the relationship between land development and transportation infrastructure investment in the Twin Cities region from 1970-1997. The report is second in a series on Twin Cities Regional Dynamics, which is one of six parts of the Transportation and Regional Growth Study sponsored by the Center for Transportation Studies, University of Minnesota, the Metropolitan Council of the Twin Cities, and the Minnesota Department of Transportation.

Dorothy Day Patrick Jordan, 2015-12-14 By any measure, Dorothy Day lived a fascinating life. She was a journalist, activist, single mother, convert, Catholic laywoman, and co-founder of the Catholic Worker Movement. A lifelong radical who took the gospels at their word, Dorothy Day lived among the poor as one of them, challenging both church and state to build a better world for all people. Steeped in prayer, the liturgy, and the spiritual life, she was jailed repeatedly for protesting poverty, injustice, and war. Through it all, she created a sense of community and remained down-to-earth and humanly approachable. To have known Dorothy Day was to have experienced not only her charm and humanity, but the purposefulness of her life. In *Dorothy Day: Love in Action*, Patrick Jordan—who knew her personally—conveys some of the hallmarks of Day's fascinating life and the spirit her adventure inspires. *People of God* is a series of inspiring biographies for the general reader. Each volume offers a compelling and honest narrative of the life of an important twentieth or twenty-first century Catholic. Some living and some now deceased, each of these women and men has known challenges and weaknesses familiar to most of us but responded to them in ways that call us to our own forms of heroism. Each offers a credible and concrete witness of faith, hope, and love to people of our own day.

Nietzsche's Political Economy Dmitri G. Safronov, 2023-08-21 Safronov's *Nietzsche's Political Economy* is a pioneering appraisal of Nietzsche's critique of industrial culture and its unfolding crisis. The author contends that Nietzsche remains unique in conceptualizing the upheavals of modern political economy in terms of the crisis of its governing values. Nietzsche scrutinises the norms which, not only preside over the unfathomable build-up in debt, the proliferation of meaningless, impersonal slavery and the rise of increasingly repressive social control systems, but inevitably set these precarious tendencies of modern political economy on a collision course liable to culminate in an unprecedented human and environmental catastrophe. Safronov explores the core themes of Nietzsche's political economy—debt, slavery, and the division of labour—with reference to the influential views of Adam Smith and Karl Marx, as well as against the backdrop of the Long Depression (1873–1896), the first truly international crisis of industrial capitalism, during which most of Nietzsche's work was completed. In Nietzsche's assessment, modern political economy is predicated on the valuations that diminish humankind's prospects and harm the planet's future by consistently enfeebling the present, as long as there is profit to be made from it. Nietzsche's critical insight, which challenges the most fundamental tenet of modern economics and finance, is that in order to build a stronger and intrinsically more valuable future in lieu of simply speculating on it, as though the liberal Promised Land could descend upon us like the manna from heaven at the wave of an invisible hand [of the market], it is necessary to walk from the future we dare to envisage resolutely back to the present we inhabit to determine what demands achieving such a vision would impose upon us, instead of embellishing the 'here and now' by cynically discounting the future to the [net] value of the present while disparaging, disowning and rewriting the past to unburden ourselves of its troubling legacy, as we continue to frivolously squander its capital to the alluring tunes of the 'sirens who in the marketplace sing to us of the future'. The enabling mechanism for changing our valuing perspectives, Nietzsche tells us, lies dormant in us and it must be unlocked before it is too late.

200 Years at St. John's York Mills Scott Kennedy, 2016-10-22 The history of the oldest parish church in the Toronto area is also the history of North Toronto and a changing culture. The War of 1812 was barely over when the people of York Mills felled the trees that would become the first St. John's Anglican Church. Built in 1816 on land donated by pioneer settlers Joseph and Catherine Shepard, the little log church was the first outpost of St. James Church in the Town of York and the first parish church in what would one day become the City of Toronto. The brick church that stands there today, high on the land overlooking Hogg's Hollow, was completed in 1844. Though enlarged and improved over the years, it continues to serve as a welcoming place of worship and a valuable repository of Canadian history.

Land and Property Law in Countries of Common Law Oleg Igorevich Krassov, The monograph covers main aspects of the land and property law applicable in England, Wales, Northern Ireland, British Overseas Territories, Crown Dependencies, some countries of the Commonwealth Caribbean, the Republic of Ireland, the Republic of Cyprus, the Commonwealth of Australia, New Zealand and island countries of Oceania, the United States of America, and Canada. Concepts which consider legal notions "land", "real property", "legal real estate" meaning are analyzed. Characteristics of titles to land and interests as to the land, of the law "landlord - tenant", of the concurrent ownership are given. The essence of the doctrines of violating the boundaries of ownership, causing private

inconveniences, taking possession of land by a person who does not have a title to it is revealed are considered. The monograph is targeted to students, graduate students and teachers of law schools, employees of legislative, executive and judicial authorities, as well as for all those interested in land, civil law and comparative legal studies.

Toronto Local History 3-Book Bundle Scott Kennedy,2017-03-04 A colourful look at Toronto's pioneer roots, tracing the history of three neighbourhoods from their farming days to modern day. Includes: Don Mills: From Forests and Farms to Forces of Change As recently as 1970, wheat crops were grown at Don Mills – and no small amount, but enough to line Toronto’s grocery-store shelves with baked goods. Single-herd milk was also commonplace, thanks to this last vestige of the city’s agricultural past. By 1980, it had been paved over, but Scott Kennedy offers a glimpse of the way things used to be. 200 Years at St. John's York Mills: The Oldest Parish in Toronto St. John’s Church at York Mills was built in 1816 on land that had been donated by pioneer settlers: a little log building that was the first parish church in the City of Toronto. The brick church that stands there today, completed in 1844 and enlarged over the years, stands as a welcoming place of worship and repository of Canadian history. Willowdale: Yesterday's Farms, Today's Legacy In 1855, Willowdale post office opened in Jacob Cummer's store on Yonge Street. Today it is a bustling urban environment. Scott Kennedy recounts the notable stories of what happened in between and who was there as Willowdale evolved into a modern community.

Marx's Proletariat (RLE Marxism) David W. Lovell,2015-04-24 George Orwell wrote in Nineteen Eighty Four that ‘If there is hope, it lies in the proles.’ A century earlier Marx was unequivocal: the future belonged to the proletariat. Today such confidence might seem misplaced. The proletariat has not yet fulfilled Marx’s expectations, and seems unlikely ever to do so. How could Marx have entertained the notion that the proletariat would emancipate humanity from capitalism and from class rule itself? This book, first published in 1988, attempts an explanation by examining the sources and development of Marx’s concept of the proletariat. It contends that this was not only a crucial element in Marx’s theory but a significant departure in socialist thought. By examining this concept in detail the book uncovers a major contradiction in Marxian thought: although the proletariat is assigned a momentous task it is chiefly depicted as the class of suffering which is why, historically, it has preferred security to enterprise.

Assessment and Reclamation of Contaminated Land R M Harrison,R E Hester,2007-10-31 Contaminated land and the methods and legal controls governing its reclamation for subsequent development and use are of great current interest and concern. This volume covers aspects of this subject, ranging from the origins and extent of contaminated land problems, including effects on human health, through investigative measures, to specific techniques of remediation. It is written in the context of the new UK contaminated land regime and includes human and ecological risk assessment methodology, and the legal liabilities and insurance aspects of contaminated land. This authoritative review will be welcomed by those involved in the areas of land use planning and development, consultants and engineers in contaminated site investigation and remediation, and environmental regulators. Students of land management and environmental science will also find it essential reading.
