It provides lecturers with a useful platform to integrate key event topics into the learning environment. The book discusses the management process throughout the 'event cycle', from the pre-event planning stage; on-site delivery to the post event stage. Within each of these 4 sections, there are 2 or 3 separate chapters, each with their own objectives. The book discusses practical and operational elements, such as project management, marketing, sponsorship deals and risk assessment, that need to be put in place both before and during the event. The final section: Beyond the event, examines current and future event trends and issues, and discusses the various career paths that exist and the skills and qualifications required to gain employment and start

Each chapter concludes with a section called For the Classroom, featuring discussion points and activities based around the chapter content, as well as reference sources and suggested reading.
