His book is not just of interest to composers, but it also provides a valuable insight for anyone interested in the development of twentieth-century music. Peter Schat, a former pupil of Pierre Boulez, exposes more than a new theory of music in The Tone Clock. Although he is a long-experienced serialist composer, in devising and using his tone clock system he has reached the clarity and simplicity which comprise two of his major compositional aims. His book, profusely illustrated with clearly analysed musical examples, will enable other composers to achieve similar aims in their own way, while remaining faithful to their own musical personalities. A former pupil of Pierre Boulez, Peter Schat is a well-known Dutch contemporary serialist composer.

Formerly a virtuoso in the model of his idol, Clifford Brown, Morgan brought to his critically acclaimed Blue Note records of the era an emotionally charged, muscular tone, full of poise and control. But it was with the record Sidewinder, recorded in 1963, that Morgan found his greatest fame and commercial success, due to the infectious groove of the title tune. By the time of his death, at thirty-three---murdered in a New York City club by his girlfriend Helen More, during a gig - Morgan had begun a new phase of his career, experimenting with freer-forms of musical expression.--BOOK JACKET.

**Translation and Music** Sebnem Susam-Sarajeva,2016-04-08 Popular and multimodal forms of cultural products are becoming increasingly visible within translation studies research. Interest in translation and music, however, has so far been relatively limited, mainly because translation of musical material has been considered somewhat outside the limits of translation studies, as traditionally conceived. Difficulties associated with issues such as the 'musicality' of lyrics, the fuzzy boundaries between translation, adaptation and rewriting, and the pervasiveness of covert or unacknowledged translations of musical elements in a variety of settings have generally limited the research in this area to overt and canonized translations such as those done for the opera. Yet the intersection of translation and music can be a fascinating field to explore, and one which can enrich our understanding of what translation is and how it relates to other forms of expression. This special issue is an attempt to open up the field of translation and music to a wider audience within translation studies, and to an extent, within musicology and cultural studies. The volume includes contributions from a wide range of musical genres and languages: from those that investigate translation and code-switching in North African rap and rai, and the intertextual and intersemiotic translations revolving around Mahler's lieder in Chinese, to the appropriation and after-life of Kurdish folk songs in Turkish, and the emergence of rock'n roll in Russian. Other papers examine the reception of Anglo-American stage musicals and musical films in Italy and Spain, the concept of 'singability' with examples from Scandinavian languages, and the French dubbing of musical episodes of TV series. The volume also offers an annotated bibliography on opera translation and a general bibliography on translation and music.

**Lee Morgan** Tom Perchard,2006 While what should have been Morgan's most successful years were hampered by a heroin addiction, the ascendant black liberation movement of the late sixties gave the musician a new, political impulse, and he returned to the jazz scene to become a vociferous campaigner for black musicians' rights and representation. But Morgan's personal life remained troubled, and during a fight with his girlfriend at a New York club, he was shot and killed, aged thirty-three.
